

# Testimonials from our Customers

Take a look at how our solutions have helped to drive growth for our customers:

"The level of management control in the front office combined with user flexibility on the handheld is amazing and the system offers tremendous flexibility and imagination just where we want to make step changes in our business. **It offers excellent support to the sales team, even on the most complex customer prices and promotions.** It suggests to the salesman what to supply at each call and helps him add value for our customers by providing detailed product and sales history information to aid the customer's decision making."

**Ginsters, Finance Director**

"We've streamlined our business with the help of Mobile Enterprise System's powerful solution - it's a great investment for wholesale distributors looking to grow their business."

**- Arrabawn Agri-Based Organisation, Ireland**

"Mobile Enterprise Systems have removed a lot of inaccuracies and frustrations; without the system, we'd need three to four people to do what one person can now do."

**- Mr Scratchings Pork Scratchings, Bradford**

"The software has automated what were previously manual and labour-intensive processes resulting in significant time and cost savings and far greater business insight thanks to the detailed reports."

**Barnies Farm, East Anglia**

"The System from mobile Enterprise Systems has allowed us to service more customers with the same number of staff and certainly helped us be more efficient."

**Prep House Sauce Manufacturer, Northern Ireland**

"Our delivered wholesale system ensures that we provide a fast, responsive and flexible service to our customers every time we visit them. We have also improved waste control due to more accurate forecasting, consistency across national accounts and an increased capacity for product mix optimisation across stores".

**Garrett Fitzgerald, Director**
