

GOOD DESIGN AWARD 2026

2nd Screening Guide

GOOD DESIGN AWARD 2026

GOOD DESIGN AWARD 2026 SCHEDULE

Entry	April 1	Call for Entry
	May 21, 13:00 JST	Entry Deadline
	May 31	Deadline for payment of 1st screening fee
1st Screening	June 3 - June 29	1st screening period
	June 30, 13:00 JST	Notification of the 1st screening results
2nd Screening	June 30 - July 7, 13:00 JST	Registration Period of the 2nd screening information
	July 8 - August 24	Second screening period
	July 30	Deadline for payment of 2nd screening fee
	August 4	Installation (Venue: MAKUHARI MESSE) ❗ 2nd screening will be held in Japan
	August 5 - 7	2nd Screening Session
	August 7	Dismantlement
	August 25, 13:00 JST	Notification of the 2nd screening results
	August 25 - September 1	Registration period of the award acceptance information
	September 17	GOOD DESIGN BEST100 Presentation Special Awards Screening Session
	September 29	Deadline for payment of award package fee
Announcement	October 15	Award Announcement
	October 15 - November 4	GOOD DESIGN AWARD PR period
	October 31 - November 4	GOOD DESIGN EXHIBITION 2026
	November 4	Award Ceremony
	March 2027	Publication of the yearbook
*The above schedule might be changed depending on the situation.

About 2nd Screening

In the GOOD DESIGN AWARD, the 1st screening is conducted based on the information provided by the applicants at the time of entry. Entries that pass the 1st screening must be submitted in physical form for the 2nd screening, during which the jury members evaluate the physical items in comparison with the submitted materials.

During the 2nd screening, jury members will individually examine the physical items submitted by applicants and verify them against the application documents. For entries that can be powered on, they will actually turn them on to check their functionality. In some cases, they may wear or operate the items themselves to evaluate them through hands-on experience. For entries that cannot be submitted as physical items, they will carefully review alternative materials such as panel boards or documents. If requested by the Judging Committee, certain entries may also undergo hearing screening (limited to entries designated by the Judging Committee). Upon completion of these steps, jury members will conduct comprehensive evaluations and discussions in their respective units from multiple perspectives and make a collective decision on the results of the 2nd screening.

Therefore, all applicants whose entries have passed the 1st screening are requested to carefully read this guide and ensure that their entries are presented in the best possible condition for evaluation.

GOOD DESIGN AWARD Office, Japan Institute of Design Promotion

[Outline of the 2nd Screening Implementation in Japan]

Venue: MAKUHARI MESSE 4, 5, 6, 7, 8 Hall

Move-in: August 4, 13:00 ~ 19:00*

2nd Screening Session: August 5 ~ 7 (Closed)

Move-out: August 7 15:00 ~ 19:00*

*Installation must be completed within the above-mentioned time, and the time cannot be extended.

*It is not allowed to send the entries directly to the venue.

*For entries that are vehicles, please follow the designated time slots specified by the organizer for move-in/out.

*Applicants are not allowed to visit the venue and should exit the venue immediately after move-in/out.

*Applicants who select the screening for undisclosed entries, will be informed of the date for move-in/out separately.

Contact during 2nd screening (Organizer Room, Hall 6)

E-mail : info-e@g-mark.org

[Process of the 2nd Screening]

Applicants are required to move in and move out their entries on the designated dates for the second screening, either by themselves or through the agency service appointed by the organizer.

*To use the official agency service, advance application is required. Please submit both the "Quotation Request" and "Display Instruction" forms by July 15, and ensure that the cargo arrives at the destination port by July 31.

*Please note that the agency can only accept requests that include both move-in and move-out services. Requests for move-in or move-out only will not be accepted.

*When selecting "Request OTHER AGENT...", it is strictly prohibited to use the organizer as the IMPORTER, and the organizer will not provide any assistance related to customs clearance (including the POWER OF ATTORNEY, etc.). The organizer is not responsible for any delay in customs clearance.

About the Materials to be Displayed

During the 2nd screening, the physical items of the entries are displayed at the screening venue, where the Judging Committee carefully examines each individual entry to identify its values and whether the physical item matches the registered information, by observing, operating and experiencing it. Please check the necessity for the category that your entry belongs to, and present it in the 2nd screening. Supplementary material is optional.

1. About the Display Items

▼Product / Service / System / Activity etc.

*Anything NOT applicable to below mentioned specific category

*The entry of product category must submit a physical work

[Obligatory]

A. Physical Item of the Entry

- Please display the physical item of the entry in a way that the jury members can try or handle it freely.
- Please be sure to electrify the item when electricity is necessary for it to work.
- If necessary, please prepare several items for either display or experience.
- If the case of "Website" or "App", please show them activated with PC, tablet or smart phone.
- If displaying non-entry items, please label them clearly as "Not an Entry."
- For sharp items (e.g., blades), use protective covers and include safety instructions. For hazardous devices (e.g., heaters), disconnect power and ensure safe handling.
- If the entry is a series of products as a whole one, please present the complete lineup. Only when the products in the lineup share the same design and performance, using a list or color sample to substitute for the physical items is acceptable.

[In Case That Physical Item Is Not Finished]

In principle, physical items of the entries are required for the 2nd screening. Under unavoidable circumstances, prototypes or mock-ups with the same specifications and functions as the final products are acceptable as substitutes. However, substitutes may be judged not to satisfy the requirements if they are expected not to have the same performance as the physical item and to have specifications different from those of the final product in terms of external appearance and functions. Also, the award might be canceled if the design of the final products is found to be different from the substitute for screening.

B. Substitute for the Physical Item (An A1-size portrait panel)

For heavy/large items or services and systems without physical forms, please use an A1-size portrait panel (H841xW594mm, mounted on the 5 mm thick board, with the Entry Number clearly marked) containing the outline and the design point of the entry, as a substitute for the physical item.

▼Architecture & Construction (Unit 12, 13, 14, 15)

[Obligatory]

C. Outline of the Architecture (An A1-size portrait panel)

Please use an A1-size portrait panel (H841×W594mm, mounted on the 5 mm thick board, with the Entry Number clearly marked) containing the outline and the design point of the architecture or construction, to present the entry. Please ensure that the A1-size panel alone provides sufficient information to give viewers a clear overall understanding of the entry.

[Specifications of the A1-Size Panel]

1. Considering the "Screening perspectives", express the most important point of your entry briefly, with texts or charts.
2. Photos of both interior and exterior (Even in the case your entry is interior design only, both of those photos are requested.)
3. Ground plan (In the case of high-rise building, the plan for just basic floor plan is enough, but should include residential area.)
4. Construction of the building/architecture (for example, wooden, iron framework, etc.)
5. Photos and brief explanatory texts to show the context/relation with surrounding environment
6. The "Entry Number" must be marked conspicuously at the top right of the panel.

*Please clearly show the summary, appeal, innovation and special features of your work.

D. Document Material (An A3-size landscape document)

As the supplementary materials of C, please use an A3-size document (W420×W297mm) within 10 pages to present it.

- Please submit the document material to the staff at the screening unit reception during the move-in period. During the screening period, the organizer will move it to the designated display area according to the Entry No. Only one copy should be submitted. Do not submit or display duplicates.
- Submitted document material will not be returned, as it will be used beyond the 2nd screening.
- It will be shredded after the screening ends (scheduled for late September).
- "Within 10 pages" excludes the cover, meaning up to 5 double-sided sheets or 10 single-sided sheets.
- Print on regular paper and staple at two places on the left. Submissions using special paper, lamination, or insert-type folders are not allowed.
- If using the official print service, the document material will be printed single-sided.

[Specifications of the Document Material]

1. Please download the designated cover template, fill in the required information, and use it as the cover (non-designated covers are not allowed). The cover is not included in the total page count.
2. Provide a concise summary of the overall concept, including the design details and key points.
3. The map indicates the location, photos and brief explanation texts to show the context/relation with surrounding environment (not necessarily required in the case such as prefabricated housing without any specific location)

4. The specifications of the building/architecture (usage, number of the floors, construction, square measure list and interior/exterior finishing material list of the main part of the building, etc.)
5. Drawings (layout plan, floor plan, elevation, etc. / scale is optional).
6. Work photos (No limit to the number of photos)

*If the document explains the contents on the A1-size panel, please clarify the part on the board you mentioned.

