The Future of AI

Humans and Autonomous Agents

For thousands of years, humans have **partnered with non-human entities** that possess independent agency, sensory advantages, and specialised skills to achieve goals they could not accomplish alone.

Dimension	Animal Parallel	AI Equivalent
Delegation	Dogs	Goals
Special Skills	Horsepower	Data Speed
Integration	Livestock	Re-Architecting
Control	Independent Will	Hallucinations
Trust	Emotional Bonds	AI Personas

The Solution

Office of the CFO – Accounts Payable

Building on our existing robotic and document understanding solutions, we enhanced them with additional Intelligent Extraction & Processing (IXP) Maestro and App capabilities.

IXP	Classify Email, Extract & Validate Details
RPA	Enter onto ERP
APP	Allocate remaining work & exceptions
Maestro	E2E oversight
