Robots doing work

2018

RPA + API

Automating everything

2018

Low code, no code Development at speed

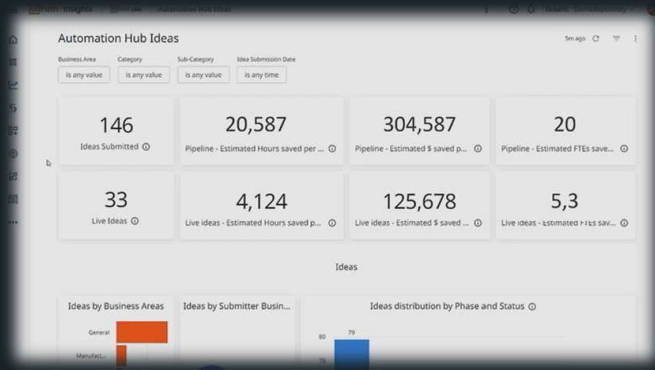

2019

Continuous discovery

The best opportunities for improvement

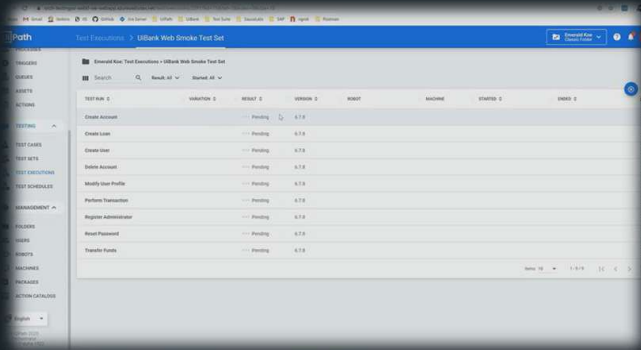

2019

Analytics

Showing the real value

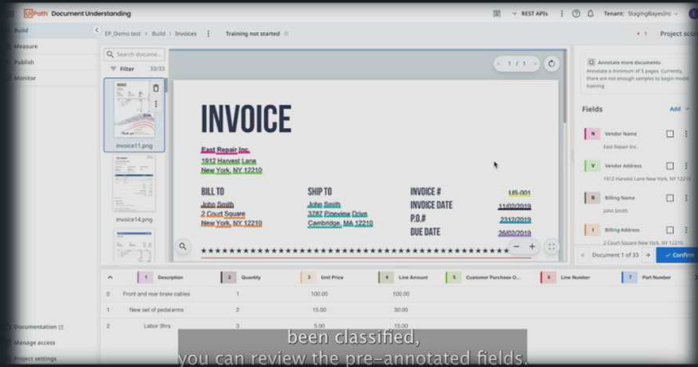

2019

TEST RUN ID	VALIDATION ID	RESULT	VERSION ID	NAME	STARTED	ENDED
1	1	Pending	1.0.0	Create Account		
2	2	Pending	1.0.0	Create Loan		
3	3	Pending	1.0.0	Create User		
4	4	Pending	1.0.0	Delete Account		
5	5	Pending	1.0.0	Modify User Profile		
6	6	Pending	1.0.0	Perform Transaction		
7	7	Pending	1.0.0	Register Administrator		
8	8	Pending	1.0.0	Reset Password		
9	9	Pending	1.0.0	Transfer Funds		