*Please make a brief and straightforward material which jury members could understand the outline and intention/substance of the design at a glance.

*Please refer to the following illustrated instructions for binding methods.

[Binding Method]

The designated cover must be used.

[Designated Cover]

Entries in the Interior Space category (Unit 16) must also use the designated cover.

Download URL: https://assets.ctfassets.net/5md7dhlbgv9/1f0D5t8GAp5MzQDPCBY9L/a7321e7a19c19519471c4bb90b9be26f/a3_document_materials_cover.pdf

▼Building Construction / Construction Method (Unit 12, 15)

[Obligatory]

E. Outline of the Building Construction, Construction Method
(An A1-size portrait panel)

[Optional]

Supplementary
Material

E. Outline of the Building Construction & Construction Method (An A1-size portrait panel)

Please use an A1-size portrait panel (H841×W594mm, mounted on the 5 mm thick board, with the Entry Number clearly marked) to present the entry. Please ensure that the A1-size panel alone provides sufficient information to give viewers a clear overall understanding of the entry.

[Specifications of the A1-Size Panel]

1. Outline of the construction&construction method (usage, main structural type, material etc.)
2. Explanations of the features and its difference from the normal construction or construction method
3. Isometric diagram and photos of the construction&construction method (and how it is applied)
4. Information about valuation and evaluation based on related laws such as Building Standards Law (<https://www.bcj.or.jp/rating/>)
5. Explanations of the expected benefits for users (end user, designer, construction manager etc.)

▼Building Construction / Construction Method (Unit 12, 13)

[Obligatory]

F. Outline of the Service/System for Housing
(An A1-size portrait panel)

+

[Optional]

Supplementary
Material

F. Outline of the Service/System for Housing (An A1-size portrait panel)

Please use an A1-size portrait panel (H841×W594mm, mounted on the 5 mm thick board, with the Entry Number clearly marked) to present the subject entry. Please ensure that the A1-size panel alone provides sufficient information to give viewers a clear overall understanding of the entry.

[Specifications of the A1-size panel]

1. Outline of the service or system (explanation of the main target users, and the contents designed for them etc.)
2. Explanations of its difference from the current service or system
3. Visualized presentation of the basic structure of the service or system, such as a concept diagram or a flow chart of the service process.
4. Explanations of the expected benefits for users (end user, designer, construction manager etc.)

▼Interior Space (Unit 16)

[Obligatory]

G. Outline of the Interior Space
An A1-size portrait panel

D. Document Material
An A3-size landscape document

+

[Optional]

Supplementary Material
H. Material Samples, etc.

G. Outline of the Interior Space (An A1-size portrait panel)

Please use an A1-size portrait panel (H841×W594mm, mounted on the 5 mm thick board, with the Entry Number clearly marked) containing the outline and the design point of the interior space, to present the entry. Please ensure that the A1-size panel alone provides sufficient information to give viewers a clear overall understanding of the entry.

D. Document Material (An A3-size landscape document)

As the supplementary materials of G, please use an A3-size document (W420×W297mm) within 10 pages to present it.

[Specifications of the document material]

1. Please download the designated cover template, fill in the required information, and use it as the cover (non-designated covers are not allowed). The cover is not included in the total page count.
2. Provide a concise summary of the overall concept, including the design details and key points.
3. Drawings (layout plan, floor plan, elevation, etc. / scale is optional).
4. Work photos (No limit to the number of photos)
5. List of materials used in the submitted work (with photos).

*It is recommended—but not required—to also display a material board showing physical samples.

H. Material Samples, etc.

Material samples showing the actual texture and a spatial model are recommended.

▼System and Service (Unit 18)

In the screening of the GOOD DESIGN AWARD for system and service works, the Judging Committee conducts a comprehensive assessment based on the GOOD DESIGN AWARD's screening perspectives from the following three axes.

Novelty: New value is created by utilizing new mechanisms and technologies. Alternatively, new solutions are designed to address existing problems.

Functionality: The designed functions should be rational and effectively presented to solve user problems.

Usability: The design should be easily visible, stress-free, and intuitive for all users.

To enable accurate evaluation based on the three criteria above, please exhibit the system or service currently provided to users in a usable condition whenever possible. If this is difficult, please prepare materials showing how it is used or operated in practice. The jury will also review the current level of social implementation or provision, as well as its present and future social impact. If the work will not be released by the 2nd screening, please explain the background and reasons. The format is flexible, including printed materials.

2. About the Display Space

Please apply for the required unit display space via the Entry Site based on the actual dimensions and setup of your work. As space at the screening venue is limited, please select the minimum necessary display space. Exceeding the requested space is strictly prohibited. Any excess may be removed by the organizer.

3. About the Display Content

As the display is for screening, there is no need to showcase your work with glamorous decorations and excessive publicity. Please make sure that your display is easy for the jury members to understand the work. Please be sure to check the instructions on P5, "About the Materials to be displayed" and follow the requirements.

4. Possible Size to Be Moved In

An entry should be placed within W3xD3 space (in the case on the table, W3xD1) flat space at maximum. Cars can be W3xD6. No special construction works or covering for installation are allowed.

5. Entry Number Representation Requested

During the 2nd screening process, the entries might be moved. To avoid any mix-up or loss, please make sure to attach a sticker with the entry number to your entry. Inconspicuous position is fine. However, for entries like cars and heavy/large machines that is impossible to move, the sticker is not necessary.

6. Electrifying

During the 2nd screening, the entries of electric appliances will be electrified for 24 hours in principle, though easy switch on/off system is appreciated. (When moving in, please show the staff at the counter how to operate it with the instruction paper etc.) For car audio etc., please prepare a power transformer to make sure that the electric appliances can be electrified with 100V power.

7. About Display with PC, Tablet, Video Equipment

In the case you bring any electrified information equipment such as laptop or tablet as the supplementary material, please make and bring an operation manual in A4-size including login ID and PW to play or restart, just in case that unexpected shut down of the power supply happened. Please give the operation manual to the staff at the reception counter. Please download and use the official operation manual template from the link below.

[Download the template](#)

8. Internet Connection

Please make your own arrangements. For wired internet, see P14 and apply from the Entry Site during 2nd screening registration.

9. About Display of Housing Fixtures

- For such entries as ceiling light, air conditioner, curtain rail and so on, which are used after being installed on walls or ceiling surfaces, please move in and display the subject entries together with the walls and the holders. If it is difficult, please display with a panel or other substitute materials.
- For lighting appliances, the display items of the entries shall be electrified during the screening.
- For door knob, gas stopper, mixed water stopper and so on, please display its condition when installed on certain bases.

10. About the Attendance of the 2nd Screening Session

The screening session is not open to applicants. Applicants can not enter the venue these days.

11. Other Points to Note

Please confirm P25 and follow the rules.

Register Information for the 2nd Screening

From June 30 to July 7, 13:00 JST, applicants should register the information of their entries such as method for 2nd screening, required display space, etc. for the 2nd screening on the entry site.

1. Method for 2nd screening

Please select one of the screening methods below.

[Regular 2nd Screening] 2nd screening fee: 71,500 JPY (tax included)

[2nd Screening for Undisclosed Entries] 2nd screening fee: 71,500 JPY + Screening fee for undisclosed entries: 110,000 JPY = 181,500 JPY (tax included)

For the implementation of the undisclosed screening, the organizer will provide a secure space at the second screening venue to ensure the protection of confidential information. Undisclosed screening is recommended only for entries that are not yet disclosed at the second screening stage, or for entries where exposure to other applicants may cause trouble. Applicants who request undisclosed screening will be notified separately regarding the schedule and move-in location. No further registration for the regular second screening is required for these entries.

*Undisclosed screening schedule: August 5 (move-in, screening, and move-out will be conducted at the time designated by the organizer).

*Entries using the official agency service or print service are not eligible for undisclosed screening.

2. Submission of Physical Entry

Please select one from the two forms of display items below, after you confirm the contents, the materials to be displayed.

[Submit actual product]

Display the physical item of the entry, no matter whether additional materials like panels exist.

*Please describe your supplemental material(s) other than the actual product, e.g., panel, document, and video.

