SUMMARY

The Infrastructure Fund (IF) was established by the Government in 2011 with the purpose to finance core infrastructure and important capital development projects to support implementation of the Strategic Development Plan of Timor-Leste 2011-2030 (SDP). The SDP sets out priorities for the infrastructure sector as a central pillar of the social and economic development of the country. The main target of the IF is to build and maintain essential infrastructure, including roads and bridges, ports and airports, provide reliable electricity across the country, improve water and sanitation, public facilities, and other strategic sectors.

This Budget Book for IF presents the summary of the budget allocation and execution since 2011, and the summary of the main results of the projects, financed through the Fund during the past years. The IF budget allocation from 2011 is of US\$ 5.4 billion, and execution is of US\$ 3.3 billion or 60%.

Currently, the IF Portfolio consists of 1,972 infrastructure projects, including 1,065 completed projects. In 2022 the IF Portfolio has been restructured, and for 2023 it is consisted of 26 Programs, and 70 sub-Programs.

In 2023, the IF is focusing on funding of projects according to the following priorities: (1) ongoing projects from previous years; (2) contracts from 2021/2022; (3) projects under preparation.

For 2023 the IF budget allocation for the Infrastructure Fund is US\$ 201.7 million, including external loans.

The detailed information regarding the IF Portfolio, budget allocation for the Infrastructure Fund for 2023, and budget projection for 2024 – 2027 are presented on the figure below.

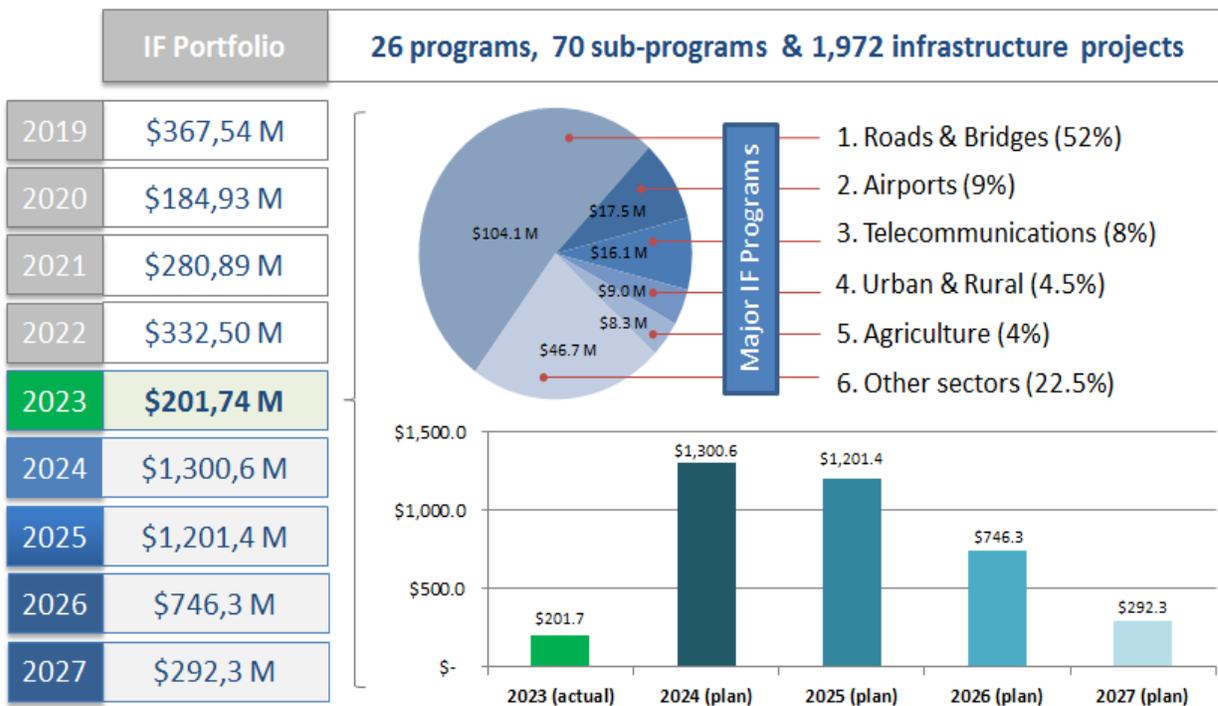

Figure 1: Summary of the Portfolio and budget of the Infrastructure Fund

1. INTRODUCTION

1.1. Background of the Infrastructure Fund

The Infrastructure Fund (IF) was established in 2011 by the Government of Timor-Leste to finance strategic projects, and to improve the core infrastructure that should support the economy and social growth of the country as it is defined in the Strategic Development Plan for 2011-2030.

During 2011 – 2016, IF was operated as a special fund. And from 2016, the Government transformed IF into the autonomous fund with the intention to eliminate functional limitations. The autonomous arrangement allows operate in a more efficient way, as the payment process is linked directly to the Central Bank.

During 2016 – 2022, IF has developed the national standards, including the feasibility study guideline, project appraisal guideline, ex-post evaluation methodology, and criteria. The IF policy and priorities are in line with the long-term vision and objectives of the Government where the infrastructure development covers the basic infrastructure, economic, and social sectors with the main target to support the development of the country. The Government defined the infrastructure development as a priority in the following policy documents:

- Strategic Development Plan for 2011 - 2030;
- Program of the VIII Constitutional Government for the five years' period (2018 – 2023);
- Framework of the General State Budget and public financial management for 2023.

