

Data Subject Consent for the Processing of Personal Data for Product Development and Enhancement

Hi, UiPath* here! You are reading this because you are using our products and services (let's call them simply "**Software**"). We hope you enjoy it and, because we want to improve and build other reliable products, we need your help.

While you use it, the Software will record and capture your interactions with your work computer. This includes both your behavior in performing specific work-related tasks and any of your personal data that may be available on your screen at the moment when you perform such tasks (let's call them all "**Data**"). This is an essential feature of the Software and without it, the Software will simply not work as planned.

We want to further enhance our Software and deliver unbiased results thereof, based on true, large volume data. And that's where you step in. We want to ask if we may use the Data for the purpose of building and improving this product, Document Understanding and AI Center. Of course, sharing the Data is completely voluntary, and you are under no obligation to do so.

We really appreciate you helping us, and we want to assure you that we are adamant in complying with the applicable law and work thoroughly to protect your Data, namely:

- Your Data will be kept safe using state of the art technology.
- We are limiting internal access to your Data on a strictly need-to-know basis.
- We will not share your Data with any third parties for additional data processing operations, except for UiPath entities and agreed cloud hosting providers. If we must transfer the Data outside the EU, we will make sure to comply with the legal requirements laid down by the EU data protection legislation and will put in place appropriate safeguards to keep your Data secure.
- Your Data will be kept for a maximum period of 1 year, after which it will be safely destroyed.
- When added into the algorithm, your Data will be anonymized and aggregated in a way to preclude anyone from seeing or identifying it.
- We're sure you already know that at any time, you have the right to be informed, the right to access your Data, the right to have your Data rectified, the right to have your Data deleted ("the right to be forgotten"), the right to restrict the processing, the right to Data portability, the right to object, as well as the right to not be subject to an individual automated decision, including profile creation. We will comply with your lawful decision, so if you have a request just send it to us via <https://www.uipath.com/legal/personal-data>.
- For a full description of the rights you have, please visit <https://www.uipath.com/legal/privacy-policy>.

Check out [these resources](#) if you want to know more about our vision on AI and visit our trust portal [here](#) to see more about or security, ethics and compliance practices. Of course, you may reach out to us directly at privacy@uipath.com if you have any legal concern. We will do our best to come back to you as swiftly as possible.

Thank you for deciding to share your Data with UiPath. By ticking the consent box prompted on your screen, you hereby confirm that you have freely shared your Data with UiPath and agree to allow UiPath to process your Data, as described above.

***UiPath** refers to UiPath SRL, with its headquarters at 4 Vasile Alecsandri Str. and 11 Daniel Constantin Str., Building A, floors 5 and 6, District 1, Bucharest, Romania, registered with the Romanian Trade Registry under no. J40/8216/03.07.2015, acting as a personal data controller (hereinafter referred to as "**UiPath**"),