Testing Stability for automation and applications

2020

Intelligent automation

Unlocking the 95% of unstructured data

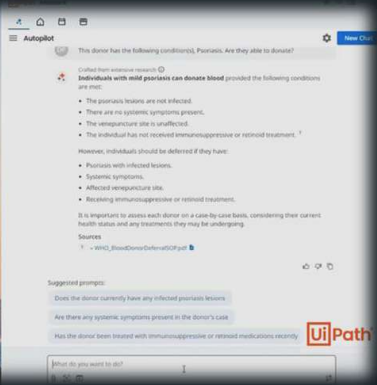

2020

GenAI

New capabilities, new use cases

2022

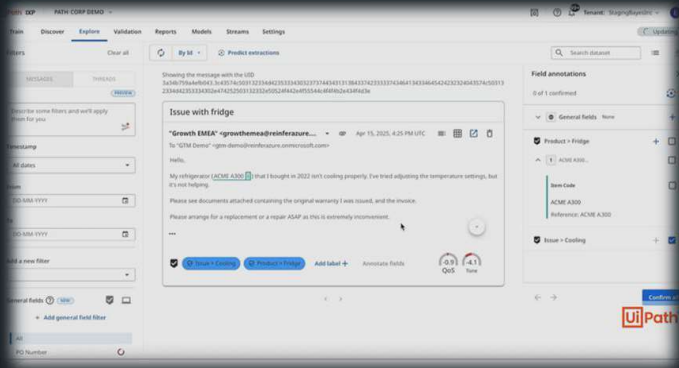

