France produces more fine wines than any other country in the world. Like French food, French wine remains the benchmark against which greatness elsewhere is judged. French wines are complex, austere, and reflect the region and the notion of terroir. Terroir, coined by the French, refers to the specific differences in wines that are caused by factors such as soil types, micro-climate and sun exposure. France is the source of many grape varieties (Cabernet Sauvignon, Chardonnay, Pinot Noir, Sauvignon Blanc, Syrah) that are now planted throughout the world, as well as wine-making practices and styles of wine that have been adopted in other producing countries. We hope you enjoy these fun French selections. Santé!

We always have a selection from our Monthly Featured Wines open at our Daily Tasting Bar so you can Taste Before You Buy®! Cheers!

To your Health! Kathee, Emily, Kevin, Dan, Darshan, Eric, Lisa, Jen, and Megan
