noissue.

Custom Box

SIZE
6" x 6" x 3"

PRINT OPTION
Inside and Outside

BASE COLOR
☐ Kraft or ☐ White

PRINT COLOR
CMYK Digital Print

Step by step...

1. Download the correct dielines.
You can find the box dielines on the **noissue Custom Boxes Page.** Choose the size you wish to order, then download the dielines to start designing.

2. Choose the print option.
We can print inside only, outside only, and both inside and outside. This file contains both inside and outside dielines. Should you wish to design for inside or outside only, you may leave one of the dielines blank.

3. Choose your base.
We offer kraft and white base. Note that we recommend printing darker colors on kraft due to the effect of the paper on the ink, while you can print a wider range of colors on white. **We also cannot print white ink on kraft.**

4. Start designing!
You may now start designing your noissue box! Use the **Print Perfect Checklist** as a guide to get the best print results.

5. Once done, you may upload as a finished artwork.
Upload your finished artwork in PDF format. Fill in the necessary fields: size, base color, print option, quantity, and badge.

6. Add to cart and order!
We want to make sure you're happy so before we print anything, we'll send you a proof of your custom design to sign off.

Print Perfect Checklist

- ☐ Add your custom artwork to **your design here layer.**
- ☐ In order to ensure your custom packaging cuts correctly, it is very important that the unique structural dieline we send you is included as part of the print file. Please **do not delete, rotate or change the colors** of the structural dieline.
- ☐ We recommend using **10 pt font size** or larger.
- ☐ Single logo or design should also be **0.125 in** away from the trim lines.
- ☐ Lines and stroke weight should be no less than **.5pt** and **1pt** if reversed out.
- ☐ All artwork should be converted to **CMYK.**
- ☐ An alternative method to replicate the look of white ink on a kraft that you may consider is to purchase a white box instead and **simulate the Kraft material** by placing an image of Kraft material as a background image.
- ☐ If your art includes black, we recommend it's built as a rich black with **30 cyan (C), 30 magenta (M), 30 yellow (Y), and 100 black (K)**. For best results, include a .5pt stroke of 100% black (K) to avoid print overspray.
- ☐ For best results, all artwork should be vectored and image resolution should be **no less than 300 dpi.**
- ☐ In order to ensure your custom packaging prints correctly, we require that **all fonts be converted to outlines.**
- ☐ **Extend your design until the green lines** in the dielines. This serves as a bleed area to allow for inconsistencies during printing.

→ Please export as a '**CMYK**' **PDF**. No crop marks needed.

Sustainable by design.