The IF program portfolio and projects also contribute directly and indirectly to achieving the global agenda, such as SDGs that government has already adopted. In fact, the priority investments that government has already allocated into energy and clean water, poverty reduction and alleviation, quality of education and public health, job creation, decent work, and economic growth shall contribute to achieving the SDG agenda (SDG 6, SDG 7, SGD 9, etc.). At the same time, the priority investment areas are also help the government to achieve the objectives of the national long-term plan for 2011 -2030.

The approval of Law No.2/2022 on 10 February, and Law no. 8/2022 on 15 June provide a framework for more efficient state budget and public financial management process that taking into consideration various strategic planning options, including the financing of multi-annual infrastructure projects. The objective of this reform is to speed up public management, and increase transparency, responsibility, accountability and control of the services and entities of the Public Administrative Sector.

The budget strategy sets out the strategic priorities in budgetary matters, the objectives in terms of public revenue and expenditures, public debt, as well as fiscal policy. GOP for 2023 defined the national targets to be achieved by the Government through measures in the following 16 strategic areas: (a) agriculture, livestock, fisheries and forestry; (b) economy and employment; (c) tourism; (d) territorial development and housing; (e) environment; (f) petroleum and minerals; (g) electricity and renewable energy; (h) national connectivity; (i) water and sanitation; (j) education and training; (k) health; (l) social inclusion and protection; (m) culture and heritage; (n) state reform; (o) defense and national security; (p) international relations and foreign policy. The Infrastructure Fund plays an important role in providing the financial support to these strategic sectors.

In the medium term period 2024-2027, consistent positive growth is expected, assuming an increase in arrivals due to the resumption of commercial flights and the tourism development strategy, strong growth in public services, public-private partnerships, growth in infrastructure financing through loans, and private sector growth encouraged by political stability.

1.2. Regulation framework of the Infrastructure Fund

The Infrastructure Fund was established by the Law № 1/2011 of 14 February as a Special Fund under the Article 32 of the Law № 13/2009 of 21 October “Budget and Financial Management Law”. Further, the Decree-Law № 8/2011 of 16 March set the regulation of the Infrastructure Fund. Following the Law № 1/2016 of 14 January on the State Budget 2016 the Infrastructure Fund was transformed into the autonomous fund. And the current legal regulation of the Fund is defined by the Decree-Law № 13/2016 of 18 May as a substitution of the Decree-Law № 8/2011, where the scope of IF investments is to provide the financial support for the capital development in the following sectors:

- (a) Transport infrastructure including roads, bridges, ports, and airports;
- (b) Social infrastructure, including hospitals, schools, and universities;
- (c) Flood control and landslide protection infrastructure;
- (d) Water treatment and sanitation facilities;
- (e) Power generators and distribution lines;
- (f) Telecommunications;
- (g) Logistic facilities, including storage infrastructure;
- (h) Public buildings and public facilities;
- (i) Other infrastructure that promotes strategic development.

The Fund also follows other regulation within the legal framework, including procurement and public contract law, budget and tax law, other relevant regulation throughout the project implementation phases.

1.3. Council for Administration of the Infrastructure Fund

To ensure effective implementation of the projects, the Government established the Council for Administration of the Infrastructure Fund (CAFI) as the body with authority over the decision making process for all matters related to Infrastructure Fund projects, and to provide guidance to implementing agencies. At the implementation stage, CAFI is supported by MPS in managing day to day operations of IF.

During the period 2011-2022, the composition of CAFI was adjusted accordingly to be consistent with the organic structure of the Constitutional Government of Timor-Leste as it is presented on the figure below. The composition of CAFI the was updated in June 2020 to accommodate changes of the new Organic Law of the VIII Constitutional Government. The new structure is the result of the government remodeling, approved by the Decree-Law № 27/2020 of 19 June as a second amendment of the Decree-Law № 14/2018 of 17 August. From June 2020¹ the CAFI composition consists of the President and three Members: Vice-Prime-Minister & Minister of Planning and Territory (President); Minister of Finance; Minister of Public Works; and Minister of Transport and Communications.

Figure 2: Transformation of CAFI composition during 2011 - 2022

¹ Decreto do Presidente da República N.º 53 /2020 de 23 de Junho

1.4. National standards, tools and procedures for IF planning & budgeting

Project planning and preparation is the initial stage of the project implementation and budgeting process that affects significantly to the final results, quality and sustainability of infrastructure. During previous years, the Fund has developed the following standards and procedures: (i) Feasibility Study Guideline; (ii) Project Appraisal Guideline; (iii) Ex-post Evaluation Guideline; (iv) GIS Database, and other planning tools. And to summarize the standards, procedures, and regulation the IF Administration Manual was prepared in 2018. The implementation of standards and procedures shall promote the transparency and accountability of the public expenditures to ensure the value for money and good quality of the infrastructure projects.

The project cycle and the process of implementation under IF cover several stages that critical to the quality of projects. The four key stages of the project implementation under the Infrastructure Fund are as follows: (1) Project planning and preparation; (2) Budgeting and Procurement; (3) Contract administration and construction; (4) Operations and Maintenance stage (O&M). The guidelines and standards for IF, related to the project planning and preparation, budgeting, contract administration, project implementation, payment execution, and evaluation are as follows:

- Project Appraisal Guideline (MPS, August 2017);
- Project Brief standard Form (MPS, 2017-2022);
- Feasibility Study Guideline (MPS, May 2018);
- Model TOR for IF projects (MPS, February 2018);
- IF Administration Manual (MPS, December 2018);
- Ex-post Evaluation Guideline (MPS, 2019).

