2017 Girasole Chardonnay - Mendocino

Subtle fruit and vanilla aromas, mild apple and butter flavors.

\$13.99 btl \$12.59 btl/cs

California accounts for nearly 90 percent of American wine production. The production in California alone is one third larger than that of Australia. If California were a separate country, it would be the world's fourth-largest wine producer. Over 100 grape varieties are grown in California, but the leading varietals are Cabernet Sauvignon, Chardonnay, Merlot, Pinot Noir, Sauvignon Blanc, Syrah, and Zinfandel. California hosts some of the world's largest wine companies, but it is also home to a number of boutique wineries, some of which attract astronomical prices for their cult wines. Whether through mass production or single-vineyard artisanal winemaking, California produces 90% of American-made wine and supplies more than 60% of all wine consumed in the country. We hope you enjoy this month's selections. Cheers!

We always have a selection from our Monthly Featured Wines open at our Daily Tasting Bar so you can Taste Before You Buy®! Cheers!

To your Health! Kathee, Emily, Kevin, Dan, Darshan, Eric, Lisa, Jen, & Megan