[Submit substitute (A1-size panel, etc.)]

Architecture or any other intangible.

*Please describe specifically what you will be submitting as a substitute, e.g., A1 panel, A3 document, and model.

3. Installation Method / Necessary Space

If [Submit actual product] is selected

Please select one from

[Install on the table]

[Install on the floor]

[For cars only].

The combination of floor placement and table placement is unacceptable.

[Install on the table]

8,800 JPY (tax included) for one table

Maximum space: W3×D1 (3 tables)

Suggestion: Actual display size no more than 947.8×947.8 mm

OCTANORM system (silver); top board (white)

- No partition, no backboard.
- The space under the top board is not for display.
- No screw, no glue on the table. In the case the table is damaged, repair fee will be charged.

[Install on the floor]

Free (Charge for additional fees for extra sections)

Maximum space: 3×3

Suggestion: Actual display size no more than 950×950 mm

Direct placement (concrete floor)

- Display stands and racks may be placed freely.
- Please be advised there is no carpet nor mat.
- No partition, no backboard.
- You cannot screw the floor to fix. Please make it surely freestanding.

If [Submit substitute (A1 size panel, etc.)] is selected

Please select either one from [Panel package] or [Install on the table].

*It is not allowed to select both the panel package and the general display table (Install on the table).

*The panel package includes a frame for posting the A1 panel and a platform for placing the A3 detailed materials, brochures, tablets, etc. Only one display space can be requested for this method, and no additional requests can be made.

[Panel package]*

7,700 JPY (tax included)

One selection only

OCTANORM system (silver), top board (white)

- No partition, no backboard.
- The space beneath the top board can not be used for display.
- Unable to install "shelving for the table".
- No screw, no glue on the table. In the case the table is damaged, repair fee will be charged.

[Install on the table]

8,800 JPY (tax included) for one table

Maximum space: W3xD1 (3 tables)

Suggestion: Actual display size no more than 947.8x947.8 mm

OCTANORM system (silver), top board (white)

- No partition, no backboard.
- The space beneath the top board can not be used for display.
- No screw, no glue on the table. In the case the table is damaged, repair fee will be charged.

Details of the table for [Install on the table]

*No screw, no glue on the table. In the case the table is damaged, repair fee will be charged.

*If electric supply is applied, an opening will be made for wiring, with the top board.

*Tables are connected; left, right, and rear spaces belong to other entries.

Top view

Top view enlarged

Sectional view

[Necessary space]

Please specify and apply for the necessary space in “width×depth” to install the display items of the entries.

1 section (1m×1m) Free

For 2 or more sections 17,600 JPY (tax included) per additional section shall be charged.

Maximum space (If the space you wish for is larger than the limitation, please contact the organizer.)

[Floor placement] 9 sections (3×3); [Table placement] 3 sections (3×1);

[Panel package] 1 section only (0.7m×0.35m); [Vehicles] 18 sections (3×6)

4.Option

[Electricity outlets]

Please be sure to electrify the item when electricity is necessary for it to work. For applicants who will use the electricity, the application for the power supply (fee charging) is necessary. Please register the [Necessary electricity supply], [Electrical outlet box(es)] if you wish for it.

[Necessary electricity supply]

Electricity supply < 0.5kW: 11,000 JPY (tax included); < 1kW: 17,600 JPY (tax included);

> 1kW: 17,600 JPY (tax included) per 1kW

[Electrical outlet box(es)]

Outlet box (2 sockets/ AC100V grounded, maximum capacity 1.5kW)

1 box: 4,400 JPY (tax included)

*If you apply for the electric power supply, please at least apply for 1 outlet box.

*When applying for 200V power, each electrical outlet box costs JPY11,000.

<Examples of electricity outlets application>

Please calculate the total electricity consumption of all the machines in advance, and make applications for the necessary electricity supply.

E.g.1: Display with a laptop (electricity consumption: 60W)

Application: 0.5kW + 1 outlet box = 11,000 JPY + 4,400 JPY = 15,400 JPY

E.g.2: Display with two laptops (electricity consumption: 60W), and one laser printer (1.2kW)

Application: 2kW + 2 outlet boxes = 35,200 JPY + 8,800 JPY = 44,000 JPY

[Other equipments]

If you need panel stand to display the supplementary materials of the entries, you can bring it by yourself or rent the equipment from the organizer (fee charging). Please refer to the following instructions and make an application, if you want to rent the equipment from the organizer. The equipment you rent will be set in your display space before the installation day.

1. Shelving for the table; 2. Panel stand; 3. Internet access (wired)

For [Install on the table] Shelving for the table 4,400 JPY (tax included) per table  - The number of the middle shelf you apply shall be equal to the section amount of the necessary space. - You can not only apply for one middle shelf if you have applied several table sections.	For [Install on the floor] Panel stand 2,750 JPY (tax included)  - Equipped with velcro tape. Height (adjustable from 520 mm to 850 mm) / angle can be adjusted. - Only able to afford a foam board (not able to hold a heavy frame). - Cannot be placed on the [Table placement]
--	---

[Internet access]

Wired Internet access is provided as a fee-charging display option.

Fee: 44,000 JPY (tax included) per address

Period: August 4 ~ 7

- The Internet provided by the organizer is via the optical line terminal shared by other users within the venue.
- The maximum speed for one user is assumed to be about 5Mbps. If you request higher speed, please directly apply for the line from the venue.
- The Internet access provided is via the wired LAN. LAN cable will be pulled out into the display space.
- We don't offer other network equipment except the LAN cable. If necessary, please prepare by yourself.
- The connection is enabled by accessing the DNS information and IP address from the DHCP server.
- The private IP address of IPv4 is the accessible IP address.
- Though there is supposed to be no communication among the users of the optical line terminal, the security cannot be guaranteed. Applicants shall take necessary measures to ensure the security.

Reference: Display Space and Precautions

All exhibits must be displayed in the space requested on the entry site. In case of "Install on the floor", the display area is within the white line box, and in case of "Install on the table", the display area is within the white board. Although there is no height restriction on the display, please be careful not to overturn or interfere with the display of other entries around you. Please make sure that lighter weight items will not be blown over by the wind as the venue is frequently ventilated. To avoid loss, all exhibits and materials must be labeled with the Entry Number.

Install on the floor, 1 display space No optional equipment / display area is within the white line box

Entry Number _____

The organizer will prepare an entry number sign for each display space. Please display your work in the designated area. The screening number sign can be moved, but must be placed on the side of the aisle.

Install on the floor, 1 display space With optional equipment / display area within the white line box

Optional equipment: Panel stand

With velcro. Remove the protective film and directly stick to the panel board. Angle and height can be adjusted.

Optional equipment: Electricity supply

Power supply and wiring for display space.

Install on the table, 1 display space No optional equipment / display area within the white top board

Please be careful not to flip over when panel board is erected on the tabletop. Exhibits beyond the white top board is prohibited. Please make sure that lighter weight items will not be blown over by the wind as the venue is frequently ventilated.

No items can be placed underneath the table, and the front, sides and ground below the table are not allowed to be used for display.

Install on the table, 1 display space With optional equipment / display area within the white top board

Optional equipment: Electricity supply

Power supply and wiring for display space. Although the wire is reserved for a certain degree of spare length, please prepare your own extension cord if needed. White top board is equipped with wiring port.

Panel package Only 1 display space can be applied, no additional space is allowed

The panel package is a panel display device that has a frame, a display table, and velcro to hold the panel in place. In case of using display table, please make sure that the exhibits do not exceed the lower edge of the top board (the height should not exceed 184mm).

No items can be placed underneath the table, and the front, sides and ground below the table are not allowed to be used for display.

The panel package and panel stand (optional equipment) are equipped with velcro to hold the panel in place. Remove the protective film and directly stick to the panel board.

Setting method for the panel package and display stand

A1 panel board posting method

1. Remove the protective film of the velcro.
2. Stick the panel board directly.
3. Tear off the velcro and adjust the position of the panel board.

Reference: Display FAQ

Q: My exhibit may exceed the applied space by about 10cm. Is that allowed?

A: No. Exhibits must fit entirely within the applied space. Overflow into neighboring areas or aisles is not allowed. Any excess will be removed by the organizer, and disqualification will be the applicant's responsibility.