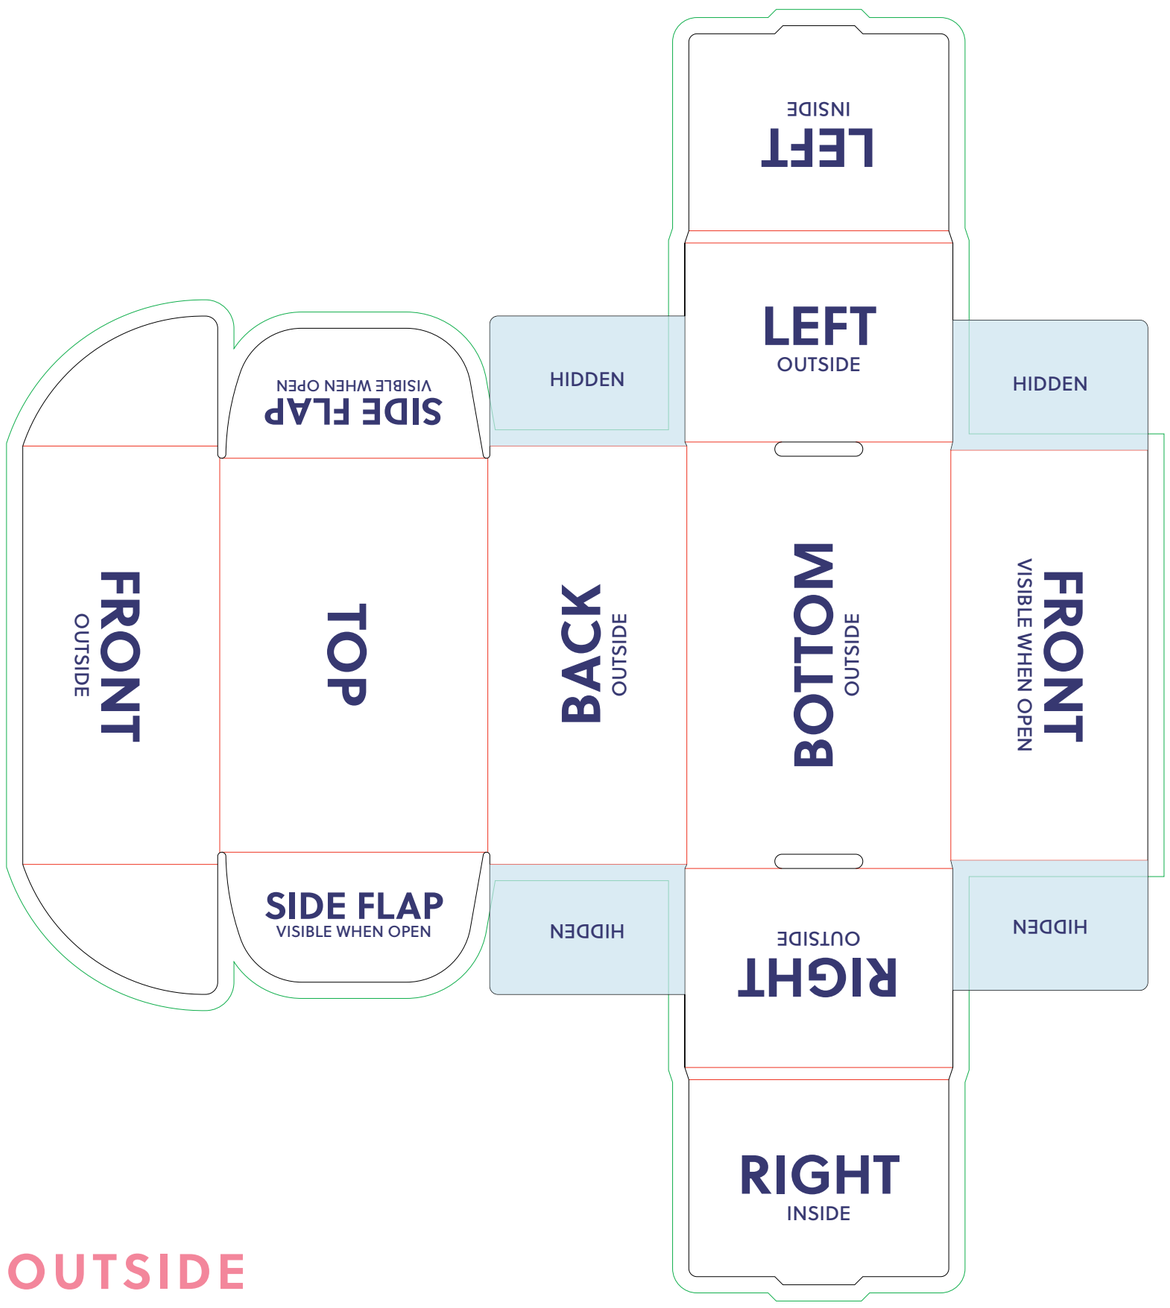

noissue Box is completely customizable, and created with the Earth in mind. It has the following certifications:

