Any further Hearings will be publicised as required by the Planning Inspectorate and by the Infrastructure Planning (Examination Procedure) Rules 2010.

SUMMARY OF PROPOSED DEVELOPMENT

The Application is for development consent to construct, operate, maintain and decommission a solar photovoltaic (PV) electricity generating facility with a capacity of over 50 megawatts (MW) and export connection to the National Grid.

Heckington Fen Solar Park (the "Proposed Development") will cover an area of approximately 645 hectares (ha). The principal components of the Proposed Development comprise solar PV arrays, mounting structures, inverters, transformers, switchgears, onsite substation and ancillary buildings, low voltage distribution cabling, fencing, security and ancillary infrastructure, access tracks, temporary construction compounds, mitigation and enhancement areas and green infrastructure. To view a plan showing the location and route of the Proposed Development as submitted in the Application, please refer to the Location, Order Limits and Grid Coordinates Plans (Document Reference: EN010123-000119-2.8), available here: <https://infrastructure.planninginspectorate.gov.uk/wp-content/ipc/uploads/projects/EN010123/EN010123-000119-2.8%20-%20Location%20and%20Order%20Limits%20Plan.pdf>

Development consent is required to the extent that development is or forms part of a Nationally Significant Infrastructure Project (NSIP) pursuant to sections 14(1)(a) and 15(1) and (2) of the Planning Act 2008, as an onshore generating station in England with a capacity greater than 50 MW. It is for this reason that the Proposed Development falls within the remit of the Secretary of State's decision-making powers.

The DCO, if granted, would authorise the compulsory acquisition of land, interests in land and rights over land, and the powers to use land permanently and temporarily. The DCO would also authorise alterations to the layout of streets, the construction of accesses to the Proposed Development, the temporary stopping up or management of the public rights of way, street works, removal of hedgerows and the application and disapplication of legislation.

APPLICATION FORM AND ACCOMPANYING DOCUMENTS

The application form and its accompanying documents (including maps and plans, the Environmental Statement, Non-Technical Summary, and the draft Order (the "Application Documents"), can be viewed and downloaded free of charge on the Heckington Fen Solar Park page of the Planning Inspectorate's website: <https://infrastructure.planninginspectorate.gov.uk/projects/east-midlands/heckington-fen-solar-park/?ipcsection=docs>

The documents can also be accessed through the Applicant's website: <https://www.ecotricity.co.uk/our-green-energy/heckington-fen-solar-park>

An electronic copy of the Application Documents can be supplied free of charge on a USB memory stick. To request a USB, please contact us using the details provided at the bottom of the notice.

The full suite of Application Documents can be made available in hard copy format on request at a cost of £5000 per copy. For any bespoke document requests, please contact the Applicant using the contact details at the bottom of the notice, who will provide the cost. Copies of individual documents are also available on request and a reasonable copying charge may apply.
