

| Status code      | Status type | Short description                             | Who takes action | Detailed description  | Available in            |
|------------------|-------------|---|------------------|---|-------------------------|
| <b>ACSBL_02</b>  | Backlog     | Article in master data validation             | Zalando          | Wait  | Article Status Overview |
| <b>ACSREJ_01</b> | in use      | Size not available in selected size chart     | Partner          | Your supplier size is not available in the size chart. Choose another size chart or ask Zalando Partner Program to add the missing size to the size chart.  | Article Status Overview |
| <b>ACSREJ_02</b> | in use      | Wrong size chart                              | Partner          | EAN rejected, because a detail of size chart is wrong(e.g. size chart states "accessories", but images and content show a shoe). Please adjust accordingly.   | Article Status Overview |
| <b>ACSREJ_05</b> | in use      | Wrong brand                                   | Partner          | In case: Ask Zalando Partner Program why this error occurred.   | Article Status Overview |
| <b>ACSREJ_08</b> | in use      | Length not available in selected length chart | Partner          | EAN rejected, because submitted length size is not included in the selected length chart(e.g. length chart includes sizes from "10" to "20"   submitted length "22" not included).                        | Article Status Overview |
| <b>ACSREJ_10</b> | in use      | Wrong length chart                            | Partner          | EAN rejected, because a detail (gender, age group, commodity group, brand) of length chart is wrong(e.g. size chart states "accessories", but images and content show a shoe). Please adjust accordingly. | Article Status Overview |
| <b>ACSREJ_11</b> | in use      | Length chart missing                          | Partner          | EAN rejected, because the length chart was not submitted. Please submit a length chart.   | Article Status Overview |

|                  |        |   |         |  |                         |
|------------------|--------|---|---------|--|-------------------------|
| <b>ACSREJ_12</b> | in use | Selected article color does not match image | Partner | EAN rejected, because the color name differs from the color of the images or the identical color name was assigned to two different articles. Please adjust accordingly. | Article Status Overview |
| <b>ACSREJ_15</b> | in use | Commodity group not allowed                 | Partner | EAN rejected, because article information is not allowed/not present. Please see the Onboarding Tracker comment.   | Article Status Overview |
| <b>ACSREJ_16</b> | in use | Brand not allowed                           | Partner | EAN rejected, because the selected brand is not allowed. Please reach out to your dedicated Operations Specialist.   | Article Status Overview |
| <b>ACSREJ_17</b> | in use | Article already existing                    | Partner | EAN rejected, because the model ID of this article is in use for a different article. Please reach out to your dedicated Operations Specialist.                          | Article Status Overview |
| <b>ACSREJ_18</b> | in use | Article from old season                     | Partner | Check the article season or deactivate the article. Ask Zalando Partner Program for further guidance on the seasonal process.  | Article Status Overview |
| <b>ACSREJ_19</b> | in use | Images show different articles              | Partner | EAN rejected, because the images show several different articles (e.g. packshot shows a shirt   model views show only trousers). Please adjust accordingly.              | Article Status Overview |

|                  |        |   |         |  |                         |
|------------------|--------|---|---------|--|-------------------------|
| <b>ACSREJ_20</b> | in use | Model does not meet Zalando requirements            | Partner | EAN rejected, because the model images are not compliant with Zalando Model guidelines. Please submit corrected images.  | Article Status Overview |
| <b>ACSREJ_21</b> | in use | Images and article data do not match                | Partner | EAN rejected, because the description and other content provided does not match the images(e.g. content describes trousers   images show a shirt). Please review submitted data.       | Article Status Overview |
| <b>ACSREJ_22</b> | in use | Article already existing                            | Partner | EAN rejected, because the submitted article is already available on a different model ID(e.g. article already available on model ID 1234, please move the sent EANs to 1234 model ID). | Article Status Overview |
| <b>ACSREJ_23</b> | in use | First view does not meet Zalando requirements       | Partner | EAN rejected, because the first view does not meet Zalando requirements. Please submit correct first view image.   | Article Status Overview |
| <b>ACSREJ_24</b> | in use | Depicted article does not meet Zalando requirements | Partner | Change the images according to the Zalando Partner Program Image Guidelines as the depicted article cannot be used that way or deactivate the article.                                 | Article Status Overview |
| <b>ACSREJ_25</b> | in use | Season not allowed                                  | Partner | Check the season or deactivate the article. Ask Zalando Partner Program for further guidance about the season process.   | Article Status Overview |