The IF standards and procedures for project appraisal, feasibility study preparation, ex-post evaluation, and financial procedures are summarized in the Infrastructure Fund's Administration Manual (IF Manual). The Manual focuses on the administrative, technical and financial procedures, including: (1) project planning and concept preparation, (2) projects proposal submission, (3) project appraisal and feasibility study assessment, (4) CAFI approval, (5) budget preparation, discussion and budget approval, (6) procurement procedures and contract award, (7) construction and payment execution based on progress, (8) monitoring of project implementation and reporting, and (9) completion of the project and the final payment stage.

1.4.1. Feasibility study

There are two main tools for the infrastructure project for planning and preparation prior the approval of project implementation. The feasibility study is the first tool that should provide technical and financial information that is the basis for decision-making that should justify strategic impact and higher priority for funding compare to other project proposals. And project appraisal is the second tool that should help to identify priorities for investments based on cost-benefit analysis and other factors.

During 2016 - 2018, the Feasibility Study Guideline for the projects funding through the Infrastructure Fund was developed and approved by CAFI. And from 2019 several project concepts were prepared, and pilot projects were selected for FS implementation following new standards (water supply, public buildings, etc.).

The Feasibility study for strategic projects should help to ensure the quality of infrastructure and the best value for money. The Feasibility Study Guideline is designed for the executing and implementing agencies (Line Ministries), as well as for consultants with the purpose to outline the process of technical, financial, and environmental assessment for projects, financed through IF. More importantly, with the feasibility study results, the government can consider investments from the Infrastructure Fund for the strategic projects that contribute significantly to the social and economic development of the country.

1.4.2. Project appraisal

The main purpose of the project appraisal is to identify major benefits of the projects, evaluate readiness of proposals based on multi-criteria analysis, and to rank the proposals based on the impact and readiness for funding and implementation. Project appraisal should help to select the best projects for investment taking into account the following: contribution to SDP, economic viability, and readiness of the project for funding. There are two key elements for project scoring and evaluation for the project appraisal:

- Importance for development;
- Readiness for funding.

The appraisal methodology is based on 8 multiple criteria for project evaluation, including the following:

- relation of the project or the project's sector to the Strategic Development Plan;
- economic impact as measured by the economic internal rate of return;
- effectiveness of investment;
- social impact as direct number of new jobs and indirect number of benefited population;
- readiness for implementation and preparation of environmental license;
- dependence of the project on additional infrastructure for reasonable cost;
- readiness of the project for construction and availability of required documents such as concept design, feasibility study, detailed engineering design, and other related documents;
- readiness of land for the project in terms of land availability for construction and assessment of requirements of possible resettlement under the project.

The table below shows the summary of project appraisal during 2011-2022 under the Infrastructure Fund, including total number of submitted proposals, and number of projects selected for appraisal. In 2018 there were no project appraisal for IF due to the late budget approval. Therefore, all proposals from 2018 were considered for appraisal in 2019. And in 2020 there were no appraisal due to the global pandemic COVID-19.

Table 1: Summary of proposals for appraisal under the Infrastructure Fund, 2011-2022

	2011	2012	2013	2014	2015	2016	2017	2018 ¹	2019	<u>2020</u> <u>2021</u> ²	2022
Proposals submitted to IF	115	1	225	60	173	123	170	32	158	224	69
For appraisal	68	1	46	30	5	34	43	-	31	9	6
Cumulative number of proposals for IF	115	116	341	401	574	697	867	899	1,057	1,281	1,350

Note: ¹In 2018 there were no project appraisal for the Infrastructure Fund because of the late budget approval, and proposals from 2018 considered for appraisal in 2019. ²In 2020 there were no appraisal due to COVID-19

For the purpose of the State Budget preparation for 2023, CAFI issued the dispatch on 7 February 2022 No 006/CAFI/II/2022 with the request to submit new proposals for evaluation of new projects to be funded through the Infrastructure Fund by 31 of March 2022. The project appraisal, including submission and evaluation of new proposals for IF is an integral part of the budgeting process. In 2022, the Major Projects Secretariat has got the following proposals for evaluation for the 2023 period as presented in the table below.

Table 2: Summary of the project proposals for 2023

CATEGORY	PROJECTS	BUDGET, US\$
Long-list	69	641,363,520
Short-List	24	321,425,963
For Study	18	285,348,000
For Appraisal	6	36,077,963

1.4.3. Ex-post evaluation

The Ex-Post Evaluation under the Infrastructure Fund is required for completed projects in order to utilize lessons learned, and to accumulate the best practice to avoid the same mistakes for effective implementation of projects in the future, and to recommend new measures and improvements.

In 2019 – 2020, the Ex-Post Evaluation Guideline was prepared for the projects implemented during past years under the Infrastructure Fund. The outline of process of the Ex-Post Evaluation is shown below.

The ex-post evaluation approach for IF is based on 5 criteria, including (1) Relevance; (2) Effectiveness; (3) Efficiency; (4) Impact, and (5) Sustainability that internationally accepted and developed by the OECD. The figure below shows the algorithm of the Ex-Post Evaluation, logic frame and scoring approach.