Q: Can I place a panel upright on the tabletop if I selected "Install on the table"?

A: Yes, but the organizer does not provide panel stands. If needed, prepare your own (e.g., paper stands). Ensure panels are stable and do not affect nearby exhibits.

Q: Is there a specified format for the optional supplementary materials? How many items can be displayed?

A: No. You may include panels, printed materials, models, or videos (on tablets or computers). You're free to decide, as long as everything fits within your space.

Q: Can I store boxes under the table or within the display area?

A: No. All non-display items must be removed. Storage under tables or within the exhibit area is not allowed. The venue has no storage facilities.

Q: Do I need to allocate space for the A3-size document submitted to venue staff?

A: Yes. Ensure your exhibit space can accommodate the A3-size landscape document. Submit one copy at move-in; the organizer will place it at your booth. Document will be destroyed after the screening and not returned.

Q: Can I use my own Wi-Fi instead of the venue's wired network?

A: Yes. You are responsible for setup and connectivity. The organizer does not provide support. Prepare and test your equipment in advance.

Q: Can I set up anti-theft measures for items on the table?

A: Yes, as long as they stay within your space, don't disturb others, and can be removed cleanly. Prepare all tools (e.g., nylon thread or wire) and install them during move-in.

Q: If my entry is a food item, can it be sampled by jury members?

A: No. Due to hygiene and health regulations, sampling food or drink is not allowed.

Q: Can I play audio with my video?

A: Yes, but keep the volume limited to your booth area, or allow the organizer to adjust it. Avoid loud playback, especially near other audio exhibits.

Q: If I submit multiple entries, will their booths be placed together?

A: Booth placement will be determined based on factors such as Entry Number, number of unit spaces, and display format. Even for entries from the same company with consecutive Entry Numbers, adjacent placement is not guaranteed. Booth locations cannot be designated by applicants.

Q: We're using an agent for move-in/out. Anything to note?

A: Only those with an "Entry Pass" may enter. Vehicles must display a "Move-in/out Vehicle Pass." Provide your agent with the 2nd Screening Guide, 1st Screening Result Sheet, and Move-in/out Vehicle Pass.

* Entry Pass can be obtained at the venue reception on move-in day by presenting the 1st Screening Result Sheet.

About Printing Services

[Process for Printing Services]

For the convenience of the applicants and to avoid the dense state of move-in and move-out operations, organizer will provide agency services for the production of A1-size panel and A3-size document material (Only for printing, laminating and binding), move-in, setting up and move-out and discarding from venue. If you need to use it, please prepare the relevant printed documents and apply for the service through Entry Site. The A3 document material print service is available ONLY to applicant from Unit 12, 13, 14, 15 and 16.

Upload period of printed files: July 8, 13:00 ~ July 13, 13:00 JST

- An A1-size portrait panel (for large equipment, architecture, intangible design and other works that cannot show the physical works)
- An A3-size landscape document material (for the architectural, construction and interior space category of the entries. 1 cover page + 10 data pages (one side print))
- Fee (tax included) : A1-size portrait panel: 33,000 JPY
A3-size landscape document material: 5,500 JPY
- Move-in and setting method: After printing and mounting, it shall be moved to the display location of the 2nd screening venue and fixed. No report will be made to the applicants after completion of the setting.
- Move-out and discarding method: After the 2nd screening process, removing from screening venue, then discard. Storage and return services are not provided.
- Must fill-in content : Please check P5~.

A1-Size Portrait Panel

PDF files need to be set to portrait A1-size (H841×W594mm).

- Printed documents must be in PDF format. (AI, PSD, JPEG and other formats are not acceptable)
- The panel must be one side. Double-side or plural boards are not acceptable.
- The "Entry Number" must be marked conspicuously at the top right of the panel.
- The printing paper will be glossy paper and using dry mounting.
- Organizer will not process or modify the data. Print documents with low resolution or unclear portraits will also be printed directly, please check by yourself before apply.
- Any changes after the application deadline will not be accepted.

[Document Specification]

Please use Illustrator or PowerPoint to create printed files.

< General Considerations >

- Create an A1-size portrait panel (H841×W594mm).
- There is no need to set trim line and bleed size.
- The document will be borderless printing.
- Delete auxiliary lines, ruler lines and other contents that no need to printed before saving as PDF format.
- Please set the resolution of the image to 350dpi.
- Documents with low resolution or unclear portraits will also be printed directly.
- For words or pictures that cannot be removed, please keep a distance of more than 5mm from the surrounding edge area.
- PDF file do not set password.
- The printed panel may have color deviation from the computer display, monitor, etc.

< Notes for Creating Files in Illustrator >

- Set the color mode to CMYK.
- Please outline the text before saving as PDF.
- When using a PSD image with a transparent background as a link, the body and transparent parts may produce subtle black lines when printed. Embedding and rasterizing operations are recommended.
- Color specification require is unnecessary.

Export from Illustrator to PDF (recommended)

- Standards: None
- compatible format: Acrobat7 (PDF1.6)
- Optimization of Web display: off

< Notes for Creating Files in PowerPoint >

- Page size setting should be made from user settings. (H841mm×W594mm) In addition, the following Settings are recommended for documentation.

Use Microsoft PowerPoint to create Print File Settings

1. Open [Options] from [File].
2. Click [Advanced] , [Image Size and Quality]
- Select "Do not compress images in file"
- Set the "Default resolution" to "330dpi or higher"

- If you use Microsoft Legal add-ons/features to convert PDF, the quality of photos and images will be reduced to 200dpi automatically, please do following Settings.

Setup methods for converting using Cube PDF free software

- Document type (standard: PDF)
- Version (standard: 1.7)
- Resolution (standard: 600dpi)

An A3-Size Landscape Document Material (Unit 12, 13, 14, 15, 16 only)

The PDF document will be printed to a landscape A3-size (H297×W420mm) white overlay paper.

Please keep only entry number and name on the cover.

The content of the dataset (excluding the cover) should be limited to 10 single pages.

Single side printing with staples on the left.

- Printed documents must be in PDF format. (AI, PSD, JPEG and other formats are not acceptable)
- Please put page numbers without the cover.
- Print factory will use Adobe Reader for document validation.
- Organizer will not process or modify the data. Documents with low resolution or unclear portraits will also be printed directly.
- Any changes after the application deadline will not be accepted.

Check the Entry Number and Head for the Reception Counter of the Unit

Entry Number G010012 ---> Reception Counter of Unit 01

*Please refer to the number here.

Entrance Check at the Reception Counter of the Unit

*Confirm the confirmation form of installation

Move Out the Entry

[Points to Note About Move-Out]

- Organizer cannot keep packing materials at the venue. Please take them away with yourself. If the applicants leave the packaging material in the venue, the organizer will dispose of it and charge a disposal fee later (per entry 5,500JPY tax included).
- Visting and photo shooting at the venue is strictly prohibited. Please make sure that the photos taken of your work do not include the work of other applicants.
- In the case of moving out by vehicles, please follow the staff's instructions and move out obey commands.
- Please bring any necessary tools for your dismantlement with yourself.
- The electric power supply will stop at 18:00 for those who have applied for it.
- Organizer cannot supply electricity for the tools. Please bring the battery type tools.

Management for Entry and Venue

1. About Display

Display location decision

The location of the display will be decided by the organizer, and applicants will be notified in late July.

Preparation for display

Participants application for display space, exhibition tables, power supply and other display items on the Entry Site, will be completed before the participant move-in. However, the cable network connection will be completed by the morning of the move-in day.

Attention about display

- Due to ventilation measures, move-in, move-out and screening days, the venue will be ventilated.
- For displaying items that may be dumped, please prepare your own anti-dumping measures. The organizer will not respond to anti-dumping measures to each work.
- There will be no wall in the display space.
- The display table prepared by the organizer should not be modified. If the table is damaged by punching or adhesive, the participant shall bear the cost of repair.
- All the lighting above the venue will be turned on.