|                  |        |   |         |  |                         |
|------------------|--------|---|---------|--|-------------------------|
| <b>ACSREJ_26</b> | in use | Not enough sizes                                  | Partner | EAN rejected, because the minimum (3 consecutive sizes for apparel and 5 for footwear) amount of sizes was not submitted. Please check if enough consecutive sizes with stock are transmitted; if so, please mark the article as corrected and ask your operations manager to trigger the re-import. | Article Status Overview |
| <b>ACSREJ_27</b> | in use | Size run incomplete                               | Partner | EAN rejected, because the submitted size run is incomplete(e.g.: XS, S, XXL). Please submit at least 5 consecutive sizes for footwear/3 for apparel.   | Article Status Overview |
| <b>ACSREJ_28</b> | in use | Gender inconsistency within article data          | Partner | Check your article data Within any possible values there is an indication for different age groups there is an indication for different genders. For example, male has been selected but women mentioned in the article description.   | Article Status Overview |
| <b>ACSREJ_29</b> | in use | Age inconsistency within article data             | Partner | Check your article data Within any possible values there is an indication for different age groups. For example, adult has been mapped but in the article description is mentioned kids.   | Article Status Overview |
| <b>ACSREJ_30</b> | in use | Silhouette does not match picture or article data | Partner | Compare selected silhouette with images or content of article. They do not match with each other. If the images and content are correct, change the silhouette accordingly.  | Article Status Overview |

|                  |        |   |         |  |                         |
|------------------|--------|---|---------|--|-------------------------|
| <b>ACSREJ_32</b> | in use | Background does not meet Zalando requirements | Partner | EAN rejected, because the background color does not meet Zalando requirements. Please submit corrected images that meets Zalando guidelines. | Article Status Overview |
| <b>ACSREJ_33</b> | in use | Mandatory images missing                      | Partner | EAN rejected, because the mandatory images are missing. Please submit missing images.  | Article Status Overview |
| <b>ACSREJ_34</b> | in use | Inner backview missing from packshot          | Partner | EAN rejected, because the inner backview is missing from the packshot. Please submit corrected images.                                       | Article Status Overview |
| <b>ACSREJ_35</b> | in use | Mannequin visible on packshot                 | Partner | EAN rejected, because the mannequin is visible on the packshot. Please remove the mannequin from the article packshot.                       | Article Status Overview |
| <b>ACSREJ_36</b> | in use | Color differences between images              | Partner | EAN rejected, because the images show the same article in different colors. Please only send the images for the article's supplier color.    | Article Status Overview |
| <b>ACSREJ_37</b> | in use | Reflections or shadows                        | Partner | EAN rejected, because the mandatory images shows a reflection/shadow. Please submit corrected images.  | Article Status Overview |
| <b>ACSREJ_38</b> | in use | Article laid out flat in article image        | Partner | EAN rejected, because the adult textile's packshot is laid out flat. Please shoot article on a mannequin and submit corrected images.        | Article Status Overview |

|                  |        |  |         |   |                         |
|------------------|--------|--|---------|---|-------------------------|
| <b>ACSREJ_39</b> | in use | Article not centered in article image                    | Partner | Check all images and change the alignment of the wrong one so that the article is centered or deactivate the article.   | Article Status Overview |
| <b>ACSREJ_40</b> | in use | Sports size chart missing                                | Partner | EAN rejected, because it is a sports article, but a sport size chart was not submitted. Please provide a correct size chart.  | Article Status Overview |
| <b>ACSREJ_41</b> | in use | Size chart gender does not match selected article gender | Partner | EAN rejected, because the size chart name includes a different gender than the content/images. Please provide a correct size chart.                                 | Article Status Overview |
| <b>ACSREJ_42</b> | in use | One Size size chart missing                              | Partner | EAN rejected, a because the article is a one size article submitted with chart for multiple sizes(S,M,L). Please submit a OneSize size chart.                       | Article Status Overview |
| <b>ACSREJ_43</b> | in use | Supplier size delimiter wrong                            | Partner | EAN rejected, because the sizes are submitted with a wrong format/delimiter(e.g. size 4,5 provided   size chart only includes size 4.5). Please adjust accordingly. | Article Status Overview |
| <b>ACSREJ_46</b> | in use | Heel height missing                                      | Partner | EAN rejected, because the heel height was not sent or the height is obviously wrong. Please submit correct height.  | Article Status Overview |
| <b>ACSREJ_47</b> | in use | Measurements missing                                     | Partner | EAN rejected, because a mandatory measurement is missing/wrong. Please submit corrected measurements.   | Article Status Overview |

