

# PELOTON FOR BUSINESS

**OUR MOST IMMERSIVE  
TECHNOLOGY, NOW AVAILABLE  
FOR YOUR BUSINESS**

## **MAXIMIZE YOUR FITNESS SPACE AND YOUR EXERCISERS' WORKOUTS - WITH BIKE+\***

### **Turn the screen for more**

A larger, anti-glare screen that rotates for 360° of movement makes it easy to experience a variety of classes for a total body workout.

### **Automatically change resistance**

Your exercisers can go hands-free and have their resistance automatically adjusted to match instructor callouts.

### **Optimized for your facility**

The signature Peloton experience, with commercial software for unlimited riders to exercise for free, pedals compatible with athletic shoes, dedicated commercial support, and extended 3-year commercial warranty coverage.

## **PELOTON BIKE+ COMMERCIAL PACKAGE**

- Access to exclusive commercial software for unlimited riders\*\*
- Extended 3-year warranty
- Dedicated commercial support
- Pair of 2-lb Bike weights, Bike mat, and dual-sided pedals that allow for use with athletic shoes or cycling shoes

\* Age, height, and weight restrictions apply to the use of the Peloton Bike+.  
\*\* Commercial subscription sold separately.

# NETWORK REQUIREMENTS

The Peloton Bike+ will work on a wireless connection, but a wired connection is recommended. If using a wireless connection, place the Bike+ as close as possible to a WiFi access point. The touchscreen supports both 2.4Ghz and 5Ghz frequencies over WiFi. Where proximity allows, we recommend utilizing the less-congested 5Ghz WiFi band.

Network parameter	Recommended requirements	Intermediate requirements	Minimum requirements
Physical connection	Wired connection	WiFi with WPA2 5Ghz band	WiFi with WPA2 2.4Ghz band
Download speed upload speed		>10-15 Mbps >2.5 Mbps	
Firewall	All outbound traffic is allowed No Captive Portal No URL Filtering Direct Internet Access (No Proxy)		
IP address assignment	Static DHCP	Dynamic DHCP	Dynamic DHCP