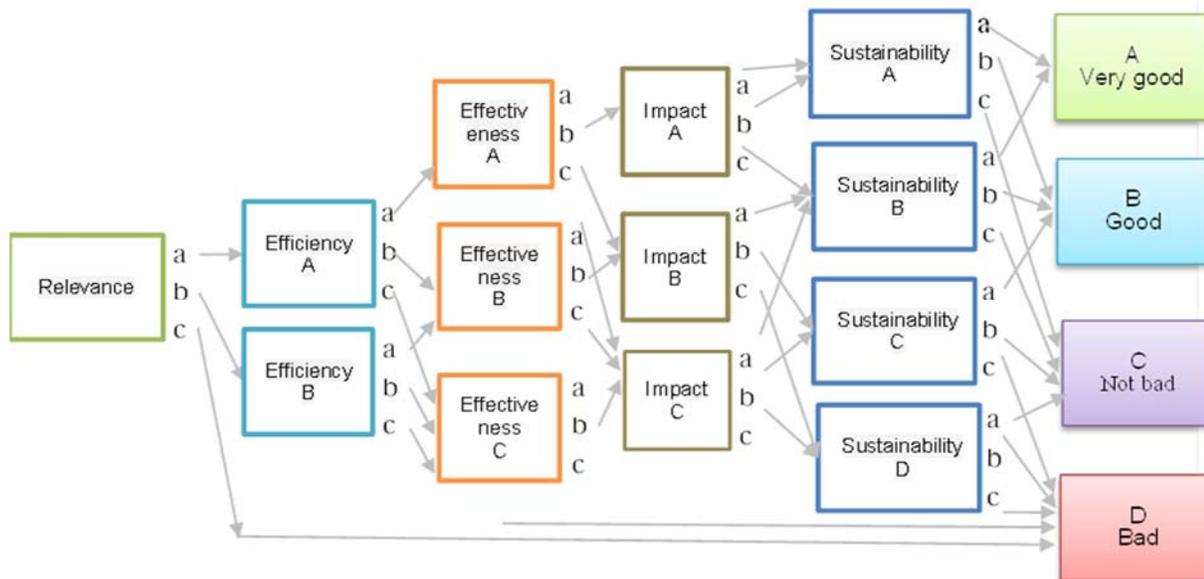

Figure 3: Ex-Post Evaluation logic frame

1.5. Budgeting Process

According to the Law No. 2/2022 on the Framework of the General State Budget and public financial management, budgeting is also be carried out in a multi-annual perspective through the approval of the multi-annual budget programming, which presents the forecasts of revenue and expenditure for the following budget year, and for the four subsequent years. The budget execution regime of the General State Budget by law covers appropriations related to expenditures of extraordinary nature that implemented as needed, including appropriations related to expenses of the Infrastructure Fund.

The budgeting process and timeline of the preparation of the IF funded project would follow naturally with the timeline that set by the Ministry of Finance. Each capital investment project that is implementing by the relevant line ministry need to be planned and budgeted for the approval prior to implementation. The only financial instrument that is available to implement the project - the general state budget or OGE that every year government submits to the National Parliament for approval prior to the promulgation by the President of Republic. The following figure shows the general steps of the budgeting process for projects that shall be proposed and approved for funding under the general state budget.

The recent Law № 2/2022 of 10 February on the Public Financial and Budget established the process of approval of the State Budget (OGE) that follows the timeline of the Ministry of Finance. With this public financial and budget law, the process of approval of the State Budget (OGE) is as follows.

1. Identification of the Government priorities for the following year (January – May);
2. National Parliament discussion and approval of the Government Priorities for budgeting (June);
3. Budget Journey (30 of June);
4. Council of Ministers approval of the aggregate budget amount or fiscal envelope (15 of July);
5. Budget submission by the Line Ministries and discussion of budget allocation by program (July);
6. Approval of Council of Ministers on the allocation by program (August);
7. Approval of the budget law by the Council of Ministers (15 of September);
8. Submission of budget to the National Parliament (1 of October);
9. Discussion and approval by the National Parliament (November);
10. Promulgation by the President of Republic (December).

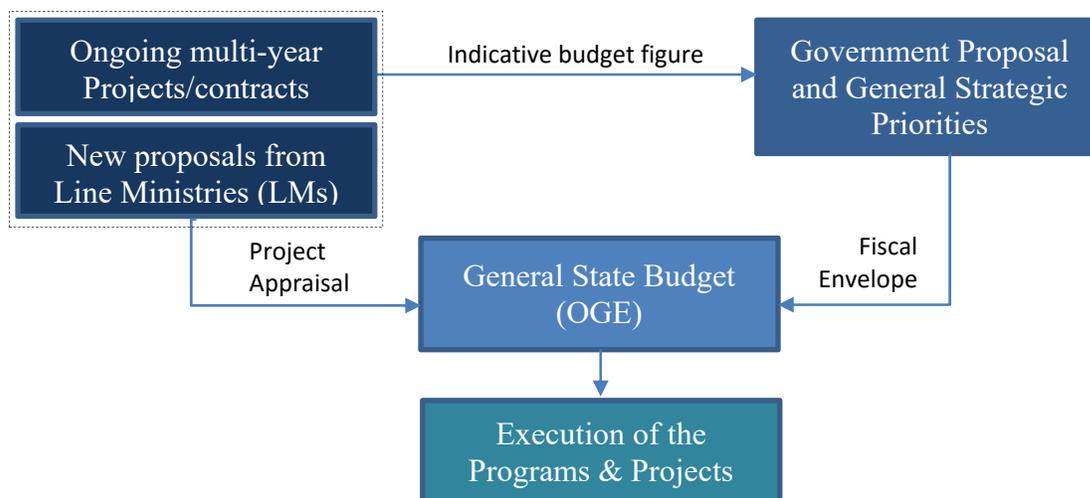

Figure 4: Steps of the Budgeting Process: Project Proposal and Approval of OGE

The IF budget is also an integral part of the general state budget that follows the procedure established by the Ministry of Finance. During January – June, the project appraisal and evaluation is conducted for new proposals from the Line Ministries. The result of the project appraisal and recommendations for budgeting are presented in the project appraisal report. Based on the appraisal report that approved by CAFI, the budget review committee would consider the budget allocation for new proposals for the following fiscal year. The funding of IF projects for the following fiscal period of 2023 is based on the following priorities:

- *Ongoing projects* (projects with contract, including projected amount to be paid for next year);
- *Projects that under procurement and preparation;*
- *New projects* that recently appraised for the following fiscal year.