UiPath

Autopilot

The personal assistant, getting things done

2023

UiPath

UiPath LLMs

Specialising on documents and communications

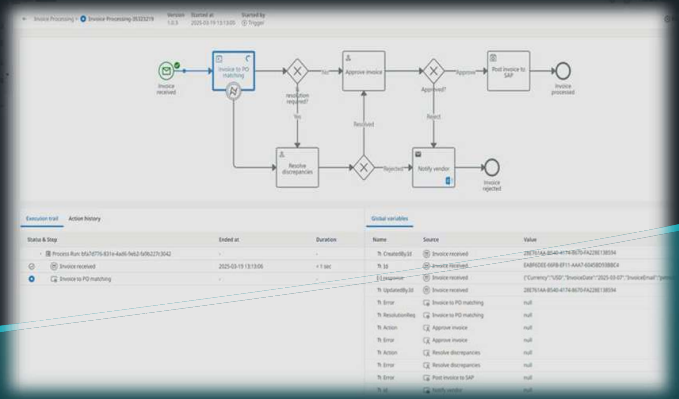

2024

Agents

Goal-based intelligent automation

2024

Agentic orchestration

The end-to-end business process layer

2025

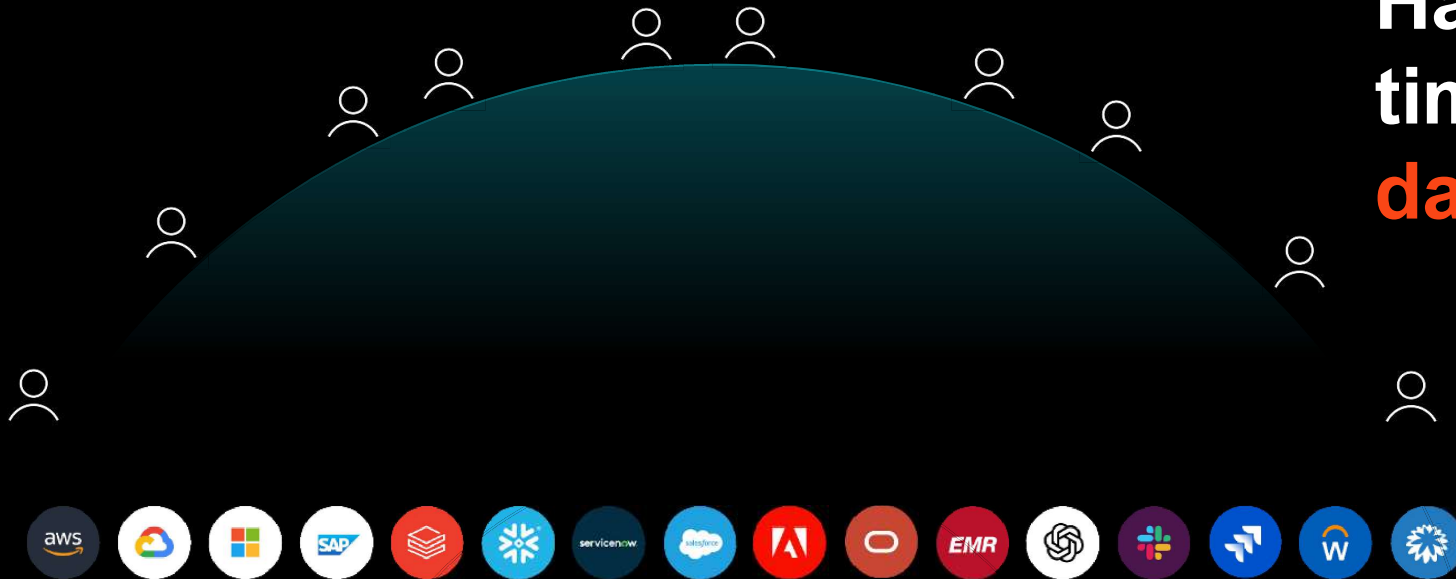

Let's look at it differently

The need for automation

Entirely
manual

Handling
time:
days

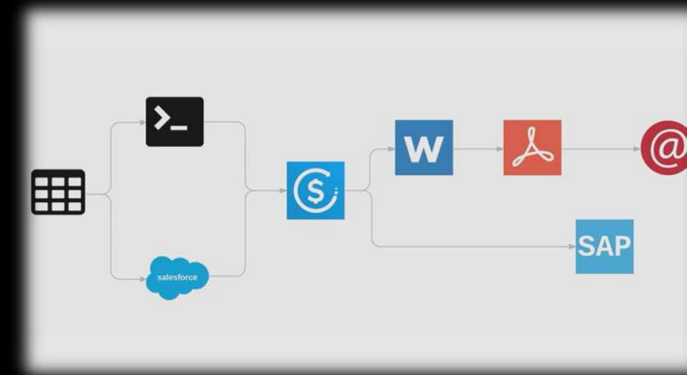

UI and API automation of repetitive tasks

