ACI Learning (hereinafter referred to as “The School”) offers job training programs that quickly close skill gaps and help individuals improve technical and management performance, producing rewarding careers and delivering an effective workforce for businesses across size and industry.

The School provides world-class technology and equipment for student training. The School is staffed with Instructors who must meet minimum certification standard in their field of specialty.

The School is an Authorized Training Partner for Microsoft, EC-Council and CompTIA.

The owner of the School is BoatHouse Capitol, with primary Board Members being Chong Moua and Tim Broom. The main campus is headquartered in Centennial, CO and as of this writing, offers classes at an additional four campuses. The five campus locations are as follows:

Centennial Learning Hub

6855 S. Havana Street, Suite 230

Centennial, CO 80112

(303) 832-4665

Colorado Springs Learning Hub

7450 Campus Drive, Suite 250

Colorado Springs, CO 80920

(719) 596-4545

Jacksonville Learning Hub

8663 Baypine Road Bldg 4, Suite 104

Jacksonville, FL 32256

(904) 399-3555

San Antonio Learning Hub

8200 IH-10 West, Suite 801

San Antonio, TX 78230

(210) 277-4799

Dallas Learning Hub

102 Decker Ct #250

Irving, TX 75062

(972) 215-7736

A BRIEF HISTORY OF THE INSTITUTION:

- January 2001: School is approved by the Colorado Board of Higher Education Department of Private Educational Schools under the name of Hensmann Training and Education Centers.
- February 2001: School opens its doors in Colorado Springs, CO and runs its first class.
- March 2001: School opens its second campus in Centennial, Colorado.
- July 2006: School is sold to new ownership. The acquiring company is ACI Learning with one majority shareholder in George Cohlma. School continues to operate as Hensmann Training and Education Centers through 2006 and into early 2007.
- April 2007: School officially changes its name from Hensmann Training and Education Centers to LeaderQuest.
- October 2014: Irving Dallas school is opened and approved by the Texas Workforce Commission.
- October 2015: Purchased Consultech Inc. in Jacksonville, FL and is approved by Commission for Independent Education.
- July 2018: ACI Learning opens their San Antonio Campus and is approved by the TWC.
- May 2019, ACI Learning is purchased by MISTI. All programs and employees remain the same.
- June 2020, LeaderQuest changes its name to ACI Learning.

ACI LEARNING MISSION STATEMENT

We give the world confidence, helping professionals and the organizations they serve to protect data and privacy, leverage information technology, anticipate risks, and defend business-critical systems and assets. We challenge our people and customers to see what's next. Through our efforts, we create meaningful personal, professional, and business outcomes that impact lives.

ADMINISTRATION STAFF

Key Administrative Staff:

- Brett Shively - CEO & Owner
- Timothy Kalil – President and GM
- John Cascio – Chief Financial Officer
- Don Pezet- Chief Product Officer
- Jennifer Mathis- VP of Career Training
- Tiffany Murphy– Campus Director – Jacksonville
- Maria Smith – Learning Hub Compliance Manager/School Certified Official
- Meghan Jurado- Director of Compliance/Lead SCO

Jacksonville Staff:

- Kristie Harris- Customer Service Associate (Days)
- Peter Kim- Customer Service Associate (Nights)
- John Beverly – Career Training Manager
- Michelle Biernat- Career Training Manager
- Jemaire Mungin- Career Training Consultant
- Candi Kilgore- Employment Development Manager
- Tammy Ethridge-Employment Development Manager
- Shaun Johnson- Employer Engagement Manager
- Jeff Reid – Community Engagement Manager

FACULTY

John Brown – Adjunct Instructor

John has a strong background managing technical staff as well as personal skills in technical support. John has 30+ years of info tech experience, in every aspect of IT, including operator, programming, database management, desktop support, server support, network design and support. John possesses a Bachelor of Science, Computer & Information Sciences, (College of Engineering, University of Florida), Professional Engineer, and Industrial ITIL Certification.

John currently instructs the following programs:

- Computer User Support Specialist
- ITIL V3 Foundations Prep
- CompTIA A+ Prep
- CompTIA Network + Prep
- CompTIA Security + Prep
- Technical Support Specialist

Stephen Bennett- Technical Instructor

ITIL & CompTIA CSIS Secure Infrastructure Specialist, CompTIA A+, Network+, Security+ certified, IT Consultant and U.S Navy Veteran with 20+ years of experience in hardware troubleshooting and equipment repair. Professional with a strong electronic engineering and Information Technology security background, adept in migrationing, configuring, managing, and firewall hardening LAN and WAN environments. Skilled in access controls and user permission management through Active Directory, along with network security practices and standards. Seeking to utilize skills in an IT Security\System Engineer\Analyst role.

Stephen currently instructs the following programs

- Computer User Support Specialist
- ITIL V4 Foundations Prep
- CompTIA A+ Prep
- CompTIA Network + Prep
- CompTIA Security + Prep
- Technical Support Specialist

Eugene Hamric – Technical Instructor

Eugene worked in the IT field for over 16 years. Eugene possesses a wide array of technology certifications. Eugene has a Bachelor of Science in Information Technology from Phoenix University and AS Network Engineering from Virginia College.

Eugene currently instructs the following programs

- Computer User Support Specialist
- CompTIA A+ Prep
- CompTIA Network + Prep
- CompTIA Security + Prep

- Technical Support Specialist

Marcia Ingino – Adjunct Instructor

Marcia has been teaching project management and business analysis for over 16 years where she's maintained an aggregate evaluation score of 9.2 of 10.0. Marcia possesses a BS in Computer Engineering from University of Illinois and an MS in Engineering Management from University of Colorado.

Marcia currently instructs the following programs:

- STPM – Senior Technology Project manager
- CAPM & PMP IT Project Manager Prep

David Cawthon - Technical Instructor

David has 4 years in the IT experience; He has experience working hands-on with real world experience in several areas of IT.

David currently instructs the following programs:

- Computer User Support Specialist
- ITIL V4 Foundations Prep
- CompTIA A+ Prep
- CompTIA Network + Prep
- CompTIA Security + Prep
- Technical Support Specialist
- Network Support Specialist
- Cisco Certified Network Associate (**CCNA**)

Randy Smith - Adjunct Instructor

Randy possesses a wide array of technology certifications. Ryan has a BS in Business Administration, minor in Information Systems

Randy currently instructs the following programs:

- Computer User Support Specialist
- ITIL V4 Foundations Prep
- CompTIA A+ Prep
- CompTIA Network+ Prep
- CompTIA Security + Prep
- Technical Support Specialist
- Information Security Analyst
- Network Support Specialist
- Cisco Certified Network Associate

Brandon Wells - Adjunct Instructor

Brandon has over 10 years in IT Field and has a wide technical Background. He has experience working hands-on with real world experience in several areas of IT. Brandon studied Network Systems Technology at Florida State College.

Brandon currently instructs the following programs:

- Information Security Analyst
- Certified Cisco Network Administrator
- Certified Ethical Hacker (CEH)
- Certified Network Defender

INSTRUCTOR EVALUATION

Our students' evaluation of our training program and instructor performance is very important us. We use student feedback to continually improve our methods and products. The instructor will provide each student with a link to a course evaluation through ACI Learning's Learning Portal.

Any of our Virtual classes may be recorded so we can assess the level of instruction provided to students. By logging into virtual courses, students are consenting to be recorded in the Virtual Classroom. These recordings are not shared with any outside entity and the sharing of any course material or classroom video by a student is considered a violation of our privacy policy.

*Program Completion Length does not include self-study test prep time based on industry standard of 1 day of self-study certification prep for each day of course lecture. Course Numbering system are identified by prefixes and numbers that were assigned by CompTIA, EC-Council, Cisco, and Project Management.

TUITION

Program of Study	CIP Code	Total Clock Hours	Tuition (All Inclusive)	Registration Fee
1. Computer User Support Specialist (CUSS)	11.0101	200	\$13,875	\$0
2. Network Support Specialist (NSS)	11.1002	160	\$12,380	\$0
3. Certified Cisco Network Administrator (CCNA)	11.0101	80	\$6,590	\$0

4. Senior Technology Project Manager (STPM)	11.1005	80	\$5,590	\$0
5. Information Security Analyst (ISA)	11.1003	120	\$10,485	\$0
6. Certified Information Systems Security Professional (CISSP) Prep	11.1003	40	\$3,495	\$0
7. ITIL Foundations Prep	11.0101	40	\$2,295	\$0
8. Project Management Professional (PMP) Prep	11.1005	40	\$3,295	\$0
9. CompTIA Network + Prep	11.0101	40	\$2,895	\$0
10. CompTIA Security + Prep	11.1003	40	\$2,895	\$0

PAYMENT OF TUITION:

Students must pay tuition in full prior to the first day of class unless:

- The student has met with the accounting office and received a tentative offer of Financial Assistance, or
- The student has established an approved monthly payment plan, and by the first day of the class has made the first payment.