However, the actual budget allocation is decided based on the budget ceiling (fiscal envelop) from the Ministry of Finance considering the IF execution rate. Since the fiscal envelop approved by the Ministry of Finance with the limitations to cover current IF Portfolio, including projects from the previous years, CAFI decided to focus on the budget allocation for on-going projects, and projects that under preparation stage from 2022/2021 and prior in the fiscal year 2023. Consequently, all new initiatives and investment projects appraised for investments in 2022, and 2023 periods are considered for the following fiscal year of 2024.

1.6. IF budget allocation and expenditures

The capital investments from the Fund have contributed to the improvement of the infrastructure conditions and provision of better public services, and job creation through the implementation of the IF projects. During 2011 - 2022, a total amount of US\$ 5.4 billion has been approved for the Infrastructure Fund to finance IF

programs, including financing sources from the government and External Loans. The IF budget execution for the same period is US\$ 3.3 billion or 60%. The IF budget and execution in 2011-2022 are presented below.

Table 3: IF Budget Allocation and Execution, 2011-2022

Year	Budget (USD, mln)	Disbursement (USD, mln)	Execution %
2011	598.53	474.43	79%
2012	875.13	376.09	43%
2013	604.38	210.96	35%
2014	368.55	310.70	84%
2015	317.30	239.81	76%
2016	784.47	549.64	70%
2017	325.62	231.95	71%
2018	386.01	331.23	86%
2019	367.54	276.90	75%
2020	184.93	138.74	75%
2021	280.89	73.407	26%
2Q2022	332.45	34.076	10%
TOTAL	5,425.8	3,247.93	60%

2. IF PORTFOLIO

In 2022, the government started implementation of program budgeting, where IF program portfolio was changed to be in line with the programs from the relevant Line Ministries as the project owner that implementing the projects. In line with this program budgeting initiative, the IF Program Portfolio has been transformed into a new structure that consisted of 26 programs, 70 sub-programs, and activities level.

Table 4: IF Programs up to 2021 and new IF Program and Sub-Program Portfolio from 2022

Program before 2021	Program from 2022	Sub-Program name	Lines
1. Agriculture	1. Agriculture	79701: Irrigation	2

The description of each program and projects that financed through the Infrastructure Fund, including the budget allocation for the fiscal year 2023 to cover on-going projects, and projects under preparation (procurement and study), are presented in the following sub-sections.

2.1. Public Financial Management Program

Strong public financial management is very important, as it is a central element of well-functioning of public administration, including recording all the government activities in relation to budget execution in promoting the transparency and accountability of public expenditure. The Infrastructure Fund provides support to both soft infrastructure of public financing management such as system development and enhancement, and hard

capital infrastructure for office buildings, large hardware installation, such as centralized data center, and other facilities under the direct supervision of the Ministry of Finance. From 2022, the name of the IF Program has been changed to the Public Financial Management.

Currently, there are 6 projects under the Public Financial Management Program, including:

- 1 ongoing project;
- 5 projects under preparation.

The budget for the Public Financial Management Program for 2023 is US\$ 3,100,000.

2.2. Culture and Heritage Program

The Infrastructure Fund provides financial support to the facility development to preserve important cultural heritage from the past that becomes important example for young and future generations. According to SDP, Timor-Leste has an incredibly rich and diverse cultural heritage. To support the new national cultural institutions, and the development of the creative economy, it's essential to encourage our cultural diversity and build respect for our cultural heritage and shared history². The cultural heritage, archives and exhibitions are the important tourism attractions that will bring revenue for the government in the future.

Currently, there are 2 projects under the Culture and Heritage Program, including:

- 2 contracts from 2021/2022.

The budget for the Culture and Heritage Program for 2023 is US\$ 850,000.

2.3. Roads and Bridges Program

Well-constructed and maintained road system should be resilient to the climate and weather conditions and it's essential for economic growth, social cohesion, and national security. According to the Strategic Development Plan 2011 – 2030, the development of roads in Timor-Leste has one of the highest priorities. The aim of the Program under the Infrastructure Fund is to support movement of goods and services as well as to improve connectivity for transportation between municipalities to various centers. Roads have a strong economic and social impact because provide access to isolated areas, reduce time and cost of transportation. In 2022, the Roads Program merged with the Bridges Program into one "Roads and Bridges".

Good and well-maintained bridges are crucial for ensuring reliable access to markets, education, and health services and for security and social stability. These are fundamental requirements for economic and social development that are recognized by the Government and stated in SDP. Therefore, construction of new roads and bridges, rehabilitation of deteriorated bridges and widening of narrow bridges was justified by high traffic and ranked it as a high priority.

