NDC

Zepbound vial 2.5 mg	0002-0152-04
Zepbound vial 5 mg	0002-0243-04
Zepbound vial 7.5 mg	0002-1214-04
Zepbound vial 10 mg	0002-1340-04

The vial is distributed in a one-month supply, defined as 28 days and 4 vials.

If you're unable to choose vial within your EHR, you can choose Zepbound autoinjector and still process the prescription using the Notes/Sig section. Prescribe the autoinjector and write "Dispense vials. Vial NDC not available in EHR." in the Notes/Sig section. Make sure to add strength (2.5 mg, 5 mg, 7.5 mg or 10 mg), dose (0.5 mL), route, and frequency. "Use as directed" will not be accepted.

WHAT YOUR PATIENTS CAN EXPECT

We are working with Gifthealth and partners to deliver your patient's pharmacy services. Gifthealth will send your patient a text message or email to confirm receipt of the prescription and provide details on next steps. Your patients will be asked to certify to conditions of purchase, including that they have been prescribed the Zepbound vial for an approved use consistent with FDA-approved product labeling. Gifthealth is an independent provider.

Injection supplies, including needles, syringes, and alcohol swabs which are essential for administration will be available from our pharmacy provider for a nominal fee at checkout.