A monthly payment plan is one in which payment in full of the balance is made in three or less equal monthly installments by the end of the program.

A student requesting a payment plan other than three installments due to extenuating circumstances affecting availability of funds (such as awaiting confirmed employer reimbursement) may request an alternate payment plan to be approved by the accounting office.

Students on payment plans that become 5 days delinquent will be withdrawn.

No interest or fees are charged for payment plans.

Methods of student payment accepted include check or credit card.

ACI Learning offers an IT Impact Scholarship that is open to all students that wish to apply. Applications are processed through the website application link, and students must apply to be considered. Applications are reviewed weekly in a Scholarship committee made up of a Leadership group and evaluated on the based information presented in the application. Scholarships are awarded per program start based on seating availability.

The IT Impact Scholarship covers the entire cost of a program and recipients are announced weekly after committee review.

CLASS SCHEDULE

All courses are determined by Vendor standards. Not all programs have been submitted for GI Bill ® benefits.

All students attend 20 hours a week or more and are considered full time.

Monday through Friday 8:00am – 5:00 pm with one-hour lunch break, mornings 8:00am to 12:00 pm or afternoons from 1:00pm to 5:00pm. Evening classes are from 6:00 pm to 10:00 pm.

Some Saturdays allowed for make-up 8:00am – 4:30pm with one-half hour lunch break.

When an unexpected closure occurs due to extraordinary conditions such as inclement weather, students will be notified as soon as possible by phone and/or radio, and/or TV who provide closure information as a public service.

* GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

ADMISSION REQUIREMENTS

The school does not discriminate based on race, sex, religion, ethnic origin, or disability.

Prospective students must:

- Interview with a Career Training Consultant
- Be at least 18 years of age
- Have a high school diploma or equivalency diploma. In the event the applicant is unable to provide proof of secondary education, achieve a passing score of 17 on the Wonderlic Scholastic Level Exam.
- Complete an online assessment evaluation to demonstrate:
 - Basic computer literacy
 - Basic PC Operating System navigation skills
 - Basic Internet usage skills

For students enrolling in an online program, students are required to have access to a laptop computer and the Internet for all coursework. The computer must meet the following minimum specifications:

- Windows 10 or higher, or a Mac with a currently supported operating system
- Broadband Internet capability
- Soundcard & speakers
- Current Internet web browser: Google Chrome, Mozilla Firefox, Microsoft Edge

ENROLLMENT

Prospective students may enroll anytime. Late enrollments can be admitted up to one week prior to class start time and as late as one day into first class, depending on the program.

ACI Learning is authorized and approved to accept all VA benefit programs.

Applicants enrolling in programs offered 100% online must provide one form of government issued ID and have access to the technology requirements for participation in the program. Students must successfully complete an online assessment evaluation to gauge ability to succeed in an online program.

Secure, Individual Login and Passcode: Students are assigned a secure, individual username and password upon enrollment. These assigned identifiers are used to access the learning management system (LMS) where students complete and submit coursework.

Administrative or Academic Practices: Students are subject to identity verification, at the school's discretion, using personally identifiable information provided by the student upon application. Students must provide two pieces of identifying information that can be verified by ACI faculty or staff using information contained within the Student Information System prior to having personally identifiable information released to them by phone. In addition, faculty may commence verification of student identity following review of student work.

Changes in academic performance is monitored and may prompt a request for identity verification.

Software: All materials and labs are provided in the LMS environment, so students should not have to download materials or software to their devices directly. Compatibility issues will be assessed in the entrance interview.

The maximum ratio of student to instructor will be capped at 20:1.

The Americans with Disabilities Act and ADA Amendments Act

The school prohibits any form of discrimination and harassment on the basis of sex (including sexual violence), race, color, age, religion, national or ethnic origin, sexual orientation, gender identity or expression, pregnancy, marital or family status, medical condition, genetic information, veteran status, or disability in any decision regarding admissions, employment, or participation in a program or activity in accordance with the letter and spirit of federal, state, and local non-discrimination and equal opportunity laws, such as Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, The Age Discrimination in Employment Act, and The Americans with Disabilities Act and ADA Amendments Act.

The School's ADA Coordinator may be contacted at the school for questions, to file a report or formal complaint, or to otherwise assist individuals in ensuring equal access and/or accommodations to the School's educational programs.

ACI LIVE ONLINE OFFERINGS

ACI Learning offers the opportunity to attend our classes in a live, synchronous learning session. Students will be taught in real-time, with their questions addressed by an instructor over audio and in chat. Students will participate in guided labs operated on state-of-the-art virtual servers and are guided through each exercise using the latest online texts.

Prospective students may enroll anytime. Students can switch to onsite classes at any time (Based on funding source). An overall attendance of at least 80% is required to be considered passing. Instructors take attendance daily through an attendance log that is submitted to student services by 11:00AM each day and added to the student's file. On that attendance log, instructors mark whether the student present or absent and the number of hours attended. If attendance falls under 80%, the student will be considered failing and must set up a retake of their course through student services.

ACI Learning records all course sessions for internal audit and compliance purposes. By logging into your course, you are consenting to being recorded for compliance and audit purposes. Recorded Class content will not be distributed to any outside entity.

Certification attempts are available through 3rd party testing companies remotely or students can be scheduled onsite at our facility or a facility closest to the student.

ACADEMIC CALENDAR

ACI Learning runs classes based on demand and starts cohorts based on a three- or six-week cycle. Classes will start on Monday unless a holiday necessitates a Tuesday start.

Classes are not held on the following holidays:

Labor Day	New Year (Observed)
Memorial Day	Week of Thanksgiving
Independence Day (Observed)	Christmas Eve/Day (Observed)

FACILITIES

The Jacksonville campus located at 8663 Baypine Road Bldg. 4 Ste. 104 Jacksonville, FL 32256 in 5,959 sq. feet with an inviting campus atmosphere where modern conveniences blend into the surroundings, including walking paths, a spring-fed lake with overlooking decks. Hours of operation are from 8am - 12am. All classrooms are set up with the latest state-of-the-art equipment and furniture.

The ACI Learning main corporate office is in Denver at 6855 S Havana St #230, Centennial CO 80112. ACI Learning also operates a facility in Colorado Springs at 7450 Campus Center Dr #250. Colorado Springs 80920 as well as Irving, TX 102 Decker Ct, Irving TX 75062 and San Antonio TX at 8200 I-H 10 West, 78230. Hours of operation are from 8 am to 5 pm. ACI is a smoke-free environment. For those that smoke, designated smoking areas are located outside our training facilities.

PLACEMENT ASSISTANCE

ACI Learning offers job lead referrals as they are sent to us from employers. However, we make no guarantee, express or imply of future employment. Current law prohibits any school from guaranteeing job placement as an inducement to enroll students.

ATTENDANCE REQUIREMENTS

Students are expected to arrive on time for classes with the proper materials and attitude. An overall attendance rate of at least 80% is required. Instructors take attendance daily through an attendance log

that is submitted to student services and added to the student's file. On that attendance log, instructors mark whether the student was present, tardy, absent, or partial. Instructors may request students to withdraw from a course or program if excessive absences of over 20% or tardiness leads to unsatisfactory progress.

Students who fall below the 80% attendance rate or the 80% lab participation rate will be put on academic probation by student services and if they fall under 75 % will automatically be dropped from the program. If students using VA benefits exceeds 20% total absences per period will be terminated from their VA Benefits for unsatisfactory attendance. All students will be given one additional training period after they are put on probation to meet requirement or will be terminated at that time.

To show that the cause of unsatisfactory attendance has been removed, students must show good attendance (as defined) for one period after being terminated for unsatisfactory attendance. After such time, the student may be recertified for VA education benefits.

Students who are unable to continue classes for medical reasons or severe personal problems will be required to take a leave of absence until that are able to return to class. Proper documentation will be required to substantiate a student's withdrawal. We also offer an audit policy: Students can come and refresh any class on a space availability basis for up to 2 years

SATISFACTORY ACADEMIC PROGRESS POLICY

Satisfactory Academic Progress is evaluated at the midpoint and the end of each course throughout the program.

The student is required to make quantitative progress toward program completion. To qualify as making satisfactory academic progress, a student must have attended at least 80% and have earned a grade of 70% or higher in each course.