Currently, there are 422 projects under the Roads and Bridges Program, including:

- 158 ongoing projects;
- 65 contracts from 2021/2022;
- 199 projects under preparation.

The budget for the Roads and Bridges Program for 2023 is US\$ 104,054,542.

2.4. Rural and Urban Development Program

The objective of this Program is to ensure that planning for economic activity based on maximizing regional and local resources and should reduce the gap in progress between urban and rural areas. Support of the rural Infrastructure development is a priority for the government because of the large portion of the population, living in the rural areas in Timor-Leste. From 2022, the Rural and Urban Development Program under the Infrastructure Fund Portfolio remains the same.

² Strategic Development Plan 2011-2030. Pages 63-66

Currently, there are 15 projects under the Urban and Rural Development Program, including:

- 3 ongoing projects;
- 7 contracts from 2021/2022;
- 5 projects under preparation.

The budget for the Rural and Urban Development Program for 2023 is US\$ 9,063,931.

2.5. Court services support for population Program

In order to provide better and effective services to the population, the court sector also requires development of physical infrastructure. The IF investments for projects cover mainly construction of the courts and supporting facility. From 2022, the Court services support for population Program is under the new IF Portfolio.

Currently, there are 4 projects under the Court services support for population Program, including:

- 2 ongoing projects;
- 2 projects under preparation.

The budget for the Court services support for population Program for 2023 is US\$ 3,805,127.

2.6. Telecommunications Program

The information system and communications are very important as industry and commerce rely on rapid and stable with adequate capacity and coverage to meet users' demand. Improving information technology to support service delivery is one of the priorities of SDP³. Therefore, since 2011 the government through the Infrastructure Fund has already invested into the National Connectivity Program (NCP). Currently, the government is in the process of modernization of the system information and data transmission with fiber optic via submarine cable that should increase the speed of data transfer, and overall internet services.

There are 5 projects for the fiscal year of 2023 under the Telecommunications Program, including:

- 2 ongoing projects;
- 3 contracts from 2021/2022.

The budget for the Telecommunications Program for 2023 is US\$ 16,119,537.

2.7. National Security Program

The Infrastructure Fund supports the National security program that mainly related to construction of the facilities that contribute to the efficiency of the national security institutions to carry out tasks in order to accomplish the mission. Especially, VIII Constitutional Government focuses on priority of the border control between Indonesia and Timor-Leste. From 2022, the Security and Defence Program for the new IF Portfolio divided into two separate: National Security Program, and National Defence Program. The Programs covers Border surveillance points, Police Headquarter (National and Municipal); Police stations; Bairros PNTL.

Currently, there are 37 projects under the National Security Program, including:

- 4 ongoing projects;
- 6 contracts from 2021/2022;
- 27 projects under preparation.

The budget for the Security Program for 2023 is US\$ 4,706,542.

2.8. National Defence Program

Defence has a high priority for Timor-Leste. Development of a professional, respected defence force that is under democratic control and that has the capability to defend our nation, while also contributing to efforts for regional and global peace and stability. Professional defence force throughout the whole country is

³ Strategic Development Plan 2011 – 2030 (SDP), page 184

necessary to protect sovereignty and support national order. From 2022, the Security and Defence Program for the new IF Portfolio divided into two separate programs, including the National Defence Program.

Currently, there are 21 projects under the National Defence Program, including:

- 2 ongoing projects;
- 3 contracts from 2021/2022;
- 16 projects under preparation.

The budget for the Defence Program for 2023 is US\$ 618,700.

2.9. Access to Justice Program

The Access to Justice Program is under the new IF Portfolio program from 2022. According to SDP 2011-2030, justice sector plays a crucial role in the consolidation of peace and stability, guaranteeing the rule of law and promoting accountability and transparency in our institutions.

Currently, there is 1 project under the Access to Justice Program, including:

- 1 project under preparation.

The budget for the Access to Justice Program for 2023 is US\$ 20,000.

2.10. Management of Oil and Minerals Resources Program

Management of oil and mineral resources is a new program that substitute the previous program “Tasi Mane” to construct the infrastructure facilities and support Southern coast Oil and Gas development. Now, the coverage of the program is extended beyond southern coast development, including the initiative in northern coast of Timor-Leste. The program focuses on investments in the petroleum and mineral sectors that potentially contribute revenue to Timor-Leste. This revenue will help to finance health care, education, security & and to build and maintain the infrastructure. The new program portfolio combined with the previous Tasi Mane Program, and covers projects that at present under the preparation stage.

Currently, there are 3 projects under the Oil and Minerals Resources Program, including:

- 3 projects under preparation.

The budget for the Management of Oil & Minerals Resources Program for 2023 is US\$ 1,100,000.

2.11. Guarantee of freedom of expression and access to information Program

The Guarantee of freedom of expression and access to information Program is among the new Programs under the IF Portfolio in 2022. The Government developing a framework and supporting independent and diverse media as the essential sources of information to deliver the information to all citizens. IF provides financial support to construct supporting facility under this program, including building, studio, transmission tower, etc.

There are 4 projects under the Guarantee of freedom of expression & access to information Program, including:

- 4 projects under preparation.

The budget for the Program for 2023 is US\$ 50,000.

2.12. Transport Program

Since the establishment of the Infrastructure Fund in 2011, the Transport Program was in the IF Portfolio during the period 2011 – 2012, and then it was divided into Roads, Bridges, Ports, and Airports. From 2022, the Transport Program recreated for integrated transport framework system, services and facilities to facilitate inclusive economic and social development. Access to sustainable and safe transport system for commerce, employment, and social services is very important for Timor-Leste. The program aim is to help build and maintain transport infrastructure across the whole country⁴.