2. Display Protection and Responsibility

- **The participant shall be responsible for the damaged, lost and stolen works during the period of move-in and move-out, and the organizer shall be responsible for the non-public period such as screening day.**
- Participants shall abide by the move-in and move-out time set by the organizer. Be careful in the process of move-in and move-out process and strive to prevent accidents.
- The organizer shall not be held responsible for any damage or accident caused by natural disaster or other uncontrollable factors.
- During the display and placement process of participants, the organizer has the right to restrict, suspend or require participants to take measures to prevent accidents when they judge the risks from the perspective of preventing accidents.
- The organizer has the right to change the display method of the participants if finds that there are safety hazards.
- Participants shall bear their own responsibility for accidents caused by their own actions.

3. Responsibility of Participants

The organizer will not be responsible for any problems arising from the intellectual property, quality, performance, safety or other construction of the works, participants shall bear relevant responsibilities.

4. Compliance and Change of Regulations

Participants and persons associated with participants must comply with the provisions set forth in this Guide. In addition, in case of special circumstances, the organizer will make changes to the relevant regulations.

5. Other Provisions

During the display process, participants must observe the following rules. In case of any violation of the regulations, the organizer will immediately suspend the relevant activities.

- The display must be conducted within the scope of the prior application.
- The volume of audio equipment must be set below 60phon.

6. Security Maintenance of the Venue

- For the wastes, bundles and packaging materials, corrugated boxes, etc. generated by the move-in and move-out process, the applicants must take them away from venue by themselves. If any irrelevant items are found in or around the booth, the organizer will take them back and discard them. In the future, the organizer will charge a disposal fee (¥5500 for each item).

Restoration of display space

Participants have until 19:00, August 7, to restore their display space and related equipment to their pre-relocation status. If the restoration is not completed, the organizer will move-out the restoration on behalf of the participants at participants own expense.

*The display tables and electrical equipment prepared by the organizer will be removed by the organizer.

7. Photographing and Video Recording in the Venue

No photographing, video recording or recording at the venue(Photos are only allowed in the special souvenir photo area). Please make sure that the photos taken of your work do not include the work of other applicants.

Next Steps After the 2nd Screening

[About 2nd Screening Results]

The results of the 2nd screening will be notified as from 13:00 JST on August 25 on your Entry Site account.

*According to "Principal Regulations for the GOOD DESIGN AWARD", the organizer and the Judging Committee will not respond to a request for the disclosure of information on individual screening details, including information on an item that has not received an award.

[After Passing 2nd Screening]

The entries passed 2nd screening are to be "GOOD DESIGN AWARD 2026 winners" as from October 15. Applicants are requested to hold back to release the result before October 15, official announcement date.

[About Award Announcement and Exhibition]

After passing the 2nd screening, applicants should complete the registration of "release information" and "exhibition information" through Entry Site between August 25 and September 1. In addition, participation in the exhibition is mandatory and non-participation will not be eligible for the award.

*Due to the limited space in the exhibition, products smaller than 550×500mm need to be displayed physically, while products over that size and awarded works in other categories will be displayed by A1 panels. For details regarding the exhibition space size, please contact the organizer directly.

[Schedule]

Aug. 25 - Sept. 1	Release Information, Exhibition Information Registration
Sept. 17	GOOD DESIGN BEST100 Presentation & Special Awards Screening Session
Oct. 15	Award announcement
Oct. 31 - Nov. 4	GOOD DESIGN EXHIBITION 2026
Nov. 4	GOOD DESIGN AWARD Ceremony
2027 Mar.	Publication of the Yearbook

[About Award Announcement, Certificate, And Yearbook]

Organizer produces 1. the page of award garellly; 2. certificate; 3. exhibition caption; 4. yearbook "GOOD DESIGN AWARD 2026", based on the information registered on the Entry Site.

Applicants are required to confirm and correct the information registered through the Entry Site. Applicants with joint application works, works with multiple awards, and works that require relevant confirmation are required to complete the confirmation of the release, certificate, and yearbook information within the deadline.

The organizer does not accept requests for changes for any reason after the deadline, September 1, 13:00 JST.

After Being Selected as BEST100

Among all the GOOD DESIGN AWARD awarded works of the year, 100 designs considered to show the way to the life, industry, and society of the future and to be pioneering designs for tomorrow will be chosen as the GOOD DESIGN BEST100. The BEST100 winners can not only go through the screening for the special awards, but also get exposure in many promotional activities. Besides, complimentary "GOOD DESIGN BEST100" trophy will be presented. If your entries are selected, your cooperation will be highly appreciated.

Participate in the "GOOD DESIGN BEST100 Presentation"

All the GOOD DESIGN BEST100 winners are requested to give a presentation at a presentation event called the "GOOD DESIGN BEST100 Presentation" held on September 17 at Tokyo Midtown Conference. This presentation is one part of the screening for the special awards.

Appendix: Official Agency Service Guide

Requesting Official Agency Service to Move-In/Out Your Entries

For applicants from abroad the agency service assigned by the organizer can be requested to install and dismantle the display items.

GOOD DESIGN AWARD 2026 official agency service provider, Kintetsu World Express Sales, Inc.(KSI) will receive the cargoes from applicants, carry them into the 2nd screening venue, open and set up, pack and carry out after the 2nd screening, discard, return or storage.

*KSI only receive DDP terms shipments otherwise all parcels will be returned to origin with the original shipper's responsible. We strongly recommend using major courier/express parcel service such as DHL, FedEx, UPS, OCS and TNT to ship your entry works to Japan. **Do not use SF Express, EMS** which can't be used DDP conditions.

SERVICE ORDER FORM

Once you confirm our quotation, please fill in, out your signature on it and Email to KSI G Mark 2026 team by **July 22 (Wed), 2026**.

We will send you **PayPal** payment notice shortly.

[illegible]

PayPal Payment

Visit your country [PayPal](#) website

PayPal is trusted by over 400 million users worldwide as the simpler and safer way to shop. Shoppers enjoy Buyer Protection on eligible purchases. You can send payments through their payment link issued by KSI Email without sharing your financial info.

- Upon receipt of the Service Order Form, KSI will Email you a link to pay via PayPal within one business day.
✂Please check your junk mail folder as well.
- The Email will be sent to the Billing Information contact you indicated in your Quotation Request.
- No need to register your information with PayPal, just click on the link and proceed with the payment.
- A credit card is required to execute PayPal online payments.
- Payment must be made within 3 business days of receipt of the link.
- When making payment, please enter your invoice number issued by KSI.

If you do not receive the link after two business days of sending the Service Order Form, please contact us.

PayPal Payment

- When KSI send you payment link, you will receive an email like the one in the image.

PACKING INSTRUCTION - 1

GDA ENTRY No.

G0000000

【Stick the own GDA ENTRY No. bottom or back side of your product.】

Do Not forget to put your GDA entry number to each products not only the product itself, but also its cases, accessory and outer package to avoid any missing items.

PACKING INSTRUCTION - 2

Packing

1. Put cushioning material to avoid product damage.
2. Pack the product inside
3. Use cushioning material on top of it.
4. Wooden case must use bolts. Do not use nails.

Marking

	
REF# Issued by KSI	N-001
GDA ENTRY NUMBER	G0000000
APPLICANT'S NAME	ABC Company
Number of boxes per GDA ENTRY NUMBER	1/1

Write the total number of packages **per GDA entry in the denominator**.

If there are 2 boxes in 1 entry, create 4 labels in total, 1/2 and 2/2.

1. Put a case label on **2 lateral Sides** of the carton.
2. We **Do Not receive** a parcel without Case Mark Label for security reasons.

PACKING INSTRUCTION - 3

!! DO NOT PACK plural GDA ITEM in 1 package !!

① Pack the one (1) GDA Number item into one (1) case.

② Put **CASE LABEL** on each case.

- REF#
- GDA ENTRY Number
- APPLICANT'S NAME
- Number of boxes

③ **DO NOT PACK plural GDA ITEMS in 1 package!**

JAPAN DUTY & IMPORT TAX

Shipping Terms

All parcels must be sent with **DDP*** term.

* **DDP (Bill sender)**: The Sender is responsible for delivering the goods to our designated warehouse in Japan, including all costs and risks in bringing the goods to import destination. This includes all export and import duties, taxes and customs formalities. Duty and Import tax must pay by the Sender through your courier company.

Neither JDP nor KSI pay Japan DUTY and Import tax for any shipment.

KSI only receive DDP terms shipments otherwise all parcels will be returned to origin with the original Sender's responsible and expense.