At the end of each course, students who have not achieved a minimum grade of 70%, and 80% attendance will be placed on probation and mentored for 5 days. If, at the end of the 5-day probationary mentoring period the student fails to achieve the minimum grade of 70%, and 80% attendance, the student is withdrawn from the program.

For course repeats, the previous grade will be dropped, and the most recent grade will be applied to the repeated course. All course attempts are considered in determining the maximum time frame.

Warning/Probation

If a student fails to meet the 80% attendance or achieve a 70% grade at the midpoint of a course, they will be placed on warning until the end of the course. If a student fails to meet the cumulative 80% attendance or achieve a 70% grade by the end of the course, regardless of their status, the student is placed on probation for a 5-day mentoring period.

Failure to achieve an 80% attendance and a 70% grade average by the end of the 5-day mentoring probation period will result in the administrative withdrawal of the student.

Student Notifications

Students will be notified in writing when they are placed on warning and the steps necessary to be removed from warning status. Students will also receive attendance or academic counseling, from the Student Success Manager as appropriate when they are placed on warning, and/or they are required to attend the probationary 5-day mentoring period.

Students who are placed on warning at course midpoint and regain SAP by the end of the course are notified they have been removed from a warning status. Students who are placed on probation and

achieve SAP by the end of the probationary 5-day mentoring period are notified that they have been removed from probation and may continue in their program of study.

The school will notify a student by email if they are being administratively withdrawn for failing to achieve satisfactory academic progress by the end of the probationary 5-day mentoring period.

Appeal Process

The student may submit a written appeal of their dismissal within five calendar days of the receipt of the dismissal notice. The appeal must be accompanied by documentation of the mitigating circumstances that have prevented the student from attaining satisfactory academic progress and evidence that changes have occurred to allow the student to now meet standards of satisfactory academic progress. Only extraordinary circumstances will be considered, such as death or severe illness in the immediate family. Before an appeal may be granted, a written academic plan will be provided to the student which clearly identifies a viable plan for the student to successfully complete the program within the maximum timeframe allowed.

The School Director will assess all appeals and determine whether the student may be permitted to continue in school on a warning status, despite not meeting the satisfactory progress requirements. The student will be sent the written decision within ten days of the receipt of the appeal. The decision of the School Director is final.

Students reinstated upon appeal are on a probationary status for the next evaluation period, during which time they must meet the terms and conditions set out in the School Director's letter granting the appeal. At the end of the evaluation period, and at the end of every evaluation period thereafter, the student's academic status will be reviewed. The student may continue probation if he or she meets the terms of the academic plan approved at the time the student's appeal was granted, until such time as satisfactory academic progress status is regained. The student reinstated after dismissal and appeal is not eligible for any form of financial aid until he or she regains satisfactory progress status by meeting the minimum SAP standards.

Transfer and Readmitted Students

Transfer students from outside the institution will be evaluated qualitatively only on the work completed while at the School. The maximum time frame is reduced for transfer students, based upon the remaining length of the program in which they enroll.

ACI LEARNING MAKE-UP WORK POLICY

At ACI Learning, we understand that there are circumstances beyond a participant's control that may lead to missed class time. To achieve the 100% attendance required to best absorb course materials and labs, we offer a limited make-up policy to accommodate students with mitigating circumstances (e.g. medical emergencies).

To request a make-up session, please send an email to Client Services at client.services@acilearning.com outlining your request within 24 hours of missed class time. Requests are subject to approval and may be denied, and each request must be documented in the student file. Once your make-up session has been approved by the campus and Compliance, your session will be set up with our Instructor Mentor, who will ensure that all material is covered and any assignments that were missed can be reviewed. Once the session is completed it will be noted in the student file and the attendance will be updated when appropriate. Any work missed must be made up within five business days.

Mitigating Circumstances

- An illness or death in immediate family (**LOA required for serious illness and will require a doctor's note advising that student cannot attend with dates**)
- A change in conditions of employment that you could not avoid. Change in hours/schedule etc. (**Detailed email describing circumstances**)
- Call to Duty (LOA) or Military Drill- (**Military orders paperwork required**)
- Unforeseen circumstances- Traffic, Hub issue, Internet outage- Based on Hub Director and Compliance approval (Approved as a one-off exception) (**Detailed email describing circumstances**)
- Jury Duty Certificate /Court Summons (**Paperwork required**)

LEAVE OF ABSENCE POLICY (LOA)

Students who are unable to continue classes for medical reasons or approve extenuating circumstances (medical or otherwise) may request to take a leave of absence until that are able to return to class. A student should contact clientservices@acilearning.com to request a leave of absence. The schools LOA policy is as follows:

1. A leave of absence may be granted for emergency situations such as a serious illness, debilitating injury, or death in the immediate family.
2. The student must submit a written request for a leave of absence in advance of the beginning date of the leave of absence, unless unforeseen circumstances prevent the student from doing so. If a student does not request a leave of absence within a timeframe consistent with the institution's consecutive absence policy, s/he will be withdrawn.
3. The student must sign and date the leave of absence request and specify a reason for the leave. The reason must be identified for the school to have a reasonable expectation of the student's return within the timeframe of the leave of absence as requested.
4. The student must attest to understanding the procedures and implications for returning or failing to return to his/her course of study.
5. The school will document its approval decision relative to the leave of absence request in accordance with its published policy and notify the student in writing.
6. The school does not assess the student any additional charges as a result of the leave of absence.
7. The length and frequency of leaves of absence must not impede student progress and must be reasonable within the context of the program's curriculum.
8. A leave of absence is limited to a maximum of 180 calendar days in any 12-month period or one-half the published program length, whichever is shorter. Multiple leaves of absence may be permitted provided the total of the leaves does not exceed this limit. An approved leave of absence may be extended for an additional period of time provided that the extension request meets all of the above requirements, and the total length of the leave of absence does not exceed the specified limit.

VA BENEFIT DISBURSEMENT DELAYS

Any covered individual wishing to attend classes using their Chapter 33 or Chapter 31 benefits are covered under Title 38 United States Code Section 3679(e). A covered individual is any individual who

is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33 benefits.

Any covered individual that wishes to attend ACI learning courses or programs of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 (a “certificate of eligibility” can also include a “Statement of Benefits” obtained from the Department of Veterans Affairs’ (VA) website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes) and ending on the earlier of the following dates:

1. The date on which payment from VA is made to the institution.
2. 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility.

Delay of disbursement from the VA will not impose any penalty on the covered individual, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual’s inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under chapter 31 or 33.

To proceed with the educational requirement prior to receipt of VA disbursement, covered individuals are required to:

1. Submit a certificate of eligibility for entitlement to educational assistance no later than the first day of a course of education.
2. Submit a written request to use such entitlement in the form of a ACI Learning enrollment packet.
3. Provide additional information necessary to the proper certification of enrollment by the educational institution.

If the VA disbursement is paid and there is a shortfall of funds, an additional payment in the amount of the shortfall will need to be made to the school in a timely manner worked out between ACI and the covered individual. This payment will only be equal to the original amount minus the VA disbursement received and no further penalty will be administered.

CERTIFICATION POLICY

As part of our commitment to student success, unless otherwise noted, ACI Learning covers the cost of one certification attempt per class for students that meet the preparation guidelines. Upon completion of study time, one certification attempt per completed class outlined on the registration paperwork will be covered to enable the student to complete their education. Certification fees are not charged as part of class tuition. Students are eligible to attempt certifications after meeting the graduation requirements for each class and meeting with a Student Mentor. All course specific preparations for the certification attempt must be completed and reviewed by the Mentor during an appointment to assess that the student is appropriately prepared for the attempt. It is the student’s responsibility, and to their advantage, to utilize resources both included in the program and outside of the program to ensure readiness as a knowledge check will be performed before allowing an attempt. Once the student has been cleared by the Mentor, the student can email ClientServices@ACILearning.com to request the attempt code or put in a request through our LMS system.

It is highly recommended that any certification prep, labs, study guides and materials included in the program are completed before attempting certification. It is the student’s responsibility, and to their

advantage, to utilize resources both included in the program and outside of the program to ensure their readiness. For every hour of class time, we expect a student to study an additional 2 to 3 hours on their own to be able to pass the vendor certification.

Students are limited to only one attempt per class. In the event a student fails an attempt, they will have three options:

1. Exchange one of the other course attempts included in a program
2. Pay out of pocket
3. Elect not to retake and move on to the other courses in the program

Certification attempts are required to be taken within 6 months from the last day of a completed class at the campus facility in order to complete training. Requests for certification attempts outside of this window are granted at ACI Learning's discretion.

