

Advanced Therapy Medicinal Products (ATMPs) – List 1

Advanced Therapy Medicinal Products (ATMPs) are a set of medications defined by the Medicines and Healthcare products Regulatory Agency. ATMPs include things like:

- gene therapies,
- somatic cell therapies, and
- engineered tissues.

What benefit is provided?

We only pay for a small number of approved ATMPs under your scheme. Please check the list of approved ATMPs. These treatments can be very expensive, if in any doubt please call us before you start your treatment to make sure it's eligible.

Current eligible treatments:

Brand name	International non-proprietary name (INN) or generic name
Holoclar	Ex vivo expanded autologous human corneal epithelial cells containing stem cells
Spherox	Spheroids of human autologous matrix-associated chondrocytes
Imlygic	Talimogene laherparepvec
Yescarta	Axicabtagene ciloleucel
Kymriah	Tisagenlecleucel
Tecartus	Brexucabtagene autoleucel
Abecma	Idecabtagene vicleucel
Breyanzi	Lisocabtagene maraleucel
Carvykti	Ciltacabtagene autoleucel

Please note: New therapies may become available, so we will regularly review this list. Please check the latest version of this list before you start any treatment, which can be found at aviva.co.uk/atmp-list1

What's not eligible?

We do not pay for any ATMPs that are not on the list, including any associated hospital or consultant/specialist costs.

Call the customer service helpline if you have any questions or need to make a claim, please refer to your member literature for your telephone number.

Calls may be recorded and monitored
