The Moving Mountains Spa Concept

Restoring time's true value.

Nestled among pristine natural landscapes - from the alpine forests of the Swiss Alps to the serene shoreline of Lake Maggiore - our holistic Moving Mountains concept is aimed at helping you restore your vitality, immerse yourself in nature and celebrate the joy of life.

The Moving Mountains spa concept is built upon the same holistic wellbeing philosophy, promoting long-lasting physical and mental benefits through the harmony of body, mind and soul.

Inspired by the swiss mountains

Switzerland, land of snow-capped mountains and crystal-clear lakes, offers the perfect backdrop for our award-winning Moving Mountains Spas. Our treatments combine traditional healing methods and rituals with the healing effects of the natural environment.

Based on science

Our Spas combine sound medical knowledge and modern science to ensure long-term benefits.

Sustainable

We believe in protecting the world we live in by using spa products with purely organic or certified natural ingredients, vegan, with limited carbon footprint and without animal testing.

Our individually tailored Moving Mountains spa treatments seek to promote radiance and visible signs of vitality as well as to restore a holistic sense of wellbeing.

Skin Rejuvenation

Two partners - one vision

In line with our Moving Mountains philosophy, we only use purely 100% organic or certified natural products. Our search for the perfect partner brought us to Methode Physiadermie, a brand by Geneva-based Laboratoire Sintyl that offers the perfect synergy between natural ingredients and cutting-edge Swiss technology. Laboratoire Sintyl has been a pioneer of personalised skincare since 1974 and is dedicated to the research and development of cosmeceuticals for skincare professionals. Its formulas are developed, manufactured and tested at its Geneva laboratory according to the stringent standards of the Swiss cosmetics industry, guaranteeing flawless quality in every bottle. The Methode Physiadermie brand has held ECOCERT certification since 2019 in recognition of its commitment to ecological sustainability.
