

# SAFEGUARDING CODE OF CONDUCT FOR CHILDREN

## HOW CAN YOU HELP?

When you take part in a Starlight activity, event or program you can help create a safe and fun environment by:

- Telling a team member if you feel unsafe, upset or uncomfortable.
- Listening to others and being kind.
- Asking for help if you need it.
- Letting everyone join in and being respectful of others.
- Following the rules of any activities.
- Having fun!

## WHAT WE WILL DO

**When you are participating in our programs, our team members will always do their best to keep you safe from harm and make sure you are having fun.**

### **To do this our team members will:**

- Always be easy to recognise. Captain Starlight will be in purple and yellow and other team members will have a Starlight badge with their photo on it.
- If you are in hospital, Captain Starlight and the Livewire Facilitators always work in pairs.
- Always involve your family if they are visiting you.
- Help you and other children if you feel unsafe, uncomfortable or upset.
- Help you in a positive way to join in the activities so that everyone can have the best time.
- Always ask you and your parents first if we want to take any photos of you.

### **Our team members won't:**

- Drive you in their car.
- Look after you at your home.
- Call or text you or chat to you on the internet.
