

# Automatic refills are easy refills.

Meet Kyle and Nick – two Express Scripts® members who take daily, long-term medication. But there's one big difference...

## Kyle

signed up for **automatic refills** of 90-day supplies.

That's why Kyle gets to...

## Nick

doesn't have automatic refills on his long-term medication.

That's why Nick gets to...

...keep on track with his medicine, which helps him stay healthier.

...schedule dinner plans, not monthly refill reminders.

...sit back and relax, knowing he won't run out of medicine.

...focus on new hobbies, now that he doesn't have to focus on calling his prescriber for prescription renewals.

...miss a dose because he forgot to order his refill.

...remember to make time to order his refills every few months.

...contact his prescriber when he's out of refills.

...worry that his refill won't arrive before he runs out of medication.

### The bottom line

Be like Kyle – enroll in automatic refills and make life easier.

**It's easy to get started! Choose the way that's best for you.**