GRADING SYSTEM

Our grading system is pass/fail as required by vendor certification. Student must be present in 80% of each class and successfully pass course exams earning 70% or more to receive a passing grade in a Course/Program.

STUDENT RECORDS

Each school shall maintain for a minimum of six years from the date the student discontinues their training at the school, student records which shall include at least the following:

- A copy of the enrollment contract and other instruments relating to the payment for educational services.
- Student information including:
 - Student name.
 - Permanent or other address at which the student may be reached.
- Records relating to financial payments and refunds.
- Record of attendance as determined by the school.
- Date of completion or termination of training and the reason(s) as determined by the school.
- Record of any student grievance and subsequent resolution.
- Copies of all correspondence or other records relating to the recruitment, enrollment, and placement of the student.
- Each school shall provide upon request a transcript to the student who has satisfied all financial obligations currently due and payable to the school. This transcript of the individual student record of achievement must be maintained as a permanent record in a form that provides at least the following information:
 - Name of student
 - Title of program, including total number of hours of training received and dates of enrollment.
 - Pass/Fail record of each course, lesson or unit of instruction and the cumulative grade for the program.
 - Explanation of grading system.
 - Student transcripts in a form acceptable to the Board will be retained by the school in perpetuity.

All students can request a copy of his or her records by submitting an email to clientservices@acilearning.com

FERPA POLICY

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

Students have the right to inspect and review the student's education records maintained by the school. Schools may charge a fee for copies.

Students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the student has the right to place a statement with the record setting forth his or her view about the contested information.

Generally, schools must have written permission from the student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):

- School officials with legitimate educational interest;
- Other schools to which a student is transferring;
- Specified officials for audit or evaluation purposes;
- Appropriate parties in connection with financial aid to a student;
- Organizations conducting certain studies for or on behalf of the school;
- Accrediting organizations;
- To comply with a judicial order or lawfully issued subpoena;
- Appropriate officials in cases of health and safety emergencies; and
- State and local authorities, within a juvenile justice system, pursuant to specific State law.

The School may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance unless a written request not to share directory information is provided by the student. All written requests for exemption must be placed in the student file.

ACE CREDIT ASSESSMENT

ACE credits are an optional way for students to link their studies into credits that may be transferable to other schools and colleges. These credits are not required to complete the training program and are not part of tuition. Any student wishing to participate in ACE credits does so voluntarily and covers the cost of all credits.

To be granted ACE credits for qualifying classes, a student must take and achieve a 70% or higher score on the class assessment. The assessment links objectives and learning outcomes covered during the course. It is designed to evaluate the knowledge and skills the student has obtained by the completion of class and was created by experienced faculty who hold credentials associated with the subject matter. If the student does not score a least 70%, a retake assessment can be attempted. The

retake assessment score is considered final, and no additional retakes will be offered. Students re-sitting classes will not be eligible to take the assessment.

To qualify to sit for the assessment, students must:

- Meet the required 80% participation/attendance by the last day of class.
- Students who elect to earn ACE credit hours for the course will need to score a minimum of 70% on the assessment.
- If student does not elect to earn ACE credit for the course, the score will be recorded but will not affect student status.
- If the student does not attend and complete the assessment on the last day of class due to a documented unforeseen circumstance outside of their control (emergency, medical, weather), permission may be granted to reschedule the assessment if the student contacts Client Service within 24 hours of their absence.
- If the student does not attend and complete the assessment on the last day of class, with no documented unforeseen circumstance outside of their control (emergency, medical, weather) or with no communication to ACI Learning, the student may not receive participation for the last day of class, nor receive ACE credits and may need to retake the class to earn completion and be granted another opportunity to take the assessment.

RE-ADMISSION POLICY

The school may allow a student whose enrollment was terminated for not meeting Satisfactory Academic Progress to reenroll after a minimum of one probationary progress evaluation period and may reenroll on the next program start date. Such reenrollment does not circumvent the approved refund policy.

GRADUATION POLICY

To graduate, students must be present 80% in their courses and achieve a score of 70% or higher on the assessment given at the end of the program. A Certificate of Completion is issued to graduates whose financial obligations to the school has been fully satisfied.

RESCHEDULE POLICY

ACI learning is committed to keeping class sizes small to facilitate a high quality-learning environment for our students. Many classes are full at 14-18 Students; because of this we have to minimize reschedules as much as possible. Taking into account any unforeseen circumstances that may occur, ACI's Reschedule Policy allows any student to reschedule their classes within their Program a maximum amount of 2 times total with no penalty or charge. Beyond two reschedules, ACI Students will be dropped from their program and provided a refund for the remaining classes per the cancellation policy below.

CANCELLATION AND REFUND POLICY

Cancellation can be made in person, by electronic mail, or by telephone. A full refund will be made to any student who cancels the enrollment contract within 3 Business Days, excluding Saturdays, Sundays

and legal holidays) whichever is sooner after the enrollment contract is signed, except that the school may retain not more than \$100 in any administrative fees charged, as well as items of extra expense that are necessary for the portion of the program attended and stated separately on the enrollment agreement.

State Approved Policy

1. Refund computations will be based on scheduled course time of class attendance through the last date of attendance. A full refund will be made to any student who cancels enrollments within three business days without penalty. Refund will be based on the remaining portion of class that was not attended. Students will not be charged for classes that was not taken. Written/Approved Leaves of absence, suspensions and school holidays will not be counted as part of the scheduled class attendance. More simply, the refund is based on the precise number of course time hours the student has paid for, but not used, at the point of termination, up to the 75% completion mark, after which no refund is due.
2. The effective date of termination for refund purposes will be the earliest of the following:
 - (a) The last day of recorded attendance or date of official notice if the student is terminated by the school.
 - (b) The date of receipt of notice from the student.
3. If tuition is collected in advance of entrance, and if after expiration of the 72-hour cancellation privilege the student does not enter school, not more than \$100 in any administrative fees charged shall be retained by the school for the entire program.
4. Refunds for items of extra expense to the student, such as books, tools, or other supplies are to be handled separately from refund of tuition and other academic fees. The student will not be required to purchase instructional supplies, books, and tools until such time as these materials are required. Once these materials are purchased, no refund will be made. For full refunds, the school can withhold costs for these types of items from the refund if they were necessary for the portion of the program attended and separately stated in the enrollment agreement. Any such items not required for the portion of the program attended must be included in the refund.
5. A student who withdraws for a reason unrelated to the student's academic status after the 75 percent completion mark and requests a grade at the time of withdrawal shall be given a grade of "incomplete" and permitted to re-enroll in the course or program during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course or program.
6. A full refund of all tuition is due and refundable in each of the following cases:
 - (a) An enrollee is not accepted by the school:
 - (b) If the course of instruction is discontinued by the school and this prevents the student from completing the course; or
 - (c) If the student's enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or representations by the owner or representatives of the school.

Any refund will be made within 30 days of the student's withdrawal date.

VETERANS REFUND POLICY

1. Veterans not accepted by the school and who cancel this contract by notifying the school within 3 business days is entitled to a full refund of all tuition paid. Veterans, who withdraw after three business days, but before commencement of classes, are entitled to a full refund of all tuition and fees paid. In the case of veterans withdrawing after commencement of classes, the school will retain a percentage of tuition, which is based on the ratio of total number of hours in the course. The refund is based on the last date of recorded attendance.

REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE

2. A student at the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Florida National Guard may elect one of the following options for each program in which the student is enrolled:

- (a) If tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal.

-
- (b) A grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or

- (c) The assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:

- (1) Satisfactorily completed at least 90 percent of the required coursework for the program; and

- (2) Demonstrated sufficient mastery of the program material to receive credit for completing the program.

3. The payment of refunds will be totally completed such that the refund instrument has been negotiated or credited into the proper account(s), within 30 days after the effective date of termination.

ALL STUDENTS

1. The student may cancel this contract at any time prior to midnight of the third business day after signing this contract, without penalty.
2. The effective date of termination for refund purposes will be the earliest of the following:
 - (a) The last day of recorded attendance or date of official notice, if the student is terminated by the school;
 - (b) The date of receipt of notice from the student.
3. The student will receive a full refund of tuition and fees paid if the school discontinues a course program within a period of time a student could have reasonably completed it, except that this provision shall not apply in the event the school ceases operation.