UiPath
AGENTIC AUTOMATION

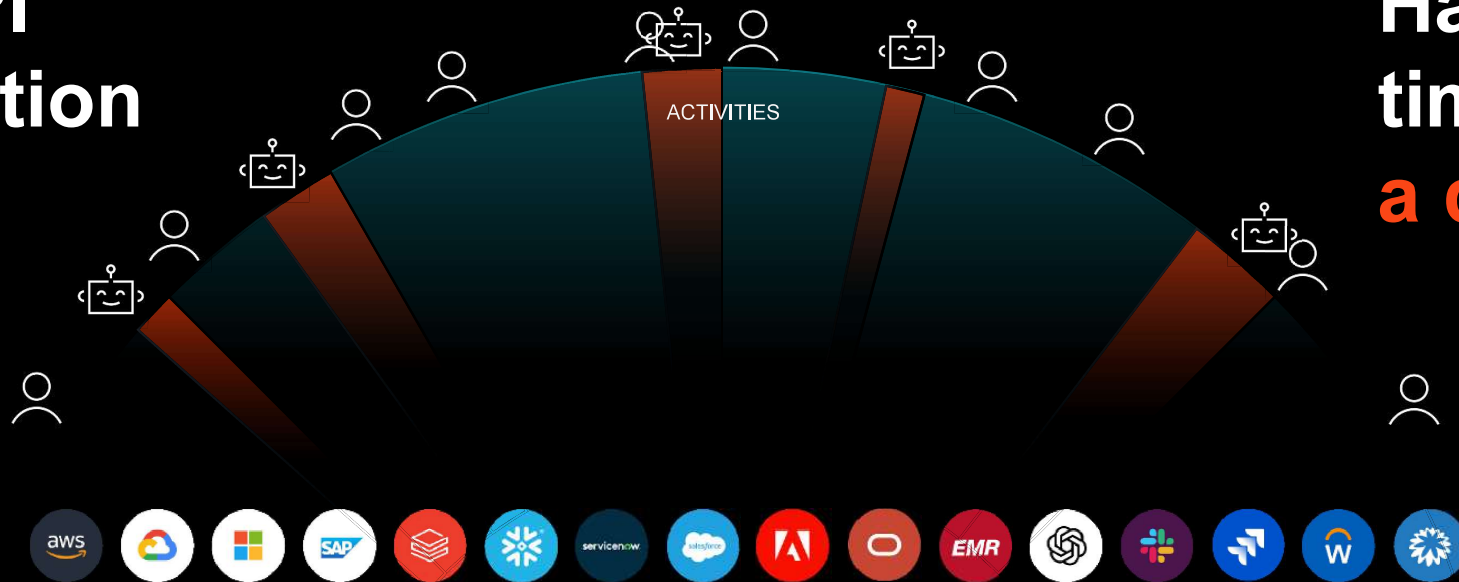

People

Robots

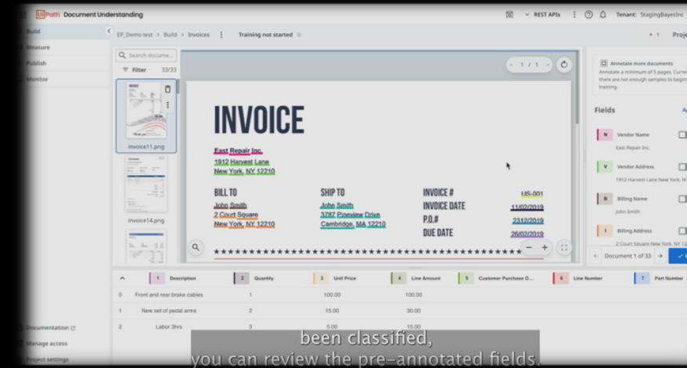

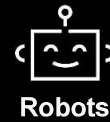

UI & API automation

Handling
time:
a day

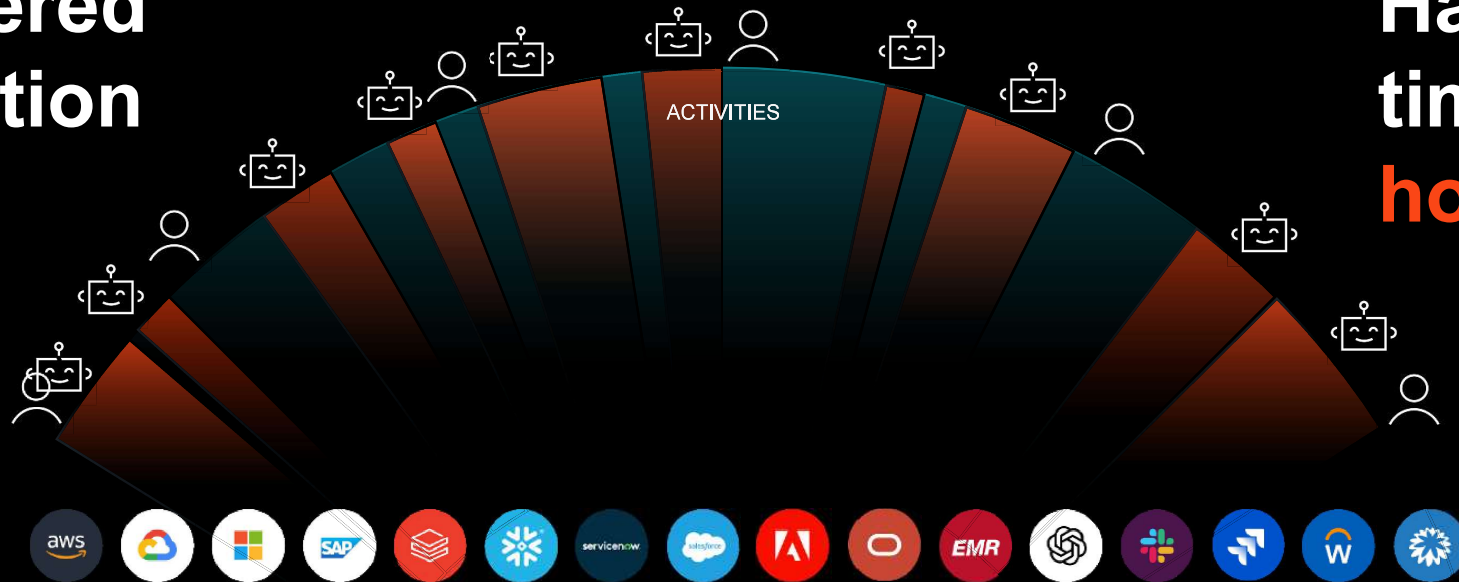

