empowered

Fostering **thriving** teams in the
productive **distributed workplace**
flexible

IT is navigating the changing
work landscape.

45%

currently implement a
blend of remote and
in-person work.

Remote access
support tools are
proven to promote
productivity and
peace of mind.

A poll of 1,000
IT leaders
revealed that:

34%

Attribute remote tools
to **reduced stress levels**.

42%

Report their roles as
being **more rewarding**.

36%

Feel **greater confidence**
in decision making.

Despite this,
the **complexity** of
managing multiple
team locations and
devices is stopping
some from reaping
the benefits.

35%

Of IT managers say
distributed working has
made their jobs harder.

25%

Believe evolving work
patterns and individual
needs will add further
difficulties.

Distributed work is
directly impacting
IT managers.

21%

Feel that much more
is expected of them.

How can remote access support tools
better support IT teams and their users?

FOUR key factors for sustainable
remote support strategies:

**Confidence
in security**

Constantly developing
protection for peace of
mind.

**Flexibility
to adapt**

One solution that
performs across any
device, anywhere.

**Intuitive
experiences**

Easy-to-use interfaces
shaped to different
working styles.

**Fast and
secure IT
help desk
solutions**

Remote attended and
unattended support
made simple for
Windows, Mac, iOS,
and Android.

The productivity potential of effective
distributed work is huge. Minimal time
investment can maximise efficiency and
flexibility in the face of uncertainty.

**1 hour
+ per day**

is the average time spent on
accommodating remote users.

Greater flexibility & optimal
working anywhere

was reported by 47% of IT
managers and remote access users.

The right partner can help
businesses navigate the
evolving world of work
and emerge stronger.