We strongly recommend using major courier/express parcel service such as DHL, FedEx, UPS, OCS and TNT to ship your entry goods to Japan.

Do not use SF Express, EMS which can't be used DDP terms.

DOCUMENT INSTRUCTION

Documents for Japan Customs Formalities

The following shipping documents are required by the Japanese Government for import / re-export customs clearance.

All the documents need to be clearly stated followings in **English** and should be sent accompanied with Courier waybill.

Shipping Invoice (Following items must be written)

- (A) All export items description.
- (B) Each item's country of origin, quantity, unit price, total value and its material.
- (C) Please write "Exhibition Goods / No Commercial Value" in the invoice.
- (D) Unit price and Total Value's Currency : (JPY, US\$, €, etc.)
- (E) **INCOTERMS: "DDP" or Choose "Japan Duty and Tax Bill sender" *1**
- (F) **IMPORTER*2:**

RETUN SHIPMENT

Items that did not pass the second screening will be shipped in order from September 11th (Fri), 2026.

Items that pass the second screening and will be exhibited at the award-winning exhibition will begin shipping from , November 13th (Fri), 2026.

Please use the flowchart below to see when your shipment will be shipped out from our warehouse.

[Please also check FAQ Page 27](#)

***The shipping date is an estimate.**

***Delivery dates cannot be specified for all shipments.**

Frequently Asked Questions

Category	Questions	Answers
Quotation	I plan to exhibit in the second round. Are there any items that cannot be shipped to Japan?	1.The following items cannot be imported into Japan and should not be sent. Alcohol products, tobacco, foodstuff, beverage, plants, seeds, animals, or any item containing leather, animal parts, animal products, pet medicines, pet cosmetics, pharmaceuticals, cosmetics, chemicals, or arms are subject to Japan import restrictions. In any case before shipping the goods you will need to send us well in advance a detailed invoice showing. 2.Empty boxes and empty bottles of food, beverages, medicines, and cosmetics can be imported to Japan. Please contact us if you have any questions. 3.In addition to food itself, utensils for the mouth such as cups and chopsticks, toys and baby items such as strollers may be treated the same as food and subject to quarantine. Please ask us before you ship.
Quotation	Can you print posters or panels?	We Kintetsu will only provide transport (Move-in/Move-out return) service of your physical screening entry goods. We do not provide poster and panel printing services. Please request printing services to the Organizer (JIDP / Japan Institute of Design Promotion).
Quotation	Could you send me a photo of our exhibit after it was displayed in the second screening?	The rights to the exhibited products are reserved by the Japan Institute of Design Promotion. Please ask the organizer if necessary.
Quotation	Is there a problem if there are two different currencies for the price of the product?	Please unify one type of currency for Quotation Requests.

Frequently Asked Questions

Category	Questions	Answers
Payment	Please tell me about PayPal.	1. One business day after receiving your Service Order Form, KSI will send an Email with a link for Web payment to the Email address of the contact person indicated in the Billing Information. When you proceed to the link in the Email, you will be taken to a screen where you can enter your credit card information for payment. 2. Please enter your credit card information and click the payment button. We do not provide our PayPal ID information. Also, please do not send payment to KSI G Mark 2026 Team Email address. 3. Please see page 14 of the shipping manual for details.
Payment	Will you, KSI, contact me after confirming the payment?	1. Once the payment with PayPal is completed, you will receive a payment completion email from PayPal, so please check there. After confirming your payment, KSI will contact you to request shipping of the cargo. 2. Please see page 15 of the shipping manual for details.
Payment	Is there a problem if the credit card holder name and exhibitor name are different?	No problem. When making payment, please enter the invoice number issued by us.

Frequently Asked Questions

Category	Questions	Answers
Ship to Japan	Are you, KSI, going to pay Japan duty and import tax for us?	1.We, KSI, do not pay import duties and consumption taxes in Japan on behalf of you. Please instruct your carrier to ship under DDP (full shipper's payment) terms. 2.The package will be returned to the origin of shipment if a package is sent under conditions other than DDP. We will not be held responsible if this prevents you from submitting your entry to the screening in time. 3.For example, if you ship a package using the transport terms "DAP", our warehouse will not be able to pay the customs duties and consumption tax, so we will refuse to receive the cargo.
Ship to Japan	Can I ship my cargo to Japan by a method other than courier?	In principle, please use courier to ship your cargo to Japan. If you prefer other method, please contact us, KSI, in advance.
Cargo tracking	Will you, KSI, inform me of the delivery progress and receipt status of my cargo?	Please track the delivery progress of your cargo by yourself on the courier website with your tracking number. We, KSI, will not contact you unless there are irregularities, such as when damage is detected upon receipt, when the package does not arrive by the deadline and so on.

Frequently Asked Questions

Category	Questions	Answers
Return shipment	Who is the exporter when returning the product after the second screening?	The re-exporter will be the Japan Institute of Design Promotion, which will not export or import under the name of KSI.
Return shipment	After the second screening, when will the items be returned from Japan?	We will start returning your products around September 11th (Fri) after the announcement of the results of the second screening. You will probably be able to receive it in about a week or so.
Return shipment	Are you, KSI, going to inform us return shipment tracking number?	We will inform you the tracking number based on your request.
Return shipment	The exhibit item which includes batteries, can you ship those batteries too from Japan?	As stated in the Service Order Form, batteries will be disposed of in Japan due to the difficulty in handling hazardous materials. We can ship to your suppliers in Japan based on your request.

Appendix: Important Notes

Notes on Exhibiting Built Structures

Construction or building work is not permitted inside the venue. If the entry requires any construction work, such as fixing devices or wall structures, please complete the construction in advance and bring the finished structure into the venue for installation. During installation, any work that may soil, damage, or cause water leakage in the venue, or that requires special protective measures, is prohibited.

When exhibiting built structures, please observe the following rules.

During the screening period, the local fire department will conduct an on-site inspection. If the exhibition equipment violates fire prevention ordinances or other regulations, its use may be prohibited or immediate removal may be ordered, making it impossible for the entry to be screened.

For inquiries regarding exhibition structures or fire safety, please contact us by email by 13:00 on July 7, clearly stating the screening number and details of the inquiry.

Email: info-e@g-mark.org

***If confirmation with the venue operator or fire department is required, it may take time to reply.**

1. Materials Used for Exhibition Structures

Please strictly observe the following rules regarding decorative materials used for the exhibition.

- (1) Materials such as exhibition plywood, floor coverings including carpets, construction sheets, curtains, stage curtains, fabric blinds, banners, and decorative curtains must have flame-retardant performance. This includes non-combustible materials as defined in Article 2, Item 9 of the Building Standards Act, quasi-non-combustible materials as defined in Article 1, Item 5 of the Enforcement Order of the Building Standards Act, and flame-retardant materials as defined in Article 1, Item 6 of the same Order.
- (2) Each flame-retardant item must display a flame-retardant label in an easily visible location, in accordance with the Ordinance for Enforcement of the Fire Service Act.

2. Prohibition of Direct Work on Venue Facilities

To protect and maintain venue facilities, the following direct work is prohibited:

- (1) Installing beams, nailing, and tacking
- (2) Cutting, digging, severing, gas cutting, or chipping
- (3) Applying paint or other coatings
- (4) Attaching items using adhesives
- (5) Wrapping wire, rope, or similar materials around columns or other structures
- (6) Using columns or other venue structures as supports for signs or similar items

3. Rules for Setup and Dismantling

Please observe the following rules when setting up and dismantling the venue.

(1) On-site presence of construction supervisor and helmet use

Please appoint a construction management supervisor and take sufficient safety measures. If crane work, work at height, or any other potentially dangerous work is involved, workers must wear helmets and other necessary safety equipment.

(2) Work by qualified personnel

The following work must be carried out by qualified personnel:

- Scaffolding assembly: Certificate of completion for designated scaffolding assembly training
- Slings work for cranes: Certificate of completion for slinging skill training
- Work at height (operation of aerial work platforms): Certificate of completion for work-at-height skill training, etc.

(3) Restrictions on fire-using equipment

Fire-using equipment and machines that generate sparks may not be used inside the venue.

(4) Accident reporting

If an accident occurs during work, please notify the organizer immediately. If an ambulance or other emergency service is called, please also inform the organizer without fail.