⁴ Transport Sector Master Plan, 2018

There are 5 projects under the Transport Program, including:

- 5 projects under preparation.

2.13. Good governance and institutional management Program

Good governance and institutional development are important aspects of the nation building, and IF must also support the development of the infrastructure that contribute to the good governance and public institutions to provide services for population. Since the establishment of the Fund in 2011, the government supports construction of public buildings that contributes to productivity of the public institutions. The budget allocation for 2023 covers the public building projects, and operational cost of the Major Projects Secretariat that provides technical and administration support to the Council for Administration of the Infrastructure Fund (CAFI).

There are 40 projects under the Good governance & institutional management Program, including:

- 4 ongoing projects;
- 2 contract from 2021/2022;
- 34 projects under preparation.

The budget for the Good governance & institutional management Program for 2023 is US\$ 3,240,311.

2.14. Agriculture Program

The Agriculture Program has a high priority for Timor-Leste, as the infrastructure development is the central element with the goal to support food production, improve distribution and food security directly through enhancing accessibility and indirectly by increasing the number of jobs and income. More than 63%⁵ of the households in the country depend on the agriculture sector. The Irrigation schemes are considered by the Ministry of Agriculture and Fisheries as a major component for resuscitation in order to achieve targets of self-sufficiency in staple food crops, rice, and maize. From 2022, the Agriculture Programs remains the same. Currently, there are 20 projects under the Agriculture Program that mainly for the irrigation sector, including:

- 3 ongoing projects;
- 17 projects under preparation.

The budget for the Agriculture Program for 2023 is US\$ 8,334,928.

2.15. Water and Sanitation Program

Access to clean water and sanitation is very critical to Timor-Leste, as it should help to improve public health, create new jobs and encourage rural development, make it easier to maintain and sustain our valuable water resources, and allocate limited water resources. From 2022, the Water and Sanitation Program under the new IF Portfolio remains the same.

Currently, there are 24 projects under the Water and Sanitation Program, including:

- 18 ongoing projects;
- 6 projects under preparation.

The budget for the Water and Sanitation Program for 2023 is US\$ 2,461,808.

2.16. Electricity Program

The objective of the Electricity Program is to provide reliable electricity generation, transmission, and distribution throughout Timor-Leste. The program aim is to build two power plants at Hera, and Betano; and to install 150KV nationwide power line grid plus 20KV distribution lines, 9 substations, medium and low voltage

⁵ Strategic Development Plan 2011 – 2030 (SDP), pages 121 – 122 & 124

of house connection. The importance of reliable electricity supply is essential for the nation and economic development. From 2022, the Electricity Program under the new IF Portfolio remains the same.

Currently, there are 102 projects under the Electricity Program, including:

- 81 ongoing projects;
- 12 contracts from 2021/2022;
- 9 projects under preparation.

The budget for the Electricity Program for 2023 is US\$ 6,629,705.

2.17. Health Program

The infrastructure facilities for the Health Program such as hospitals, clinics, medical warehouse, and medical equipment for the relevant projects are very important to provide effective health services to all citizens. According to the Strategic Development Plan of Timor-Leste, the goal by 2030 is to have healthier population because of comprehensive, high-quality health services accessible to all Timorese people⁶. From 2022, the Health Program under the new arrangement of the IF Portfolio remains the same.

Currently, there are 17 projects under the Health Program, including:

- 5 ongoing projects;
- 4 contracts from 2021/2022;
- 8 projects under preparation.

The budget for the Health Program for 2023 is US\$ 3,972,188.

2.18. Airports Program

The airports and international air travel for Timor-Leste are essential for development of business and tourism. However, the country has a lack of airports suitable for international standards accepted by the International Civil Aviation Organization (ICAO). Domestic aviation services are limited to chartered fixed-wing aircraft and helicopter services and the airfields served are inadequate to handle larger aircraft and more intensive services. The Government has a vision to improve and develop existing airports in Dili, Suai, Baucau, Maliana, and Viqueque as it is stated in SDP. In 2022, the Airports Program under the IF Portfolio remains the same.

Currently, there are 14 projects under the Airports Program, including:

- 3 ongoing projects;
- 1 contract from 2021/2022;
- 10 projects under preparation.

The budget for the Airport Program for 2023 is US\$ 17,493,998.

2.19. Ports Program

Development of ports is a strategic priority to support economic growth and local industry, export-import activities that require fast and reliable freight services. Currently, only Dili port is serving all shipments in Timor-Leste. And the port's capacity is not sufficient for the future. Moreover, the regional ports are also in poor condition⁷. The SDP target is to relocate the main port of Dili to Tibar Bay and rehabilitate regional ports. From 2022, the Ports Program under the new IF Portfolio remains the same.

Currently, there are 12 projects under the Ports Program, including:

- 1 ongoing project;
- 11 projects under preparation.

The budget for the Ports Program for 2023 is US\$ 718,698.