4. The payment of refunds will be totally completed such that the refund instrument has been negotiated or credited into the proper account(s), within 30 days after the effective date of termination.
5. Complaints, which cannot be resolved by direct negotiation between the student and the school, may be filed online with the Florida Department of Education. There is a two-year limitation (from the students last date of attendance) on the Division taking action on student complaints. DOE can be reached at (888) 224-6684 or a complaint can be filed online at <HTTP://WWW.FLDOE.ORG/POLICY/CIE/FILE-A-COMPLAINT.STML>.
6. The policy for granting credit shall not impact the refund policy.
7. Any student who has an unpaid portion of tuition due to a shortfall from their funding source will be invoiced by the school.

VA/VET TEC/VRRAP refunds will be returned to the VA upon receipt of the VA debt letter. **ACI Learning does not control the VA debt letter request process.**

Additional Refund Policy

When calculating a refund, the percentage of tuition retained must be based on the portion of the program the student was attending and charged, through his or her last date of attendance.

- a. Refund amounts must be based on a student's last date of attendance (LDA). When determining the number of weeks completed by the student, the school may consider a partial week the same as if a whole week were completed, provided the student was present at least one day during the scheduled week.
- b. During the first week of classes, tuition charges withheld must not exceed 10 percent (10%) of the stated tuition up to a maximum of \$1,000.
- c. After the first week and through fifty percent (50%) of the period of financial obligation, tuition charges retained must not exceed a pro rata portion of tuition for the training period completed, plus ten percent (10%) of the unearned tuition for the period of training that was not completed, up to a maximum of \$1,000. Schools that do not retain any unearned tuition may assess an administrative fee associated with withdrawal or termination not to exceed \$100.
- d. After fifty percent (50%) of the period of financial obligation is completed by the student, the school may retain the full tuition for that period.

CONDUCT POLICY

Students are expected to act in an adult manner. Possessions of weapons, illegal drugs, and alcohol of any kind are not allowed at any time. The school does not tolerate sexual harassment. Any violation of school policies may result in permanent dismissal from school.

Violations of law related to misuse of computing resources may be referred to the appropriate law enforcement agency and the appropriate penalties may attach if it is determined that there has been a violation of federal copyright laws.

Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws:

Copyright infringement is the act of exercising, without permission or legal authority, one or more of the exclusive rights granted to the copyright owner under section 106 of the Copyright Act (Title 17 of the United States Code). These rights include the right to reproduce or distribute a copyrighted work. In the file-sharing context, downloading or uploading substantial parts of a copyrighted work without authority constitutes an infringement.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than \$750 and not more than \$30,000 per work infringed. For "willful" infringement, a court may award up to \$150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys' fees. For details, see Title 17, United States Code, Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to \$250,000 per offense.

For more information, please see the Web site of the U.S. Copyright Office at www.copyright.gov, especially their FAQ's at www.copyright.gov/help/faq.

INSTRUCTIONAL METHODS

ACI Learning's primary educational format is traditional classroom instruction with online content as an adjunct learning resource. When the student's schedule or personal circumstance prevents them from participating physically, ACI Learning does provide online training as an alternate method of training if approved by funding source.

All courses are conducted by live instructor with real-time interaction. Instructional methods include:

- Lecture
- Overhead slides
- Labs (virtual)
- Hand on in-class PC build
- Videos
- Assessments

The maximum student to instructor ratio is 20:1.

STUDENT SERVICES

Each ACI Learning training facility offers students a break room and a study area for their convenience. Instructors are available for test preparation review & counseling on skills development necessary in the technical job market. Employment assistance is given by the school faculty to students. ACI will notify any students of job availability and refer them to area business contacts. Instructors are available as a technical reference. ACI cannot guarantee employment. Progress is readily available to students via their assessment results.

PREVIOUS CREDITS

TRANSFER OF CREDITS

All applicants who have attended another postsecondary institution or taken college-level courses will be given the option of applying for transfer of credit for any course(s) taken which parallel course(s) offered by ACI in their chosen program of study. The applicant must provide an official transcript from the institution or proof of certification in the subject. The Compliance Department will review the transcript and course description(s) to determine whether transfer of credit will be approved or denied. ACI Learning does not accept prior credit for previous versions of current courses and does not accept prior credit for courses that are over 24 months old.

All transfer of credit requests must be submitted to the Registrar prior to the student start. No transfer of credit requests will be accepted after this date. No Exceptions.

Credit for previous education will be evaluated and when appropriate, credit will be granted and the program shortened accordingly. Tuition will be pro-rated based on the hours to be attended. There are no fees assessed for the evaluation of transfer credits. Students who are dissatisfied by the evaluation of credit granted may appeal the decision through the student grievance process.

Transfer of credits from ACI to any other postsecondary institutions will be at the discretion of the receiving institution. ACI Learning does not guarantee the transferability of its credits to any other institution unless there is written agreement with another institution.

The school maintains a written record of the previous education and training of the veteran or eligible person and clearly indicates that appropriate credit has been given for previous education and training, with the training period shortened proportionately, and the veteran or eligible person and the Department of Veterans Affairs is notified when accepted.

The evaluation of previous postsecondary education and training is mandatory and required for VA beneficiaries. For students utilizing Veterans benefits who are approved for transfer credit as a result of this evaluation, the institution will grant appropriate credit, reduce the program length proportionately, notify the student and Veterans Affairs in writing of this decision, and adjust invoicing of the VA accordingly.

DISMISSAL

Any student may be dismissed for violations of rules and regulations of the school, as set forth in the school's catalog. A student also may be withdrawn from classes if he or she does not prepare sufficiently, neglects assignments, or makes unsatisfactory progress. The director, after consultation with all parties involved, makes the final decision.

STUDENT GRIEVANCE PROCEDURE

Students can bring any grievance to the attention of the school for the school to help resolve any issues that may occur. All students will receive an initial response within 48 hours and an attempted resolution within 10 business days.

Grievances should be sent via email to the School Training Director at
TIFFANY.MURPHY@ACILEARNING.COM

If the student complaint cannot be resolved between the student and the school, a student may contact the State authorizing body for the school. In Jacksonville, the Florida Department of Education can be

reached at (888) 224-6684 or a complaint can be filed online at
[HTTP://WWW.FLDOE.ORG/POLICY/CIE/FILE-A-COMPLAINT.STML](http://www.fldoe.org/policy/cie/file-a-complaint.stml).

All student complaints must be submitted to the school and Division in writing:

Commission for Independent Education 325 W. Gaines Street, Suite 1414
Tallahassee, FL. 32399-0400

There is a two-year limitation on Division action on student complaints.

ACCET Applicant Compliant Policy:

This institution is seeking initial accreditation with the Accrediting Council for Continuing Education & Training (ACCET). To this end, the institution has submitted an Application for Accreditation to ACCET and will subsequently submit a self-study and have an on-site team visit to determine whether the institution meets ACCET's Standards for Accreditation. It is the mutual goal of ACCET and the institution to ensure that educational training programs of quality are provided.

When issues arise, students should make every attempt to find a fair and reasonable solution through the institution's internal complaint procedure, which is required by ACCET and frequently requires the submission of a written complaint. Refer to the institution's written complaint procedure which is published in the institution's catalog or otherwise available from the institution, upon request. Note that ACCET will process complaints which involve ACCET standards and policies and, therefore, are within the scope of the accrediting agency.

In the event that a student has exercised the institution's formal student complaint procedure, and the problems or issues have not been resolved, the student has the right and is encouraged to take the following steps:

1. Complaints should be submitted in writing (by email or mail) to the ACCET office. Complaints received by phone will be documented; however, the complainant will be requested to subsequently submit the complaint in writing.
2. The written complaint must contain the following information: a) Name and location of the institution; b) A detailed description of the alleged problem(s); c) The approximate date(s) that the problem(s) occurred; d) The names and titles/positions of all individual(s) involved in the problem(s), including faculty, staff, and/or other students; e) What was previously done to resolve the complaint, along with evidence demonstrating that the institution's complaint procedure was followed prior to contacting ACCET; f) The name, email address, telephone number, and mailing address of the complainant. If the complainant specifically requests that anonymity be maintained, ACCET will not reveal his or her name to the institution involved; and g) The status of the complainant with the institution (e.g. current student, former student, etc.).
3. In addition to the written complaint, copies of any relevant supporting documentation should be forwarded to ACCET (e.g. student's enrollment agreement, syllabus or course outline, correspondence between the student and the institution).

