## What to Expect

### ***First Lesson***

We'll get to know one another, and I will hear you play anything you want so that I can hear where you are at – DON'T BE SHY!

I want to find out what your goals are, what you love to play and where you would love to see yourself at the end of 6 weeks and beyond.

I'll send you home with some materials to prepare for the second flute lesson with some practicing tips and a list of books that you will need to purchase to begin your studies.

### ***Second Lesson***

Let's see how things went for the first week and get you started in your new books. A warm-up routine for tone work and scales will be introduced. We will discuss exactly how to work in your new books.

### ***Third Lesson***

This will run like a normal flute lesson. You will present everything you prepared, get feedback, and learn what to prepare for the next lesson.

### ***Fourth Lesson***

We will introduce a flute solo for you to work on in addition to your warm-ups and lesson books! This is where how we introduce a long-term project.

### ***Fifth Lesson***

This lesson is like the third lesson – it will run like a normal flute lesson but will incorporate some additional time on your new flute solo.

### ***Sixth Lesson***

Things will wrap up at the final lesson of the jump start package. You will present your flute solo in a mini-performance and we will discuss continuing with lessons as a regular full-time student and what the enrollment options are.