⁶ Strategic Development Plan 2011 – 2030 (SDP), pages 35 - 36

⁷The exception is the port in Oecusse which has been upgraded to handle freight and passenger traffic with JICA

2.20. Maintenance, rehabilitation and response to damaged structures by disaster Program

The Maintenance and Rehabilitation Program was proposed by the Government under IF during the budget review committee in 2016 in order to keep infrastructure facilities, such as road and water supply, in a proper condition. With the implementation of government initiative of program budgeting from 2022, the IF projects for the regular maintenance, rural road rehabilitation, were merged under the Roads and bridges Program. From 2022, the Maintenance and Rehabilitation Program transformed into the “*Maintenance, rehabilitation and response to damaged structures by disaster*” Program with new sub-programs under the new IF Portfolio and the projects under the consideration of this program cover only the projects related to the rehabilitation and recuperation from the natural disaster. The new project Portfolio covers roads and bridges, power sector, water, and community housing to respond the future calamity.

Currently, there are 24 projects under the Maintenance and Rehabilitation Program, including:

- 9 contract from 2021/2022;
- 15 projects under preparation.

The budget for the Program for 2023 is US\$ 7,345,279.

2.21. Education and Training Program

The education policy is based on the National Education Strategic Plan⁸ which recognizes current situation and challenges that affect the MoE’s ability to meet the country’s obligations towards education development, and other national priority targets. It provides sector-wide support that will guide implementation at all levels in the country, involving development partners and key stakeholders. From 2022, the program changed to the Education and Training Program.

Currently, there are 17 projects under the Education and Training Program, including:

- 1 ongoing project;
- 6 contracts from 2021/2022;
- 10 projects under preparation.

The budget for the Education and Training Program for 2023 is US\$ 4,269,819.

2.22. Gender Equality and Social Inclusion Program

The Gender equality and social inclusion is a new IF Program that accumulates various projects that contribute to social cohesion and promote equality. It consists of the previous project portfolio (1) Youth and sports program; and (2) Social solidarity program that from 2022 have been merged into this new program.

According to SDP, “Social capital”, the Youth and Sports sector has significant importance for Timor-Leste’s development⁹. According to the Strategic Development Plan, the Youth and Sports sector will help to re-shape Timor-Leste and contribute to the transformation of our society and economy. Therefore, IF also provides support to construct infrastructure facility or structures that contribute to the successful implementation of this program.

Currently, there are 25 projects under the Gender Equality and Social Inclusion Program, including:

- 8 ongoing projects;
- 17 projects under preparation.

The budget for the Gender Equality and Social Inclusion Program for 2023 is US\$ 1,652,211.

⁸ Ministry of Education, Timor-Leste, *National Education Strategic Plan 2011 – 2030*

⁹ Strategic Development Plan 2011 – 2030 (SDP), pages 16 & 52-54

2.23. Protection and conversation of environment Program

There are some new Programs under the IF Portfolio in 2022, including Protection and conversation of environment Program. According to SDP, people of Timor-Leste have a strong relationship with the natural environment. For sustainably it's important to ensure environmental regulation enforced for comprehensive protection and conservation legislation necessary to meet constitutional and international obligations¹⁰. In line with SDP, in 2022 the government through the Infrastructure Fund considers the environmental conservation projects to protect the flora and fauna and taking the potential economic benefit in the long-run perspective.

Currently, there are 2 projects under the Protection and conversation of environment Program, including:

- 2 projects under preparation.

The budget for the Protection & conversation of environment Program for 2023 is US\$ 25,000.

2.24. Tourism Program

The tourism sector in Timor-Leste is at the early stage of development with limited, but growing, numbers of international tourists, and emerging tourism infrastructure¹¹. The infrastructure planning, including the prioritization of projects, will consider the needs of the tourism industry to ensure that the industry is not held back by poor access or a lack of critical infrastructure¹². Ten projects have already been completed from 2011, including Design and supervision for new construction of Marina Square in Bidau, and 6 CPLP projects (e.g. Rehabilitation of the Convention Center in Dili, CCD). From 2022, the Tourism Program under the new IF Portfolio arrangement remains the same.

Currently, there are 6 projects under the Tourism Program, including:

- 1 ongoing project;
- 2 contracts from 2021/2022;
- 3 projects under preparation.

The budget for the Tourism Program for 2023 is US\$ 422,400.

2.25. Investment and economic diversification Program

The Investment and economic diversification Program is under the new IF Portfolio from 2022. Promotion of investment and economic development is one of the priorities of the government in Timor-Leste. Public and private investment in core and productive infrastructure, forming the foundation of a strong and growing market economy, attracting domestic and international investors and supporting successful local businesses. Growth in the economy has been a result of increased public sector expenditure and private sector investment.

Currently, there are 14 projects under the Investment and economic diversification Program, including:

- 4 contracts from 2021/2022;
- 10 projects under preparation.

The budget for the Investment and economic diversification Program for 2023 is US\$ 1,089,000.

2.26. Territorial Planning Program

The Territorial Planning Program is under the new IF Portfolio from 2022. According to SDP, the National Planning Framework is necessary to guide the acceleration of sustainable economic growth and equitable development from national level to suco level.

Currently, there are 7 projects under the Territorial Planning Program, including:

- 4 contracts from 2021/2022;

¹⁰ Strategic Development Plan 2011-2030. Pages 55-56

¹¹ Strategic Development Plan 2011 – 2030 (SDP), page 144

¹² Strategic Development Plan 2011 – 2030 (SDP), page 145

- 3 projects under preparation.

The budget for the Territorial Planning Program for 2023 is US\$ 600,000.

3. IF BUDGET SUMMARY

The budget for the Infrastructure Fund for 2023 is \$201,743,720. The following table presents the summary of the IF budget for 2023, and projection for the period 2024-2027.

Table 6: Summary of the Infrastructure Fund's Budget for 2023, and projection for 2024-2027
