

2026 Enhanced Drug Coverage List

Effective **January 1, 2026**, the formulary for Braven Medicare Employer Group Rx Plan includes an additional list of drugs for expanded coverage to enhance your Part D benefit.

Enhanced Drug Coverage List

The Enhanced Drug Coverage List (Non-Part D Eligible drugs) includes certain generic and brand name prescription drugs that are otherwise excluded from the Medicare Part D program. The amount you pay will be determined by whether the drug is a generic or a brand name drug. Generic drugs have the Tier 2 copay and brand drugs have the Tier 4 copay. You must have a provider (a doctor or other prescriber) write your prescription.

Since non-Part D drugs are excluded from the Part D program, the amount you spend on supplemental drugs does not count toward your true out-of-pocket (TrOOP) costs and Drug Spend. If you receive extra help to pay for your prescriptions, you will not get extra help to pay for these drugs. For this reason, you may wish to talk to your doctor to review alternative medicines that are on the formulary and covered by the Part D program.

This list begins on the following page of your formulary booklet.
