

# Orchestrator

Enterprise-ready, in-cloud or on-prem

## Benefits & capabilities

**Lower TCO** through enterprise-scale deployment and management that integrates with the systems you already use.

**Compliance and security** with centralized monitoring, analysis, and audit on a secure, certified platform.

**People, robots, and agents work together** as a team to drive measurable impact on your business.

## Lower TCO

**Manage all your unattended and attended robots centrally**, with universal monitoring and remote control and optimization for unattended robots in the cloud or on-prem.

- ✓ Complete automation lifecycle support with versioning and role-based control
- ✓ Enterprise credentials support via pluggable or native credential stores
- ✓ Execution failure snapshots and transaction failure retry
- ✓ Multiple unattended UI-less processes in the same Windows session
- ✓ Orchestrator Mobile management app for iOS and Android

**Open and extensible architecture**

**Multiple deployment options and the world's largest automation community in your corner.**

- Native REST APIs, plus UiPath Marketplace for integration with ERP, BPM, or third-party systems.
- Uptime guarantee in UiPath Automation Cloud, or High Availability add-on for on-prem.
- Predictable support lifecycle: choose between frequent feature updates or fewer upgrade cycles.
- Powerful pre-built integrations with third-party products to reduce automation time to value.

Completed Jobs Timeline

**“Not every automation project will be transformational, but for every transformation project there is automation at heart and core. That has started to shift the mindset.”**

**Akbar Thobani**  
Senior Director Automation and AI  
Pepsi

## Compliance, governance and security

**RBAC management** at the tenant and modern folder level with fine-grained permissions for separation of duties.

**Comprehensive logging** of all robot and automation actions, EDR protection status, and customizable, centralized business exception alerts.

- ✓ Data encryption in-transit (HTTPS with TLS 1.2+) and at-rest (AES-256)
- ✓ ISO 27001:2013 attestation across SaaS and on-prem
- ✓ Robot protection status through integration with CrowdStrike Falcon
- ✓ License insights shown across the entire enterprise
- ✓ Audit log of every action in Orchestrator
- ✓ Configurable alerts

## Centralized automation management

**Long-running workflows** allow unattended robots to move on to another important job while waiting for human input on a pending one.

- ✓ Transaction queues with predictive SLAs help robots meet your deadlines
- ✓ Personal workspaces so everyone can build automations with centralized control
- ✓ Trigger automations remotely by time, or by a threshold of new queue items
- ✓ Prioritized jobs & queue editing let you change what your robots are working on
- ✓ Business users can respond to long-running workflows from Orchestrator Mobile

Add **UiPath Insights for rich RPA and ROI analytics** over time. Integrations with Tableau, Kibana, and Power BI available.
