TESTIMONIAL

"We hired Ms. H, and she is amazing. We also adore Ms. T and will request her when we have open shifts. Thank you for your continued support."

—Administrator at Grace Point Place

PROBLEM

Located in Oak Lawn, Illinois, Grace Point Place serves residents with Alzheimer's and other dementias.

With a growing resident census, the facility needed additional CNA support to ensure each individual received quality, personalized care.

But not just any clinical support would do; Grace Point Place needed CNAs who would embrace Anthem's mission to protect, engage, and love residents.

SOLUTION

As the top nursing jobs app, ShiftMed has the fastest-growing network of credentialed CNAs, LPNs, and RNs ready to work.

Grace Point Place uses our client Portal to post shifts whenever they need additional CNA support. Once a shift posts, it instantly goes live in the app for one of our local CNAs to claim.

Furthermore, the facility hired one of our CNAs, taking advantage of our no buyout fee.
