

UiPath Sub-processors

Subject to customer's instructions or, where available, customer's choice in the relevant component, UiPath will host the customer instance(s) in the locations mentioned below. UiPath engages third-party sub-processors to carry out its business operations. UiPath requires all such sub-processors to abide by confidentiality and security obligations, and comply with applicable data protection laws, including without limitation, the GDPR. Some of the sub-processors may be affiliates of UiPath that are employed to provide services or perform general business activities. The list of UiPath affiliates can be found [here](#).

The list below is a list of the sub-processors used in connection with **UiPath's cloud products** and support services and will be updated from time to time. UiPath will notify you of the changes if you use cloud products.