FSC FORESTS FOR ALL FOREVER™

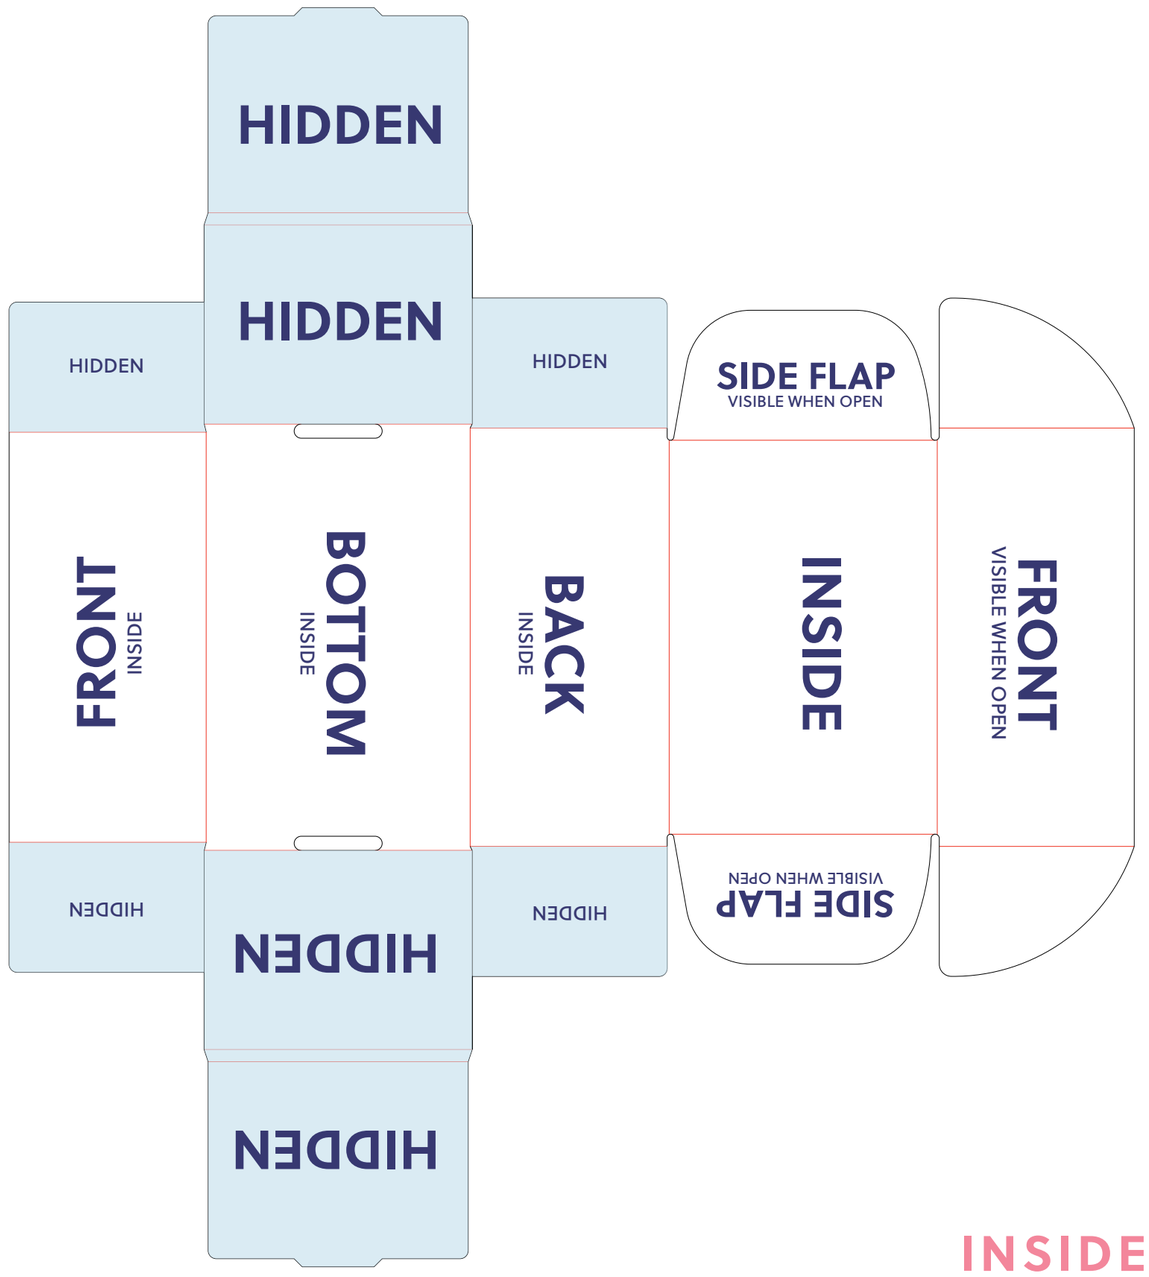

HP Indigo ElectroInk (Water-based)

30-60% Recycled Fibers Content