Application of AI to extract key data from documents

UiPath
AGENTIC AUTOMATION

AI-powered automation

Handling time: hours

Use of agentic automation and escalation across the end to end process

UiPath
AGENTIC AUTOMATION

Agents

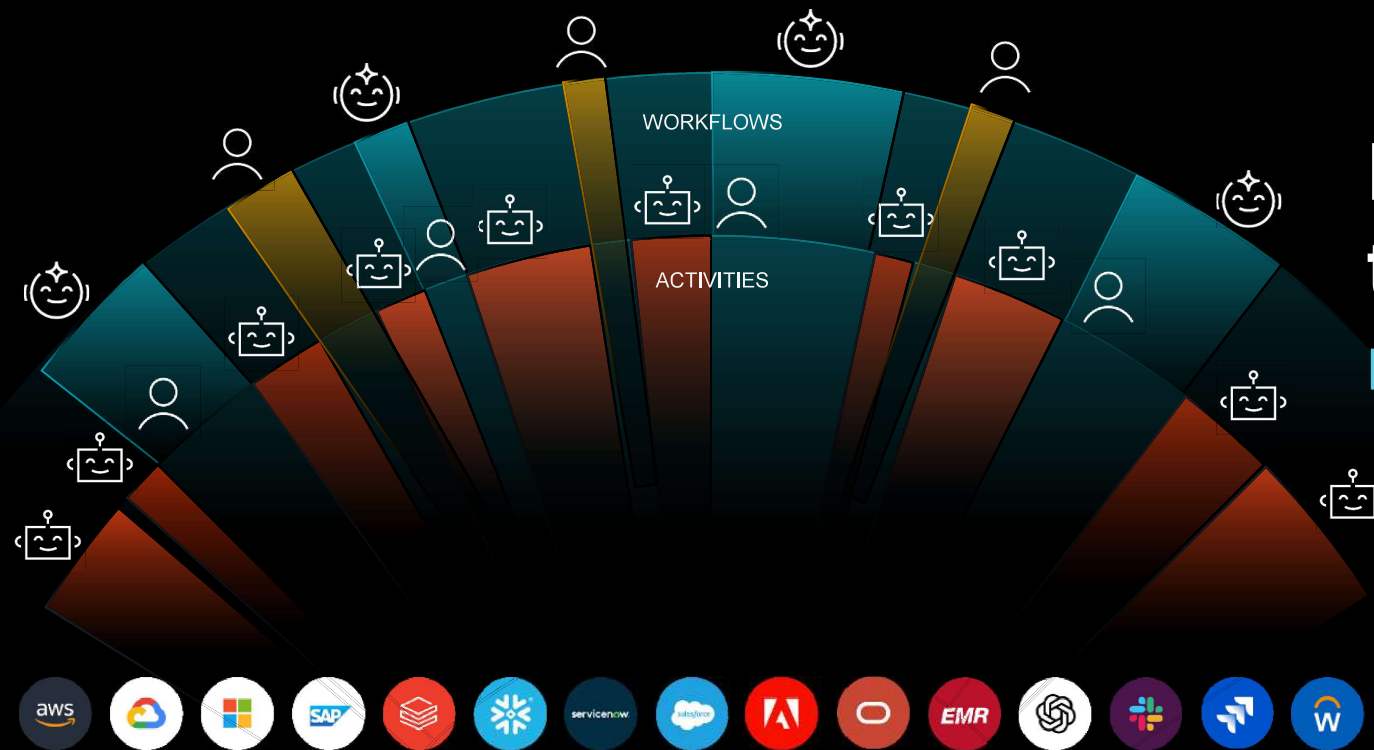

