... THE BICYCLE TRAILER ...
CROOZER
SIMPLY ON THE MOVE ...

HURRAH

CROOZER IS TURNING 30!

In 1993, in a courtyard garage in south Cologne, family-man Andreas started his one-man business. Today, his daughter Hanna not only uses Croozer bicycle trailers for her young daughter and two dogs, but also leads the now 55-person-strong family company as its second-generation managing director.

We are also especially proud to be celebrating our company's 30th anniversary. Thirty years of "simply on the move", full of ups and downs, full of progress and setbacks but, most importantly, always full of optimism and determination and driven by the knowledge that our products are helping soooo many families worldwide to live sustainable lives.

This is why the motto of our anniversary year is "Croozer around the world". Join us in our celebrations and claim your very own Croozer Kid, Dog or Cargo in the limited-edition colour version "Colourful journey"!

CROOZER SINCE 1993
30
YEARS
SIMPLY ON THE MOVE

CROOZE THE CHANGE

Not only have our bicycle trailers been making an important contribution to sustainable mobility for 30 years; we as a company are also working hard to integrate our principles of political, economic and social responsibility into our operations.

This is why we have published our first Sustainability Report and, on this basis, set 50 goals we want to reach by 2025.

RESPONSIBILITY
FOR PEOPLE
AND THE
ENVIRONMENT

PRODUCT
DURABILITY

PROMOTING
THE TRANSITION
TOWARDS
SUSTAINABLE
MOBILITY

Visit our sustainability page to learn more about what we've already accomplished, where we currently stand and what's to come: croozer.com/en/sustainability

BUILT ON PERSONAL EXPERIENCE

We at Croozer have been committed to sustainable family mobility since 1993. Our in-house product designers and engineers are also Croozer enthusiasts and therefore know exactly what types of features are most important for every-day use. In the development workshop at Croozer's headquarters in Hürth, they tinker, tweak and test. Their aim: to develop outstanding trailers that enable you to get around in safety and comfort!

So, what does the development process look like?

We'd be happy to take you on the journey with us, from concept to production: croozer.com/en/bike-trailers-production