(5) Protective measures during work

If there is any risk of soiling, damaging, or causing water leakage in the venue facilities, protective measures must be taken.

(6) Insurance recommendation

Applicants are advised to take out damage insurance or similar coverage for accidents that may occur during setup or dismantling.

(7) Other notes

- a. Do not pour paint, oil, or similar substances into toilets or pantry facilities.
- b. Do not use bicycles, kick scooters, or similar vehicles in common areas.
- c. Follow the instructions of venue operation staff, security staff, and other relevant personnel.

4. Regulations Based on Fire Laws and Ordinances

(1) Restrictions on booth construction

- a. Two-story booth structures are not permitted.
- b. Booth height, including the height of exhibits, must be 6m or less from the floor. Within 6m of a water cannon, the height must be 4m or less from the floor. If these heights are exceeded, a package-type fire extinguisher must be installed. Please confirm with the organizer before the 2nd screening registration deadline.
- c. Do not cover the top of the booth with a ceiling, roof, or similar structure. In principle, ceiling or roof structures are prohibited, except for louvers, nets, or similar ceiling structures that allow water penetration and smoke exhaust. Such structures must have at least 30 mesh and an opening ratio of at least 55%. If a ceiling structure is unavoidable, it must be made of flame-retardant blackout curtains or equivalent products and must be planned as an open space. "Open space" means that at least one of the four sides is open, or that the space is not enclosed by hanging walls of 60cm or more on all sides. However, ceiling structures intended only for staging effects, or structures that can be replaced by louvers or similar alternatives, will generally not be approved. Installation of ceilings, roofs, or similar structures requires prior application to the organizer before the 2nd screening registration deadline.
- d. If kitchen equipment is installed and cooking involving oil or fat is carried out, measures must be taken to prevent oil or fat from splashing onto surrounding areas. An application must be submitted to the

organizer before the 2nd screening registration deadline.

(2) Flame-retardant regulations (Related to Article 8-3 of the Fire Service Act)

- a. Stage curtains, curtains, exhibition plywood, fiberboard, fabric blinds, blackout curtains, hanging curtains, banners, floor coverings such as carpets, and construction sheets used in the venue must be flame-retardant items. During the screening period, an inspection by the Mihama Fire Department is scheduled. If non-flame-retardant items are used for decorations or other items outside the entry itself, or if it cannot be confirmed that the items are flame-retardant, removal may be required following the inspection. In such cases, the organizer will remove the relevant items in accordance with the instructions, and the organizer will bear no responsibility.
- b. Flame-retardant labels must be displayed in an easily visible location by sewing, attaching, hanging tags, or similar methods. If the label cannot be displayed directly, please place documents proving flame-retardant performance inside the booth.

(3) Prohibited acts and approval requirements (Related to Article 23 of the Chiba City Fire Prevention Ordinance)

Under Article 23 of the Chiba City Fire Prevention Ordinance, the following acts are prohibited inside the venue, including during setup and dismantling.

[Prohibited acts]

- a. Smoking (including lighting cigarettes with matches, lighters, etc.)
- b. Use of open flames

“Open flame” refers to equipment that produces flames or sparks, equipment used with a visibly red-hot heating element, or equipment used with the heating element exposed. Electric heating equipment also falls under open flames if the red-hot heating element is visible and exposed, or if contact with combustible materials may cause immediate ignition. Equipment with a surface temperature of approximately 400°C or higher is regarded as open flame equipment.

- c. Bringing hazardous materials into the venue

“Hazardous materials” refers to the following items listed in Article 14 of the Chiba City Fire Prevention Regulations:

- i. Hazardous materials listed in the item name column of Appended Table 1 of the Fire Service Act (see Table 1) that have the properties specified in the properties column for their respective categories, as well as flammable solids and flammable liquids among the designated combustibles listed in Appended Table 3 of the Chiba City Fire Prevention Ordinance (see Table 4).
- ii. Flammable gases specified in Article 2, Item 1 of the General High Pressure Gas Safety Regulations (see Table 2).
- iii. Explosives listed in Article 2, Paragraph 1 of the Explosives Control Act, and toy fireworks listed in Paragraph 2 of the same Article (see Table 3).

[Approval requirements for exemption from prohibited acts]

Exemption from prohibited acts may be approved only when the following requirements are met.

In principle, an application may be submitted only when the act is considered necessary under generally accepted social norms, does not hinder fire prevention or human safety, and is limited to the minimum necessary scope.

■ Approval requirements for use of open flames

- a. A safe distance must be secured from combustible materials around and above the equipment.
- b. There must be no risk of combustible materials falling or tipping over.

- c. The user must be able to stop the use of the open flame easily.
- d. A Type 10 fire extinguisher must be provided.
- e. A horizontal distance of at least 5m must be maintained from hazardous materials and other easily ignitable combustible materials. This does not apply if effective fire separation is provided by walls made of non-combustible materials.
- f. The approvable scope is as follows:
 - i. Fire-using equipment and other devices using electricity as the heat source
 - ii. Fire-using equipment and other devices using gas fuel as the heat source
 - The consumption of each device must be 58kW or less, and the total consumption in one area must be 175kW or less. The area must be separated from other areas by aisles at least 5m wide.
 - A gas overcurrent prevention device or a device for early detection of gas leakage must be installed. Cartridge-type equipment is excluded.
 - Liquefied gas must be used in cartridge-type fuel containers.
 - iii. Fire-using equipment and other devices using liquid fuel as the heat source, limited to demonstrations accompanying the exhibition.
 - iv. Fire-using equipment using solid fuel as the heat source, limited to demonstrations accompanying the exhibition.
 - v. For equipment with a flame, the flame length must be 20cm or less.

If the above conditions apply, an application must be submitted to the organizer before the 2nd screening registration deadline.

■ Approval requirements for bringing hazardous materials into the venue

- a. A Type 10 fire extinguisher must be provided.
- b. A horizontal distance of at least 5m must be maintained from places where fire is used. This does not apply if effective fire separation is provided by non-combustible materials.
- c. They must be stored in sealed containers and separated from other items.
- d. The approvable scope is as follows:
 - i. Hazardous materials must be less than one-tenth of the designated quantity specified in Appended Table 3 of the Cabinet Order on the Regulation of Hazardous Materials (see Table 1).
 - ii. Flammable solids and flammable liquids must be less than one-tenth of the quantity specified in Appended Table 3 of the Chiba City Fire Prevention Ordinance (see Table 4).
 - iii. Combustible gases are limited to liquefied gases exempt from the High Pressure Gas Safety Act, and the total gas mass must be less than 5kg.
 - iv. The explosive content of toy fireworks must be less than 5kg.

* Acts not regarded as bringing hazardous materials into the venue:

- i. Exhibiting hazardous materials in an indoor exhibition hall, provided that no demonstration is conducted and the items are sealed in product containers or similar containers.
- ii. Exhibiting vehicles or similar items, provided that the engine is not started.
- iii. Bringing in or using machinery or equipment in which lubricating oil or similar substances are sealed inside.
- iv. Bringing in decorations, artworks, or similar items made of paraffin classified as combustible solids.
- v. Using animal or vegetable oil for cooking, excluding boiling.
- vi. Using cleaners or similar hazardous materials for daily cleaning.

If the above conditions apply, an application must be submitted to the organizer before the 2nd screening registration deadline.

*** Notes**

For “exemption from prohibited acts,” the organizer will collect applications from applicants and submit them together. However, even if an application is submitted, it may not be accepted depending on the individual judgment of the local fire department.

In addition to the above conditions, if the Chief of the Chiba City Mihama Fire Department considers it necessary for fire prevention, additional measures may be required.

The organizer bears no responsibility if an application for exemption from prohibited acts is not accepted.

Approval will be revoked in the following cases:

- a. The approval requirements are not fulfilled.
- b. A fire occurs at the location where the exemption was approved.
- c. Due to changes in the structure or equipment of the building or part of the building, the approved matter is deemed to pose a fire prevention risk.

Any costs arising from safety measures required under the guidance of the local fire department shall be borne by the applicant.

