Preview Roadmap & Registration

Learn what's in private & public preview, what's coming soon, and register for early access

Name	Short Description	Onboarding Notes	GA Target
Coming Soon			
Private Previews			
Agent Builder	A design and evaluation interface for Agents. It provides a guided experience for RPA developers, data scientists, AI developers and business users to build, evaluate and publish Agents.		Learn more →
Audit 2.0	Audit 2.0 will provide enhanced visibility into user activity across multiple UiPath services, with improved filtering, export capabilities, and support for industry-specific compliance needs.	Join the waitlist to be notified of the next onboarding	Q2 2025 Get started →
Business Rules	Business Rules enable the storage and management of DMN-based rules in Orchestrator, evaluation within any process via a dedicated activity, and rule modifications without the need for redeploying the processes that use them.	Join the waitlist to be notified of the next onboarding.	Q2 2025 Get started →
Centralized Access Management. Phase 2	A new set of features to centralize and customize role management across tenants and orgs, streamline admin navigation, and dramatically improve auditing and troubleshooting across your automation ecosystem.	Join the waitlist to be notified of the next onboarding	Q2 2025 Get started →

UiPath Most Valuable Professionals

The UiPath Most Valuable Professional (MVP) Award is our way of recognizing passionate automation experts who go above and beyond, not just with their UiPath skills, but also in how they support others.

More than tech experts, they're mentors, leaders, and changemakers in the UiPath Community.

Every year, we welcome a new group of MVPs from around the world, selected for their meaningful contributions and impact.

15 Oct – Nov 2025
Applications open

UiPath MVP amongst us!!!