4. SEND TO:

ACCET CHAIR, COMPLAINT REVIEW COMMITTEE

1722 N Street, NW Washington, DC 20036

Telephone: (202) 955-1113

Email: complaints@accet.org

Website: www.accet.org

PROGRAMS

COMPUTER USER SUPPORT SPECIALIST (CUSS)

(200 Clock Hours, CIP 11.0101)

PROGRAM DESCRIPTION

This program is designed to help individuals get jobs in the technical support and service field as end user support specialists. This program develops the skills required to perform the following job functions:

- Install, configure, upgrade, and maintain PC workstations, focusing on the Windows Operating System.
- Resolve PC, OS, and network connectivity issues and implement security practices.
- Manage, maintain, troubleshoot, basic network infrastructure, describe networking technologies, basic design principles, and adhere to wiring standards.
- Perform compliance and operational security tasks
- Anticipate, identify and prevent threats and vulnerabilities
- Manage application, data and host security
- Perform access control and identity management functions
- Understand basic Cryptography concepts
- Install, configure, upgrade, maintain, and troubleshoot servers.
- Examine server hardware and software, disaster recovery strategies.
- Perform installation, troubleshooting, and management functions in the Windows Client operating system environment.
- Troubleshoot security system issues, such as Encrypting File Systems (EFS) BitLocker Drive Encryption, and file permissions.
- The program also introduces the principles and core elements of IT service management (ITSM) based on ITIL framework

All courses in the CUSS program must be taken in order.

PROGRAM OUTLINE

Course Number	Course Title	Clock Hours
		Lecture/Lab/Ext/Total
CORE 1	A+ Essentials Core 1 Prep	20/20/0/40
CORE 2	A+ Practical Applications Core 2 Prep	20/20/0/40

NET+	CompTIA Network+ Prep	20/20/0/40
SEC+	CompTIA Security+ Prep	20/20/0/40
ITIL-FND	ITIL Foundations Prep	20/20/0/40

The approximate time required to complete this program is 50 days or nights.

TARGETED JOB ROLES

- End User Support Specialist
- Service Technician
- Technical Support Specialist
- Help Desk Specialist
- Desktop Support Specialist
- Security Administrator

ITIL FOUNDATIONS PREP

(40 Clock Hours)

COURSE DESCRIPTION

Based on the ITIL best practice service lifecycle methodology, this subject provides a practical understanding of the key concepts, principles, processes, and functions that enable successful IT Service Management (ITSM) provisioning. The course intent is to provide proven practical guidance on how to successfully introduce an integrated IT Service Management framework and how best practices can be adopted and adapted within an organization. It also prepares students for the ITIL Foundation Certification. This is for IT practitioners involved in the strategy, design, implementation and on-going delivery of business-used IT services and for anyone who requires an insight into Service Management best practices.

COURSE OBJECTIVES

Upon completion of the 10-Day ITIL Foundations training, participants will understand:

- Key concepts of ITIL
- Important principles for improving IT operations and project success
- Vital processes and functions
- Practical guidance for applying ITIL to everyday IT project situations
- How to align with business, control costs, and improve IT service quality
- Strategies to balance IT resources

COMPTIA A+ ESSENTIALS CORE 1 PREP

COURSE DESCRIPTION

This course will build on the student's existing user-level knowledge and experience with personal computer (PC) hardware to present fundamental skills and concepts that are used on the job. In this course, the student will acquire the essential skills and information needed to install, configure, troubleshoot, upgrade, and perform preventive maintenance on PCs and mobile device hardware.

The CompTIA A+ course can benefit the student in two ways. Whether working in a mobile or corporate environment with a high level of face-to-face customer interaction, where client communication and client training are important, or in an environment with limited customer interaction and an emphasis on hardware activities, this course provides the background knowledge and skills required to be a successful A+ technician.

In this course, the student will install, configure, optimize, troubleshoot, repair, upgrade, and perform preventive maintenance on personal computers, digital devices, and operating systems.

Prerequisite- ITIL

COURSE OBJECTIVES

- Explain the process of installing, configuring, and maintaining operating systems
 - Define security concepts for networks, workstations, data, mobile devices, and operating systems
 - Outline troubleshooting techniques for networks, workstations, data, mobile devices, and operating systems
-

COMPTIA A+ PRACTICAL APPLICATIONS CORE 2 PREP

(40 Clock Hours)

COURSE DESCRIPTION

This course is designed for individuals who have basic computer user skills and who are interested in obtaining a job as an entry-level IT technician. This course is also designed for students who are seeking the CompTIA A+ certification and who want to prepare for the CompTIA A+ Core 2 Certification.

To ensure your success in this course you should have experience with basic computer user skills, be able to complete tasks in a Microsoft Windows environment, be able to search for, browse and access information on the Internet and have a basic knowledge of computing concepts.

Prerequisite- CORE 1

COURSE OBJECTIVES

- Explain the process of installing, configuring, and maintaining operating systems
 - Define security concepts for networks, workstations, data, mobile devices, and operating systems
 - Outline troubleshooting techniques for networks, workstations, data, mobile devices, and operating systems
-

COMPTIA NETWORK + PREP

(40 Clock Hours)

COURSE DESCRIPTION

The CompTIA Network+ course builds on your existing user-level knowledge and experience with personal computer operating systems and networks to present the fundamental skills and concepts that you will need to use on the job in any type of networking career. If you are pursuing a CompTIA technical certification path, the CompTIA A+ certification is an excellent first step to take before preparing for the CompTIA Network+ certification.

Also, if your job duties include network troubleshooting, installation, or maintenance, or if you are preparing for any type of network-related career, it provides the background knowledge and skills you will require to be successful.

Prerequisite- CORE 2

COURSE OBJECTIVES

Students will learn:

- Networking Fundamentals - Define basic networking concepts including network services, physical connections, topologies and architecture, and cloud connectivity.
- Network Implementations - Define routing technologies and networking devices; deploy ethernet solutions and configure wireless technologies.
- Network Operations – Summarize Monitor techniques to optimize networks to ensure business continuity.
- Network Security - Define security concepts and network attacks to harden networks against threats.
- Network Troubleshooting – Define Troubleshooting techniques for common cable, connectivity, and software issues related to networking.

COMPTIA SECURITY + PREP

(40 Clock Hours)

COURSE DESCRIPTION

CompTIA Security+ is the primary course you will need to take if your job responsibilities include securing network services, devices, and traffic in your organization. You can also take this course to prepare for the CompTIA Security+ certification. In this course, you will build on your knowledge of and professional experience with security fundamentals, networks, and organizational security as you acquire the specific skills required to implement basic security services on any type of computer network.

This course can benefit you in two ways. If you intend to pass the CompTIA Security+ certification, this course can be a significant part of your preparation. But certification is not the only key to professional success in the field of computer security. Today's job market demands individuals with demonstrable skills, and the information and activities in this course can help you build your computer security skill set so that you can confidently perform your duties in any security-related role.

Prerequisite- CompTIA Network +

COURSE OBJECTIVES

Students will learn:

- Define the risk of various threats to information security
- Apply technique to detect vulnerabilities and implement security
- Define cryptographic solutions in the organization.
- Summarize access levels and appropriate security at an operational/organizational level
- Outline security incidents and responses

NETWORK SUPPORT SPECIALIST (NSS)

(160 Clock Hours, CIP Code 11.1002)

PROGRAM DESCRIPTION

Network Support Specialist is a certification program for entry-level network engineers that helps maximize investment in foundational networking knowledge and increase the value of an employer's network. Network Support Specialist is for Network Specialists, Network Administrators, and Network Support Engineers with 1-3 years of experience. The CCNA Routing and Switching validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks.

All courses in the NSS program must be taken in order.

PROGRAM OUTLINE

Course Number	Course Title	Clock Hours
		Lecture/Lab/Ext/Total
NET+	CompTIA Network+ Prep	20/20/0/40
SEC+	CompTIA Security+ Prep	20/20/0/40
CCNA 1	Certified Cisco Network Administrator, CCNA Part 1 Prep	20/20/0/40
CCNA 2	Certified Cisco Network Administrator, CCNA Part 2 Prep	20/20/0/40

The approximate time required to complete this program is forty days for day students and forty nights for evening students.

TARGETED JOB ROLES

- Network Support Technician
- Network Support Specialist
- Network Administrators
- Network Support Engineer

COURSE DESCRIPTIONS

COMPTIA NETWORK + PREP

COURSE DESCRIPTION

The CompTIA Network+ course builds on your existing user-level knowledge and experience with personal computer operating systems and networks to present the fundamental skills and concepts that you will need to use on the job in any type of networking career. If you are pursuing a CompTIA

technical certification path, the CompTIA A+ certification is an excellent first step to take before preparing for the CompTIA Network+ certification.

