Plan Options

The Product offers **Three Plan options** - Level Cover Benefit, Increasing Cover Benefit, and Level Cover with Future Proofing Benefit. The plan option once chosen at inception cannot be changed during the policy term.

- **Level Cover Benefit:**

Under this Plan option, the Absolute amount assured on death would remain level throughout the policy term.
(*please refer section 'Benefits in Detail' for description of Death Benefit and in-built features under the product)

- **Increasing Cover Benefit:**

With time, your responsibilities grow, the inflation goes up, and so your insurance cover should be able to keep up with these increases. The increasing cover benefit puts your insurance cover on an "increase" mode automatically, so that your security is enhanced with time without you having to manage the same.

- Under this Plan option, the Absolute amount assured on death would increase by 10% p.a. (simple) of the Basic Sum assured at the end of every 5th policy year, subject to a maximum increase of up to 100% of Basic Sum Assured.
- This increase will not be applicable once the Life assured attains the age of 71 years.
- The premium shall depend on the basic sum assured chosen at inception of the policy & the premium remains constant throughout the policy term.

For example: If a policy is issued for a Life Assured aged 35 years and Basic Sum assured of ₹1,00,00,000 for a term of 30 years, and if the death occurs in 14th policy year, the sum assured payable on death would be ₹1,20,00,000 (₹1,00,00,000 + 2 increases of ₹10,00,000 each), provided the policy is in-force.

(*please refer section 'Benefits in Detail' for description of Death Benefit and in-built features under the product)

- **Level Cover with Future Proofing Benefit**

With changes in your personal and financial needs, it is not always possible to buy a new additional insurance coverage each time. Thus, to ensure that your protection cover matches with the changes in your responsibilities at important life stages, this option has been designed. The Level Cover with Future Proofing Benefit empowers you with the choice of managing your protection based on defined life-stages.

- Under this plan option, the life assured has a choice to increase Absolute Amount assured on Death on attaining certain Life Stages during the policy term, without further medical underwriting, applicable from next policy anniversary following the acceptance of the request for the increase.
- These Life Stages and the corresponding increase in the Absolute Amount assured on Death are as follows:

Life Stages	Increase in Absolute Amount assured on Death
On First marriage	50% of Basic Sum Assured (subject to maximum increase of ₹50lakh)
On live birth or on adoption of First child	25% of Basic Sum Assured (subject to maximum increase of ₹25 lakh)
On live birth or on adoption of Second child	25% of Basic Sum Assured (subject to maximum increase of ₹25 lakh)
On purchase of house [^]	50% of Basic Sum Assured (subject to maximum increase equal to the home loan amount or of ₹50 lakh, whichever is lower)

[^]This facility is available only once during the policy term provided a house is purchased after the risk commencement date.

- It is your discretion whether to exercise any of the above Sum Assured increments available under this option on happening of respective events. In case you decide to exercise this option, then
 - a) the corresponding increase in premium on account of increase in Sum Assured will be applicable from the time of increase in the Sum Assured. Both increase in premium and increase in Sum Assured will apply prospectively from the policy anniversary date immediately falling on or after the date of acceptance of the request.
 - b) the premium rate applicable for increased Sum Assured would depend on the attained age and outstanding policy term at the time of exercising the option.
 - c) the Life Assured will not be subjected to any underwriting except for the requirement to submit valid documents to support the fulfillment of the conditions required for exercising the option.
 - d) In case of the birth of twin children or triplets etc, only two increases shall be allowed and the options for increase on birth of first child and on birth of second child can be exercised at the same time on submission of necessary proof
- **Conditions applicable for this option:**
 - o The increment in Sum Assured basis attaining any of the Life Stage can be exercised from 1st policy anniversary onwards.
 - o This option is available only for the Regular Premium policies.
 - o The policy needs to be in force at the time of exercising the option, i.e. at the time of requesting for increase in Sum Assured when attaining certain life stage

A policy of life insurance may be called in question at any time within three years from the date of the policy, on the ground of fraud or on the ground that any statement of or suppression of a fact material to the expectancy of the life of the insured was incorrectly made in the proposal or other document on the basis of which the policy was issued or revived or rider issued. The insurer shall have to communicate in writing to the insured or the legal representatives or nominees or assignees of the insured, the grounds and materials on which such decision is based.

No insurer shall repudiate a life insurance policy on the ground of fraud if the insured can prove that the mis-statement or suppression of a material fact was true to the best of his knowledge and belief or that there was no deliberate intention to suppress the fact or that such mis-statement or suppression are within the knowledge of the insurer. In case of fraud, the onus of disproving lies upon the beneficiaries, in case the policyholder is not alive.

In case of repudiation of the policy on the ground of misstatement or suppression of a material fact, and not on the grounds of fraud, the premiums collected on the policy till the date of repudiation shall be paid.

Nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.

For complete details of the section and the definition of 'date of policy', please refer Section 45 of the Insurance Act, 1938, as amended from time to time.
