## UPHOLSTERY CARE GUIDE

### COMMONLY USED CARE CODES

---

**Cleaning Code W:** Instruct a professional cleaning service to use foam from a water-based cleansing agent.

**Cleaning Code S:** Instruct a professional cleaning service to use pure, water-free solvents. Petroleum distillate-based products may be used.

**Code SW:** Instruct a professional cleaning service to use water-based cleansing agents, foam or pure solvents.

**Code X:** These fabrics can only be cleaned by vacuuming or light brushing.

### CARE AND CLEANING TIPS

---

As a general rule, spot cleaning is not recommended, as it can cause fading. It's best to professionally clean the entire piece to ensure the color remains uniform.

We recommend vacuuming frequently to remove dust, always using the brush attachment to prevent fabric damage.

Protect from heat and liquids. If spills occur, blot immediately with a clean, dry cloth.

Rotate cushions periodically.

To keep your upholstery in optimal condition, avoid direct sunlight.

Our manufacturers do not use any flame retardants; we believe the best products are as free of chemicals as possible.

### OUR CUSTOM UPHOLSTERIES

---

#### LINEN

*Soft linen and viscose upholstery is fine-woven with a slubbed, cross-hatched texture*

Recommended for lower traffic areas

**55% LINEN, 45% VISCOSE**

##### PROFESSIONALLY CLEAN

Cleaning Code S (Solvent Only)

Clean with a mild, water-free, dry-cleaning solvent.

Ensure ample ventilation.

#### BASKETWEAVE LINEN

*Textured basketweave linen and polyester upholstery expertly retains its shape and resists wear*

May feel stiff at first, but relaxes beautifully with use and time

**90% POLYESTER, 10% LINEN**

##### PROFESSIONALLY CLEAN

Cleaning Code S (Solvent Only)

Clean with a mild, water-free, dry-cleaning solvent.

Ensure ample ventilation.

## BELGIAN LINEN

*Belgian linen upholstery is woven from organic flax for a soft, lightly textural feel; will give and stretch without tearing or distorting*

Luxurious, yet durable enough for high-traffic areas

### 100% LINEN

Professionally clean

Cleaning Code S (Solvent Only)

Clean with a mild, water-free, dry-cleaning solvent.

Ensure ample ventilation.

### MAINTENANCE & IN-HOME CARE

Spot clean with mild soap and cold water. We recommend testing all cleansers in an inconspicuous area before you treat your furniture.

## VELVET

*Cotton velvet upholstery has a soft pile and rich color with a clean matte finish*

Durable enough for high-traffic areas

### 74% COTTON, 26% POLYESTER (100% COTTON PILE)

Professionally clean

Cleaning Code S (Solvent Only)

Clean with a mild, water-free, dry-cleaning solvent.

Ensure ample ventilation.

### MAINTENANCE & IN-HOME CARE

Occasional vacuuming is recommended. Most stains can be blotted or wiped away with a clean, damp cloth or paper towel; dried stains can be spot cleaned using soap and water or a commercial dry cleaning product. We recommend testing all cleansers in an inconspicuous area before treating your furniture. Once dry, use a soft, dry brush in the direction of the pile to restore the loft and uniformity of the fabric.

## SLUB VELVET

*Slubbed rayon upholstery has a lustrous, low pile*

### 41% COTTON, 50% RAYON, 9% POLYESTER (100% RAYON PILE)

Professionally clean

Cleaning Code S (Solvent Only)

Clean with a mild, water-free, dry-cleaning solvent.

Ensure ample ventilation.

### MAINTENANCE & IN-HOME CARE

Occasional vacuuming is recommended. Most stains can be blotted or wiped away with a clean, damp cloth or paper towel; dried stains can be spot cleaned using soap and water or a commercial dry cleaning product. We recommend testing all cleansers in an inconspicuous area before treating your furniture. Once dry, use a soft, dry brush in the direction of the pile to restore the loft and uniformity of the fabric.

## LEATHER

*Durable, top-grain leather upholstery has a slightly matte, hand-rubbed finish that remains uniform and consistent over time*

Ideal for families and high-traffic areas

### MAINTENANCE & IN-HOME CARE

Clean with a cloth dampened with distilled or purified water; dry with a clean, soft cloth. Blot spills and allow to air dry. Do not use leather soaps, oils or abrasive cleansers.

## PREMIUM LEATHER

*Full-grain leather upholstery is soft, durable and gradually develops a natural, heirloom-in-the-making patina over time*

It has not been sanded or buffed to remove imperfections and therefore shows more of the characteristics of the hide

Color is achieved through an aniline dying process, wherein soluble dyes are absorbed into the hide without masking or covering its natural traits

### MAINTENANCE & IN-HOME CARE

Conditioners and cleansers specifically recommended for natural leather may be used. We recommend testing all products in an inconspicuous area before treating your furniture.
