

# Orchestrator

Enterprise-ready, in-cloud or on-prem

## Deploy, manage, and secure your UiPath robot workforce

**Lower TCO** through enterprise-scale deployment and management that integrates with the systems you already use.

**Deploy attended and unattended robots** and automations simply by adding users to Active Directory – with deprovisioning when the user is removed from the group.

**Manage all your unattended and attended robots centrally**, with universal monitoring and remote control and optimization for unattended robots in the cloud or on-prem.

- ✓ Complete automation lifecycle support with versioning and role-based control
- ✓ Enterprise credentials support via pluggable or native credential stores
- ✓ Execution failure snapshots and transaction failure retry
- ✓ Multiple unattended UI-less processes in the same Windows session
- ✓ Orchestrator Mobile management app for iOS and Android

## Compliance and security with centralized monitoring, analysis, and audit on a secure, certified platform.

**RBAC management** at the tenant and modern folder level with fine-grained permissions for separation of duties.

**Comprehensive logging** of all robot and automation actions, including EDR protection status, plus customizable, centralized business exception alerts.

- ✓ Data encryption in-transit (https with TLS 1.x) and at rest (AES-256)
- ✓ ISO 27001: 2013 attestation across SaaS and on-prem
- ✓ Robot protection status through integration with CrowdStrike Falcon
- ✓ License insights shown across the entire enterprise
- ✓ Audit log of every action in Orchestrator
- ✓ Configurable alerts

## Open and extensible architecture with multiple deployment options - and the world's largest RPA community in your corner.

- Native REST APIs, plus UiPath Marketplace for integration with ERP, BPM, or third-party systems
- Uptime guarantee in UiPath Automation Cloud, or High Availability add-on for on-prem
- Predictable support lifecycle: choose between frequent feature updates or fewer upgrade cycles
- Powerful pre-built integrations with third-party products to reduce automation time to value
- Comprehensive free online documentation and Academy training

**Orchestrator** is available as part of:

Automation Cloud

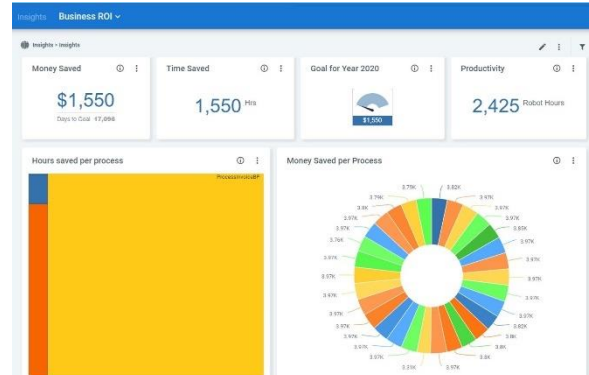

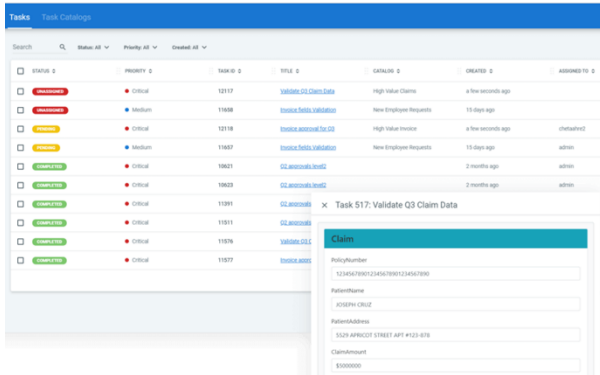

Automation Suite

Stand-alone installation

# People and robots work together as a team to drive measurable impact on your business.

**Long-running workflows** allow unattended robots to move on to another important job while waiting for human input on a pending one.

Add **UiPath Insights** for rich RPA and ROI analytics over time. Integrations with Tableau, Kibana, and Power BI available.

- ✓ Transaction queues with predictive SLAs help robots meet your deadlines
- ✓ Personal workspaces so everyone can build automations with centralized control
- ✓ Trigger automations remotely by time, or by a threshold of new queue items
- ✓ Prioritized jobs & queue editing let you change what your robots are working on
- ✓ Business users can respond to long-running workflows from Orchestrator Mobile

To learn more about how using UiPath Orchestrator will unlock the potential of automation at scale in your business, please visit:
