Colour Me In!

Learn a Magic Trick

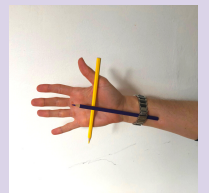

The Magnetic Pencil

What You'll Need:

- 2 pencils
- Wristwatch or elastic band

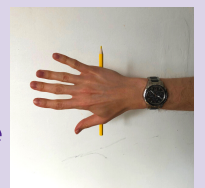

Preparation:

Put on the wristwatch and then insert the end of pencil 1 under the watch band on the palm side of your hand. The pencil should extend to about the middle of your hand.

Perform:

To perform the trick, slide pencil 2 between the palm of your hand and pencil so that it runs across the palm of your hand from your thumb to your little finger. Because pencil 1 is held in place with your watch, it will hold pencil 2 in place.

Turn your hand over and it will look like you have a floating pencil! Remember, don't show the other side of your hand or it will give the trick away.

Learn a New Trick!

Here is a magic coin trick to impress your friends and family.

<https://youtu.be/tPclJMNIiv8>

Guess A Person's Age!

You will need:

A calculator

How to do the trick:

Ask the other person to type their age into the calculator and not show you what they've entered.

Ask them to use the calculator to multiply their age by 2.

Then add 1 to it.

Multiply the result by 5.

Multiply that number by 10.

Now ask for the calculator back and look at the number and ignore the last two digits. The number you are left with is their age!
