

CROOZER CARGO BRAAKE

For loads with a volume of up to 135 litres and a weight of up to 65 kg

Not only big, but also super strong! That's the motto of the new Croozer Cargo Braake. The reinterpretation of the cargo trailer responds to a previously unsolved transport problem in this segment: a self-adjusting overrun brake enables the safe and permissible towing of a trailer with a total weight of up to 80 kg.

THE KEY FEATURES AT A GLANCE

- **Innovative overrun brake** enables a total weight of up to 80 kg
- Large packing volume (135 litres)
- Sturdy base plate
- **Removable canopy** with separable two-way zip fasteners
- Space-saving storage thanks to simple folding mechanism
- Patented Click & Crooz® system for easy operation
- Patented Croozer AirPad® suspension for safe transport
- Lockable drawbar with Click & Crooz® coupling