Also, if your job duties include network troubleshooting, installation, or maintenance, or if you are preparing for any type of network-related career, it provides the background knowledge and skills you will require to be successful.

COMPTIA SECURITY + PREP

COURSE DESCRIPTION

CompTIA Security+ is the primary course you will need to take if your job responsibilities include securing network services, devices, and traffic in your organization. You can also take this course to prepare for the CompTIA Security+ certification. In this course, you will build on your knowledge of and professional experience with security fundamentals, networks, and organizational security as you acquire the specific skills required to implement basic security services on any type of computer network.

This course can benefit you in two ways. If you intend to pass the CompTIA Security+ certification, this course can be a significant part of your preparation. But certification is not the only key to professional success in the field of computer security. Today's job market demands individuals with demonstrable skills, and the information and activities in this course can help you build your computer security skill set so that you can confidently perform your duties in any security-related role.

Prerequisite- CompTIA Network +

COURSE OBJECTIVES

Students will learn:

- Define the risk of various threats to information security
- Apply technique to detect vulnerabilities and implement security
- Define cryptographic solutions in the organization.
- Summarize access levels and appropriate security at an operational/organizational level
- Outline security incidents and responses

CERTIFIED CISCO NETWORK ADMINISTRATOR, CCNA

PROGRAM DESCRIPTION

Cisco Certified Network Associate (CCNA) Routing and Switching is a certification program for entry-level network engineers that helps maximize investment in foundational networking knowledge and increase the value of an employer's network. CCNA Routing and Switching is for Network Specialists, Network Administrators, and Network Support Engineers with 1-3 years of experience. The CCNA Routing and Switching validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks.

Prerequisite- CompTIA Security +

CCNA 1 & 2: Certified Cisco Network Administrator Prep

COURSE DESCRIPTION

Cisco Certified Network Associate (CCNA) Routing and Switching is a certification program for entry-level network engineers that helps maximize investment in foundational networking knowledge and increase the value of an employer's network. CCNA Routing and Switching is for Network Specialists, Network Administrators, and Network Support Engineers with 1-3 years of experience. The CCNA Routing and Switching validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks.

COURSE OBJECTIVES

In these courses, you will implement and administer networks by using Cisco solutions.

You will:

- Explain basic concepts related to networking.
- Configure switching.
- Configure IP addressing.
- Configure routing.
- Configure wireless connectivity.
- Configure IP network services.
- Explain basic network security concepts and practices.
- Explain the use of automation and programmability in network management tasks.
- Troubleshoot common network issues.

CERTIFIED CISCO NETWORK ADMINISTRATOR, CCNA

(80 Clock Hours, CIP 11.0101)

PROGRAM DESCRIPTION

The Cisco® Solutions: Implementation and Administration course builds on your existing user-level knowledge and experience with computing and networking to provide you with the knowledge and skills expected of an entry-level network administrator. It also addresses the content described in the exam objectives for the Certified Cisco Network Administrator. If you are pursuing a Cisco technical certification path, the CCNA exam is your first step into the world of Cisco certification.

PROGRAM OUTLINE

Course Number	Course Title	Clock Hours
		Lecture/Lab/Ext/Total
CCNA 1	Certified Cisco Network Administrator, CCNA Part 1 Prep	20/20/0/40
CCNA 2	Certified Cisco Network Administrator, CCNA Part 2 Prep	20/20/0/40

The approximate time required to complete this program is twenty days for day students and twenty nights for evening students.

TARGETED JOB ROLES

- Network Specialist
- Network Administrators
- Network Support Engineer

COURSE DESCRIPTIONS

CCNA 1 & 2: Certified Cisco Network Administrator Prep

COURSE DESCRIPTION

Cisco Certified Network Associate (CCNA) Routing and Switching is a certification program for entry-level network engineers that helps maximize investment in foundational networking knowledge and increase the value of an employer's network. CCNA Routing and Switching is for Network Specialists, Network Administrators, and Network Support Engineers with 1-3 years of experience. The CCNA Routing and Switching validates the ability to install, configure, operate, and troubleshoot medium-size routed and switched networks.

COURSE OBJECTIVES

In this course, you will implement and administer networks by using Cisco solutions.

You will:

- Explain basic concepts related to networking.
- Configure switching.
- Configure IP addressing.
- Configure routing.
- Configure wireless connectivity.
- Configure IP network services.
- Explain basic network security concepts and practices.
- Explain the use of automation and programmability in network management tasks.
- Troubleshoot common network issues.

SENIOR TECHNOLOGY PROJECT MANAGER (STPM)

(80 Clock Hours, CIP 11.1005)

PROGRAM DESCRIPTION

This program is based on the Project Management Professional (PMP) and Service Management (ITIL) credentials. The PMP is one of the most important industry-recognized certifications for IT project managers. Globally recognized and demanded, the PMP demonstrates that students have the experience, education and competency to lead and direct projects. This recognition is seen through increased marketability to employers and higher salary; according to the PMI Project Management Salary Survey–Seventh Edition, this certification positively impacts project manager salaries.

Our PMP program has a strong IT orientation and covers a number of foundational IT management skills in addition to the core project management skills. The program introduces the principles and core elements of project management and IT service management (ITSM) based on ITIL framework, then moves into advanced project management principles including topics that prepare the student for the PMP certification.

The courses in the STPM program must be taken in order.

PROGRAM OUTLINE

Course Number	Course Title	Clock Hours
		Lecture/Lab/Ext/Total
ITIL-FND	ITIL Foundations Prep	20/20/0/40
PMP	PMP Preparation Prep	40/0/0/40

The approximate time required to complete this program is 15 Days

TARGETED JOB ROLES

- Project Manager
- Business Analyst
- Service Delivery Manager
- Incident Manager
- Engagement Manager
- Client Service Manager
- Technical Support Manager
- Software Engineering Manager
- QA Analyst

COURSE DESCRIPTIONS

ITIL V4 FOUNDATIONS PREP

COURSE DESCRIPTION

Based on the ITIL best practice service lifecycle methodology, this subject provides a practical understanding of the key concepts, principles, processes, and functions that enable successful IT Service

Management (ITSM) provisioning. The course intent is to provide proven practical guidance on how to successfully introduce an integrated IT Service Management framework and how best practices can be adopted and adapted within an organization. It also prepares students for the ITIL Foundation Certification. This is for IT practitioners involved in the strategy, design, implementation and on-going delivery of business-used IT services and for anyone who requires an insight into Service Management best practices.

COURSE OBJECTIVES

Upon completion of the 5-Day ITIL Foundations training, participants will understand:

- Key concepts of ITIL
- Important principles for improving IT operations and project success
- Vital processes and functions
- Practical guidance for applying ITIL to everyday IT project situations
- How to align with business, control costs, and improve IT service quality
- Strategies to balance IT resources

PMP- PROJECT MANAGEMENT PROFESSIONAL PREP

COURSE DESCRIPTION

You can find PMPs leading projects in nearly every country and, unlike other certifications that focus on a particular geography or domain, the PMP® is truly global. As a PMP, you can work in virtually any industry, with any methodology and in any location. The PMP signifies that you speak and understand the global language of project management and connects you to a community of professionals, organizations, and experts worldwide.

This course provides an intensive review of the course matter tested on the Project Management Institute's Project Management Professional (PMP) certification. This course will provide a summary review of the nine knowledge areas and five process groups covered in A Guide to the Project Management Body of Knowledge (PMBOK® Guide). Participants will improve their test-taking skills by completing sample certifications totaling 200 questions and by discussing the rationale behind both correct and incorrect answers. The program is specifically designed to maximize the probability that you will succeed in passing the PMP the first time. Each student will receive a student manual including review materials, key definitions and formulas, sample questions and answers.

Pre-requisite- ITIL Foundation.

COURSE OBJECTIVES

Students will learn:

- Initiating Domains.
- Planning Domains.
- Executing Domains.
- Monitoring Domains.
- Closing Domains.

INFORMATION SECURITY ANALYST (ISA)

(120 Clock Hours, CIP 11.1003)

PROGRAM DESCRIPTION

Battles between corporations, governments, and countries are no longer fought using physical force. Cyber war has begun and the consequences can be seen in everyday life.

This program is designed to help individuals get jobs as information security auditors, site administrators, computer forensics investigators.

This program will immerse the student into an interactive environment where they will be shown how to scan, test, hack and secure their own systems; emphasizing perimeter defenses, Intrusion Detection, Policy Creation, Social Engineering, DDoS Attacks, Buffer Overflows and Virus Creation. It also presents a detailed methodological approach to cyber network defense from three approaches: 1) Preventive 2) Reactive 3) Retrospective.