(4) Safety measures

- a. Toy fireworks must not be mixed with other items and must be handled in a non-combustible container with a lid.
- b. Consumption or ignition of toy fireworks in the exhibition area is not permitted.
- c. Pipes used for handling liquid hazardous materials must be metal pipes, and joints must be threaded or flange-welded.
- d. If a large amount of combustible vapor is generated, measures must be taken to discharge the vapor to a safe location outside the venue.
- e. Equipment that may scatter liquid hazardous materials must be provided with anti-scattering measures.
- f. Hazardous materials that may ignite upon contact or mixing must not be handled in the same location.
- g. The amount of fuel in the tanks of vehicles displayed or exhibited must be kept to the minimum necessary.
- h. Liquid hazardous materials must not be replenished during the exhibition period.
- i. Imported hazardous materials whose names, properties, or other details are unknown may not be exhibited.
- j. Other necessary safety measures must be taken according to the properties of the hazardous materials.

5. Floor Load Limit

The floor load limit inside the venue is 5 tons or less per square meter. If this limit is exceeded, load distribution measures are required. Please consult the operation office in advance and prepare the necessary protective measures at the applicant's own responsibility. The total weight of vehicles entering the venue, including cargo, must not exceed 30 tons. In addition, if an entry may scratch the venue floor during move-in, protective floor measures must be prepared when it moves under its own power inside the venue, regardless of its weight.

6. Prohibition of Ceiling Structures, Including Enclosed Spaces

Ceiling structures (such as blackout curtains) are generally prohibited because they may interfere with fire alarm detection or sprinkler operation. If a ceiling structure is unavoidable due to the nature of the entry, an application must be submitted to the fire department in advance, and its guidance and approval must be obtained. Please be sure to consult the organizer's office in advance. In addition, exhibitions of enclosed spaces, such as unit bathrooms, may be regarded as ceiling structures, so please take particular care.

Table 1: Hazardous Materials Listed in Appended Table 1 of the Fire Service Act

Category	Property	Item names	Designated quantity
Class 1	Oxidizing Solids	1. Chlorates 2. Perchlorates 3. Inorganic peroxides 4. Chlorites 5. Bromates 6. Nitrates 7. Oxidates 8. Permanganates 9. Dichromates 10. Other items specified by Cabinet Order 11. Items containing any of the above	Type 1 oxidizing solids 50kg Type 2 oxidizing solids 300kg Type 3 oxidizing solids 1,000kg
Class 2	Combustible Solids	1. Phosphorus sulfide: 100kg 2. Red phosphorus: 100kg 3. Sulfur: 100kg 4. Iron powder: 500kg 5. Metal powder 6. Magnesium 7. Other items specified by Cabinet Order 8. Items containing any of the above 9. Flammable solids	100kg 100kg 100kg 500kg Type 1 combustible solids 100kg Type 2 combustible solids: 500kg 1,000kg
Class 3	Spontaneously Combustible Substances and Water-Reactive Substances	1. Potassium 2. Sodium 3. Alkylaluminum 4. Alkyl lithium 5. Yellow phosphorus 6. Alkali metals, excluding potassium and sodium, and alkaline earth metals 7. Organometallic compounds, excluding alkylaluminum and alkyl lithium 8. Metal hydrides 9. Metal phosphides 10. Calcium or aluminum carbides 11. Other items specified by Cabinet Order 12. Items containing any of the above	10kg 10kg 10kg 10kg 20kg Type 1 spontaneously combustible and water-reactive substances 10kg Type 2 spontaneously combustible and water-reactive substances 50kg Type 3 spontaneously combustible and water-reactive substances 300kg
Class 4	Flammable Liquids	1. Special flammable liquids 2. Class I petroleum, non-water-soluble liquids Class I petroleum, water-soluble liquids 3. Alcohols 4. Class II petroleum, non-water-soluble liquids Class II petroleum, water-soluble liquids 5. Class III petroleum, non-water-soluble liquids Class III petroleum, water-soluble liquids 6. Class IV petroleum 7. Animal and vegetable oils	50 liters 200 liters 400 liters 400 liters 1,000 liters 2,000 liters 2,000 liters 4,000 liters 6,000 liters 10,000 liters
Class 5	Self-Reactive Substances	1. Organic peroxides 2. Nitrate esters 3. Nitro compounds 4. Nitroso compounds 5. Azo compounds 6. Diazo compounds 7. Hydrazine derivatives 8. Hydroxylamine 9. Hydroxylamine salts 10. Other items specified by Cabinet Order 11. Items containing any of the above	Type 1 self-reactive substances 10kg Type 2 self-reactive substances 100kg
Class 6	Oxidizing Liquids	1. Perchloric acid 2. Hydrogen peroxide 3. Nitric acid 4. Other items specified by Cabinet Order 5. Items containing any of the above	300kg

Table 2: Combustible Gases Defined in Article 2, Item 1 of the General High Pressure Gas Safety Regulations

Item names	Acrylonitrile, acrolein, acetylene, acetaldehyde, arsine, ammonia, carbon monoxide, ethane, ethylamine, ethylbenzene, ethylene, ethyl chloride, vinyl chloride, chloromethyl, ethylene oxide, propylene oxide, hydrogen cyanide, cyclopropane, disilane, diborane, dimethylamine, hydrogen, hydrogen selenide, trimethylamine, carbon disulfide, butadiene, butane, butylene, propane, propylene, methyl bromide, benzene, phosphine, methane, monogermane, monosilane, monomethylamine, methyl ether, hydrogen sulfide, and other gases that fall under either item I or II below, excluding fluoroolefin 1234yf and fluoroolefin 1234ze. I. Gases with a lower explosive limit of 10% or less when mixed with air II. Gases for which the difference between the upper and lower explosive limits is 20% or more		
Criteria for bringing in the above gases			
Criteria	Category	Item names	Permitted quantity
	Exhibition hall	Liquefied gas in a container with an internal volume of 1 liter or less, with a pressure of 0.8 MPa or less at 35°C, and containing no toxic gas Examples: gas lighters gas refill containers for lighters gas containers for built-in tabletop gas stoves aerosol products	total gas mass of less than 10kg

Table 3: Explosives Listed in Article 2, Paragraph 1 of the Explosives Control Act and Toy Fireworks Listed in Paragraph 2 of the Same Article

Item names	1. Propellants a. Black powder and other propellants mainly composed of nitrates b. Smokeless powder and other propellants mainly composed of nitrate esters c. Other propellants equivalent to those in "a" or "b" and used for propulsive explosive purposes, as specified by METI ordinance 2. Explosives a. Mercury fulminate, lead azide, and other initiating explosives b. Ammonium nitrate explosives, potassium chlorate explosives, Carlit, and other explosives mainly composed of nitrates, chlorates, or perchlorates c. Nitroglycerin, nitroglycol, and other explosives mainly composed of nitrate esters used for explosive purposes d. Dynamite and other explosives mainly composed of nitrate esters e. Trinitrobenzene, trinitrotoluene, picric acid, trinitrochlorobenzene, tetryl, trinitroanisole, hexanitrodiphenylamine, trimethylenetrinitroamine, other nitro compounds containing three or more nitro groups, and explosives mainly composed of these, used for explosive purposes f. Liquid oxygen explosives and other liquid explosives g. Other explosives equivalent to those in "a" to "f" and used for destructive explosive purposes, as specified by METI ordinance 3. Pyrotechnic Articles a. Industrial detonators, electric detonators, firearm primers, and signal detonators b. Live cartridges and blank cartridges c. Fuzes and percussion tubes d. Detonating cords, fuses, and electric fuses e. Signal flares and signal rockets f. Fireworks and other pyrotechnic articles using the propellants or explosives listed in the preceding two items, including toy fireworks

Table 4: Designated Combustibles Specified in Appended Table 3 of the Chiba City Fire Prevention Ordinance

Product names	Quantity	Product names	Quantity
Cotton and similar materials	200kg	Coal and charcoal	10,000kg
Wood wool and wood shavings	400kg	Combustible liquids	2m³
Rags and paper waste	1,000kg	Processed wood products and wood waste	10m³
Threads and yarns	1,000kg	Synthetic resin	Foamed synthetic resin 20m³
Straw and similar materials	1,000kg		Other synthetic resin 3,000kg
Recycled-resource fuel	1,000kg		
Combustible solids	3,000kg
