

Operation Manual for PC, Tablet, Video Equipment, etc.

When exhibiting a PC, tablet, or similar device, please attach the startup or login password to the device before bringing it into and displaying it at the venue. If the password contains both letters and numbers, make sure that characters such as 0 (zero) and O (letter O) can be clearly distinguished. If the device or app must be operated to check the entry, please clearly describe the necessary procedures and details, and submit them on the carry-in day.

*The manual must be prepared using the official template and printed on A4-size paper.

*The submitted manual will be destroyed after the screening and will not be returned.

*The manual will be used only for emergency recovery work and does not guarantee regular maintenance of the exhibit.

Please submit this operation manual on the carry-in day, August 4.

Entry No. <div style="text-align: center; font-size: 2em; font-weight: bold;">G</div>	Entry Name
Applicant Company Name	Contact Person's Name
Phone Number Available During the Screening Period	Email

Please fill in the required sections below according to the exhibit. If any procedures or operations other than the items below are required, please provide details on the blank reverse side.

- Name of the device to be exhibited, e.g., iPad

- How to turn the power ON/OFF, e.g., press the Home button

- Startup password, e.g., press the Home button, then enter the code 12345678

- Notes for operation, shown clearly with text or illustrations

- If Wi-Fi or other network connection is required, enter the network name, connection method, and password

- If any other procedures are required for operation, please provide details on the reverse side.

Instructions on the reverse side: Yes / No