People

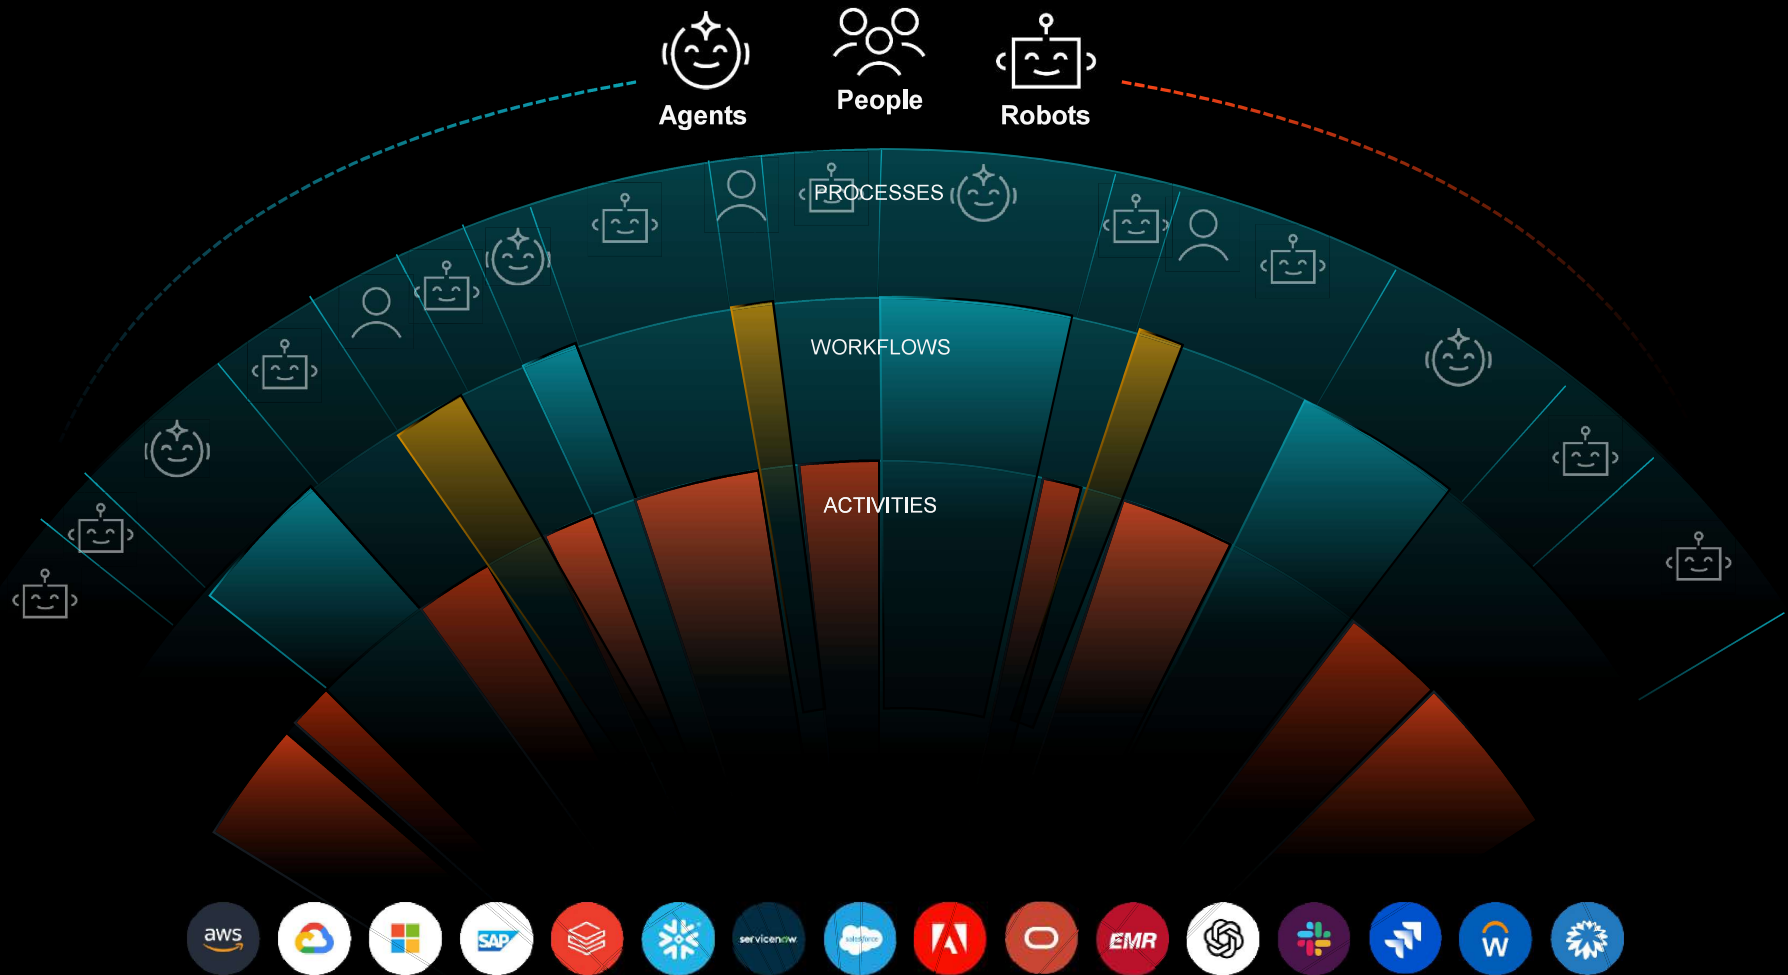

Robots

Agents,
people,
robots

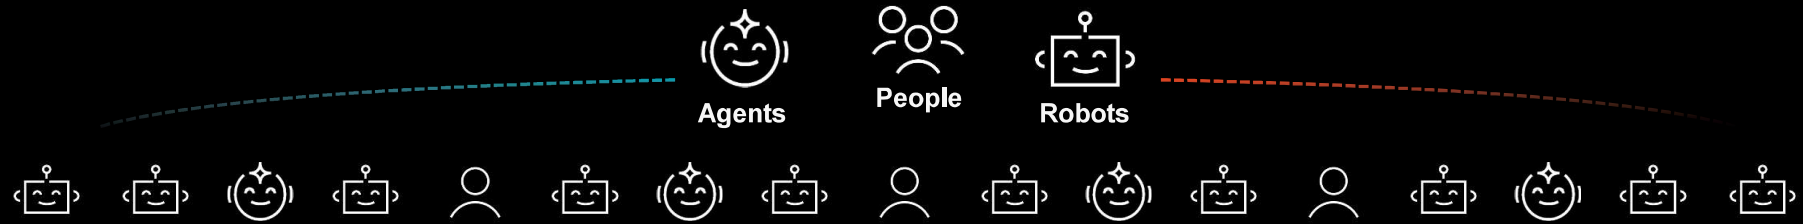

Handling
time:
minutes

Orchestration of all parts of a process end to end

Orchestration of all parts end to end

UiPath Maestro™
