HSA Plan

Saving on prescriptions can make a big difference. Here's how:

Long-term medicines are taken regularly for chronic conditions.*

Saving money matters. And your new prescription benefits offer new ways to save on the things that matter, like your long-term medicines. First, make a change from 34-day refills to 90-day supplies. Then, choose the Maintenance Choice program, which allows you to fill your 90-day supply at any of our more than 9,600 CVS/pharmacy locations or with CVS/caremark Mail Service Pharmacy for the same low price. The choice is yours, and so are the savings.

There are two easy ways to start saving with 90-day prescriptions:

- Call Customer Care toll-free at **1-866-212-4752**, and we'll handle the rest
- Speak to a pharmacist at one of our CVS/pharmacy locations

Short-term medications, such as antibiotics, are taken for a limited period of time.**

To save on short-term prescriptions, use one of our 68,000 network pharmacies nationwide. To find a list of network pharmacies or even more savings, visit www.caremark.com.

Your plan is based on a maximum "out of pocket" design which integrates both medical and pharmacy benefits. Your maximum out of pocket is \$6,650 for an individual or \$13,300 for a family. Until the \$1,650 per individual / \$3,300 per family deductible amount is met, you will pay 100 percent for your prescriptions. If enrolled in a family plan, you must meet the full family deductible before the plan begins paying at the costs below.

Once the deductible is met, your costs will be as follows:***

	Any network pharmacy		CVS/pharmacy or CVS Caremark Mail Service Pharmacy
	Price of one 34-day refill	Price of three 34-day refills	Price of one 90-day supply
Generic drugs	20%	20%	20%
Preferred brand drugs	20%	20%	20%
Non-preferred brand drugs	20%	20%	20%
Annual Deductible	\$1,650 per individual / \$3,300 per family		
Maximum Out-of-Pocket	\$6,650 per individual / \$13,300 per family
