Custom Tissue Paper
noissue packaging alliance™

Size
220 x 300 mm (9" x 12")

Color
1–2 Pantone color (white not counted)
1 Pantone (Full Background)

Sustainability
Recycled, Compostable,
FSC Certified, Acid Free Paper,
Soy–based Inks

Print perfect checklist

○ Add your design to the template available on the next page.

— **Bleed Area**
Make sure to extend your background to fill the bleed area to avoid a white border. We require **1cm** of bleed all around.

···· **Trim Line**
This is a guide where the design will be trimmed.

— **Safe Area**
Keep important text or graphic elements within the safe area which is **6mm** from the trim line. This is to prevent it from being cut off, or from being too close to the edge, which does not look nice.

○ We recommend using **12pt font size** (2mm height) or larger.

○ Thickness of lines, strokes and gaps should be no less than **0.3mm.**

○ All colors should be converted to **1 or 2 Pantone colors** only.
Choose from the **Pantone Solid Coated or Uncoated** swatch libraries.

○ We can also print 1–2 metallic colors (gold, copper, silver).
You can choose from **Pantone 871 C to 877 C** for our metallic range.

○ We can also use **Neon Pantone** colors but for 1 color design only.

○ We **do not recommend Pastel or light colored** design elements.
Ink might blend in with the translucent tissue paper and look subtle on print.

○ Colors should have **100% opacity,** no gradient or tints.

○ For best results, your design should be in **vector** format, but if an image will be used, it should be no less than **300 DPI.**

○ In order to ensure your custom tissue prints correctly, we require that **all fonts be converted to outlines.**

○ For optimal scanning, ensure **QR codes have high contrast** and measure **20x20mm or above.** Do not scale the QR code below a **minimum of 16x16mm.**

1 Download dieline
Ensure you have downloaded the correct sized dieline. Dielines can be found on the **noissue website.**
2 Complete your design
Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF.** No crop marks needed.

3 Upload artwork and order
Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
