Custom Belly Bands

SIZE
2" x 14.25"

PRINT OPTION
One side Only

BASE COLOR
▢ White

PRINT COLOR
CMYK Digital Print

Step by step...

1. Download the correct dielines.
You can find the box dielines on the **noissue Custom Belly Bands Page.** Choose the size you wish to order, then download the dielines to start designing.

2. Start designing!
You may now start designing your noissue Belly Bands! Use the **Print Perfect Checklist** as a guide to get the best print results.

3. Once done, you may upload as a finished artwork.
Upload your finished artwork in PDF format. Fill in the necessary fields: size, base color, quantity, and badge.

4. Add to cart and order!
We want to make sure you're happy so before we print anything, we'll send you a proof of your custom design to sign off.

Print Perfect Checklist

- ◯ Add your custom artwork to **your design here layer.**
- ◯ In order to ensure your custom packaging cuts correctly, it is very important that the unique structural dieline we send you is included as part of the print file. Please **do not delete, rotate or change the colors** of the structural dieline.
- ◯ Extend design until the bleed lines (blue line) in the dielines. This serves as a bleed area to allow for inconsistencies during printing.
- ◯ We recommend using **8 pt font size** or larger.
- ◯ Lines and stroke weight should be no less than **.5pt** and **1pt** if reversed out.
- ◯ All artwork should be converted to **CMYK.**
- ◯ If your art includes black, we recommend it's built as a rich black with **40 cyan (C), 40 magenta (M), 40 yellow (Y), and 100 black (K)**. For best results, include a .5pt stroke of 100% black (K) to avoid print overspray.
- ◯ For best results, all artwork should be vectored and image resolution should be **no less than 300 dpi.**
- ◯ In order to ensure your custom packaging prints correctly, we require that **all fonts be converted to outlines.**

→ Please export as a '**CMYK**' **PDF**. No crop marks needed.
