

CROOZER KID **LYKKE**

For up to two children

Narrow corridors or little space in the bike cellar? No problem for the Croozer Lykke! The innovative, vertical folding system and the fold-up bumper make the dynamic trailer a big city hero, because lack of space and tight niches don't slow it down. What's more, the trailer can be folded up in just one easy step and the best thing is that the Croozer Lykke can still be pushed when folded.
