

Splashtop Business Access

Connect to your computer from anywhere to securely access your files, apps, and data with Splashtop Business Access.

Get the Flexibility You Want with the Access You Need

Splashtop Business Access gives you the flexibility to work whenever you need to, wherever you go. Experience new levels of productivity with simple, secure remote access to your files, apps, and data. Spark creativity with access to high performance features from any device, including mobile devices and tablets.

Splashtop is trusted by 30 million users around the world from small businesses and leading television and news networks, professional sports leagues, and entertainment studios alike.

Key features and benefits

- **High Performance** – Get 4K streaming up to 60fps (and iMac Pro Retina 5K streaming) with low latency, and the ability to fine-tune settings.
- **Easy to Deploy and Manage** – For large deployments, IT admins can easily deploy and manage employees' remote access to computers from a centralized admin console.
- **Secure Connections** – Get secure infrastructure, intrusion protection, SSL/AES 256-bit encryption, MFA, SOC 2 Type 2 compliance and more advanced security features.
- **Multi-Monitor Support** – Easily remote into multiple monitors connected to your workstations.
- **Broad Device Support** – Remote into your Mac, Windows or Linux computer from any Mac, Windows, iOS, Android or Chromebook device.
- **High-Fidelity Audio** – Choose from Medium, High and Ultra-High* bit rates to get your desired audio quality while remotely streaming.
- **4:4:4 Color** – Experience the highest color and image quality. 4:4:4 color mode delivers the most accurate colors, contrasts, and image details.
- **Increased User Productivity** – Intuitive gestures and menu interface deliver a native application experience. Get file transfer, remote print and other in-session features.
- **USB Device Redirection and Microphone Passthrough** – With Splashtop Enterprise, you can remotely use a USB device (like stylus/HID) and transmit local microphone to remote computer.

Who benefits?

- **Creatives** who need the best image color, audio quality, and low latency to do everything from post-production, to game development.
- **Professionals** who want the flexibility to access files and applications on their work computers or company network from anywhere, using any device.
- **Business owners** who want to ensure company data is protected while keeping mobile or remote employees productive.

"Now creatives can push the boundaries of creativity and collaboration as they perform tasks like video editing and AV synchronization while also accessing shared storage and other hardware they need, remotely (with Splashtop)."

Head of Partner Relations
Adobe Video

"Artists using Wacom devices in post-production workflows are able to use Splashtop to work seamlessly and productively while they're away from the office – a big plus for today's remote friendly workplace."