All courses in the ISA program must be taken in order.

PROGRAM OUTLINE

Course Number	Course Title	Clock Hours
		Lecture/Lab/Ext/Total
SEC+	Security+ Prep	20/20/0/40
CND	Network Defender Prep	20/20/0/40
CEH	Certified Ethical Hacker Prep	20/20/0/40

The approximate time required to complete this program is thirty days for day students and thirty nights for evening students.

TARGETED JOB ROLES

- Network Administrator
- Network Engineer
- Information Security Specialist
- Information Security Auditor
- Site Security Administrator

COURSE DESCRIPTION

CompTIA Security+ is the primary course you will need to take if your job responsibilities include securing network services, devices, and traffic in your organization. You can also take this course to prepare for the CompTIA Security+ certification. In this course, you will build on your knowledge of and professional experience with security fundamentals, networks, and organizational security as you acquire the specific skills required to implement basic security services on any type of computer network.

This course can benefit you in two ways. If you intend to pass the CompTIA Security+ certification, this course can be a significant part of your preparation. But certification is not the only key to

professional success in the field of computer security. Today's job market demands individuals with demonstrable skills, and the information and activities in this course can help you build your computer security skill set so that you can confidently perform your duties in any security-related role.

COURSE OBJECTIVES

- Define the risk of various threats to information security
- Apply technique to detect vulnerabilities and implement security
- Define cryptographic solutions in the organization.
- Summarize access levels and appropriate security at an operational/organizational level
- Outline security incidents and responses

COURSE: NETWORK DEFENDER (CND) PREP

COURSE DESCRIPTION

CND prepares individuals on network security technologies and operations to achieve defense-in-depth objectives. CND is a comprehensive vendor-neutral network security certification course. This course will immerse you into an interactive environment where you will learn and practice security skills.

Prerequisite- CompTIA Security +

COURSE OBJECTIVES

Upon completion of this course, students will expand their Security knowledge and skill on existing topics covered in Security+ and newly introduced topics:

- Security Threats, Vulnerabilities, Attacks
- Network Security Controls
- Network Policy Design
- Physical Security
- Host, Application, Data Security
- Firewalls
- IDS
- VPN
- Wireless Security
- Network Monitoring and Analysis
- Risk and Vulnerability Management
- Data Backup and Recovery
- Network Incident Response

CEH: CERTIFIED ETHICAL HACKER PREP

COURSE DESCRIPTION

This course will immerse you into an interactive environment where you will be shown how to scan, test, hack and secure your own systems. The lab intensive environment gives you in-depth knowledge and practical experience with the current essential security systems. You will begin by understanding

how perimeter defenses work and then be led into scanning and attacking your own networks, no real network is harmed. You will then learn how intruders escalate privileges and what steps can be taken to secure a system. You will also learn about Intrusion Detection, Policy Creation, Social Engineering, DDoS Attacks, Buffer Overflows and Virus Creation. When you leave this intensive 10 day class, you will have hands on understanding and experience in Ethical Hacking.

Prerequisite: CND

PERFORMANCE OBJECTIVES

Students will learn:

- Background of technology and technological operations
- Risk and system analysis
- Systems securities and vulnerabilities
- Regulations and ethics

TARGETED JOB ROLES

- Site Administrators
- Security Auditors
- Security Professionals

CERTIFIED INFORMATION SYSTEMS SECURITY PROFESSIONAL (CISSP) PREP

(40 Clock Hours, CIP 11.1003)

PROGRAM DESCRIPTION

Welcome to Certified Information Systems Security Professional (CISSP). With your completion of the prerequisites and necessary years of experience, you are firmly grounded in the knowledge requirements of today's security professional. This course will expand upon your knowledge by addressing the essential elements of the eight domains that comprise a Common Body of Knowledge (CBK)[®] for information systems security professionals. The course offers a job-related approach to the security process, while providing a framework to prepare for CISSP certification.

CISSP is the premier certification for today's information systems security professional. It remains the premier certification because the sponsoring organization, the International Information Systems Security Certification Consortium, Inc. (ISC)² [®], regularly updates the test by using course matter experts (SMEs) to make sure the material and the questions are relevant in today's security environment. By defining eight security domains that comprise a CBK, industry standards for the information systems security professional have been established. The skills and knowledge you gain in this course will help you master the eight CISSP domains and ensure your credibility and success within the information systems security field.

PERFORMANCE OBJECTIVES

Students will learn:

- Analyze components of the Security and Risk Management domain.
- Analyze components of the Asset Security domain.

- Analyze components of the Security Engineering domain.
- Analyze components of the Communications and Network Security domain.
- Analyze components of the Identity and Access Management domain.
- Analyze components of the Security Assessment and Testing domain.
- Analyze components of the Security Operations domain.
- Analyze components of the Software Development Security domain.

PROGRAM OUTLINE

Course Number	Course Title	Clock Hours
		Lecture/Lab/Ext/Total
CISSP	Certified Information Systems Security Professional	20/20/0/40

The approximate time required to complete this program is twenty days for day students and twenty nights for evening students.

TARGETED JOB ROLES

- Security Auditors or Specialists
- Risk Management Professionals
- Network Administrators
- Network Engineers

ITIL FOUNDATIONS PREP

(40 Clock Hours, CIP 11.0101)

PROGRAM DESCRIPTION

This course will prepare you for the ITIL Foundation certification, introducing you to basic concepts used in IT service management. In this course, you will acquire the essential skills and information necessary to lead and manage an IT business service through every stage of its lifecycle.

Implementing and supporting IT services in the workplace can often be a daunting task since all organizations differ in key ways. Whether it's upgrading from one service to another, improving an existing service, or designing a service from scratch, business-focused leadership and management are crucial elements of services that your customers will perceive as valuable. The course will prepare you for the ITIL Foundation cert, introducing you to basic concepts used in IT service management.

COURSE OBJECTIVES

- Describe the history and basic concepts of ITIL.
- Describe Service Strategy in the IT Service Lifecycle.
- Describe Service Design in the IT Service Lifecycle.
- Describe Service Transition in the IT Service Lifecycle.
- Describe Service Operation in the IT Service Lifecycle.
- Describe the various functions of Service Operation Lifecycle in the IT Service Lifecycle.
- Describe Continual Service Improvement in the IT Service Lifecycle.

PROGRAM OUTLINE

Course Number	Course Title	Clock Hours
		Lecture/Lab/Ext/Total
ITL-FND	ITIL Foundation	20/20/0/40

The approximate time required to complete this program is twenty days for day students and twenty nights for evening students.

TARGETED JOB ROLES

- IT Professionals with an interest in Service Management

PROJECT MANAGEMENT PROFESSIONAL (PMP) PREP

(40 Clock Hours, CIP 11.1005)

PROGRAM DESCRIPTION

You can find PMPs leading projects in nearly every country and, unlike other certifications that focus on a particular geography or domain, the PMP® is truly global. As a PMP, you can work in virtually any industry, with any methodology and in any location. The PMP signifies that you speak and understand the global language of project management and connects you to a community of professionals, organizations and experts worldwide.

- IT Security Professionals

COMPTIA NETWORK + PREP

(40 Clock Hours, CIP 11.0101)

PROGRAM DESCRIPTION

The *CompTIA® Network+®* course builds on your existing user-level knowledge and experience with personal computer operating systems and networks to present the fundamental skills and concepts that you will need to use on the job in any type of networking career. If you are pursuing a CompTIA technical certification path, the CompTIA A+ certification is an excellent first step to take before preparing for the CompTIA Network+ certification.

Also, if your job duties include network troubleshooting, installation, or maintenance, or if you are preparing for any type of network-related career, it provides the background knowledge and skills you will require to be successful.

COURSE OBJECTIVES

Students will learn:

- Networking Fundamentals - Define basic networking concepts including network services, physical connections, topologies and architecture, and cloud connectivity.
- Network Implementations - Define routing technologies and networking devices; deploy ethernet solutions and configure wireless technologies.
- Network Operations – Summarize Monitor techniques to optimize networks to ensure business continuity.
- Network Security - Define security concepts and network attacks to harden networks against threats.
- Network Troubleshooting – Define Troubleshooting techniques for common cable, connectivity, and software issues related to networking.

PROGRAM OUTLINE

Course Number	Course Title	Clock Hours
		Lecture/Lab/Ext/Total
NET +	CompTIA Network +	20/20/0/40

The approximate time required to complete this program is twenty days for day students and twenty nights for evening students.

TARGETED JOB ROLES

- Entry-level IT Professional