|                  |        |                          |         |   |                         |
|------------------|--------|--------------------------|---------|---|-------------------------|
| <b>ACSREJ_48</b> | in use | Upper material missing   | Partner | EAN rejected, because upper material is missing/wrong(e.g Submitted: 100% cotton   looks more like real leather). Please submit corrected information.                                  | Article Status Overview |
| <b>ACSREJ_49</b> | in use | Inner material missing   | Partner | EAN rejected, because the inner material information of the shoe is missing/wrong. Please submit corrected information.   | Article Status Overview |

| <b>PSERR_62</b>  | Automatic Reject | No images set   | Partner | No available images or image download failed   | Article Status Overview |
| <b>PSERR_63</b>  | Automatic Reject | Not all images comply with Zalando technical requirements | Partner | EAN rejected, because the images do not meet Zalando technical requirements (pixel size, resolution, format, etc). Please send corrected images.   | Article Status Overview |

|                  |                  |   |                 |  |                         |
|------------------|------------------|---|-----------------|--|-------------------------|
| <b>PSERR_64</b>  | Automatic Reject | Invalid article season  | Partner         | EAN rejected, because the article season is not included in the Partner Master Data. Please adjust the season for the rejected EAN or reach out to your Operations Specialist to have the season included in your Master Data. | Article Status Overview |
| <b>PSERR_81</b>  | Automatic Reject | Season is not allowed for new article creation (EAN-matching allowed)             | Partner         | Review article data  | Article Status Overview |
| <b>PSERR_88</b>  | Automatic Reject | Flag 1 article rejected, because partner stock was blacklisted due to old season. | Partner/Zalando | Flag 1 article rejected, because partner stock was blacklisted due to old season. In case you would like to reactivate the article, please reach to your dedicated Operations Specialist.                                      | Article Status Overview |
| <b>PSERR_98</b>  | Automatic Reject | EAN is associated to another article within Zalando                               | Partner         | Review article data  | Article Status Overview |
| <b>PSERR_101</b> | Automatic Reject | Article silhouette not allowed  | Partner         | EAN rejected, because the silhouette is not included in Partner Master Data. Please reach out to your dedicated operations specialist.   | Article Status Overview |
| <b>PSERR_104</b> | Automatic Reject | At least one mandatory attribute for the product is not set                       | Partner         | Set all mandatory attributes.  | Article Status Overview |
| <b>PSERR_110</b> | Automatic Reject | Invalid size grid   | Partner         | EAN rejected, because the size grid is not included in the Partner Master Data. Please reach out to your dedicated Operations Specialist.  | Article Status Overview |

|                  |                  |   |                 |   |                         |
|------------------|------------------|---|-----------------|---|-------------------------|
| <b>PSERR_118</b> | Automatic Reject | The sum of the material composition is not 100%   | Partner         | EAN rejected, because the sum of the material composition is not 100%. Please review the submitted information.   | Article Status Overview |
| <b>PSERR_129</b> | Automatic Reject | Brand is not allowed  | Partner/Zalando | EAN rejected, because the brand is not included in Partner Master Data. Please reach out to your dedicated Operations Specialist.   | Article Status Overview |
| <b>PSERR_130</b> | Automatic Reject | The attribute sent to us is not part of the allowed master data   | Partner         | Zalando's master data provides a allowed set of attributes which can be used and mapped. At least one attribute you send us is not allowed in the master data. Please check your article mapping and stick to the attributes you can use. Example: wrong sizes or materials used. | Article Status Overview |
| <b>PSERR_131</b> | Automatic Reject | Too few sizes with stock were transmitted   | Partner         | EAN rejected, because the config doesn't have minimum number of sizes (minimum 3 for textile and 5 for shoes). Please send more sizes with stock.   | Article Status Overview |
| <b>PSERR_132</b> | Automatic Reject | Supplier size (if chosen in addition with supplier length) is not a unique value for a EAN within the color | Partner         | EAN rejected, because 2 simples from the same config have the same size. Please check all EANs within the color variant and make sure to not set a duplicate size (or combination of size and length) for the affected EANs.  | Article Status Overview |

|                  |                  |  |         |  |                         |
|------------------|------------------|--|---------|--|-------------------------|
| <b>PSERR_133</b> | Automatic Reject | Supplier size (if chosen in addition with supplier length) is not available in the selected size chart (and/or length chart) | Partner | EAN rejected, because the article contains a size that is not contained within the given size-chart. Please select a valid size or reach out to your dedicated Operations Specialist.  | Article Status Overview |
| <b>PSERR_134</b> | Automatic Reject | Color code is not valid  | 0       | EAN rejected, because the article color does not exist in the Zalando Master Data. Please select a valid Zalando color code.   | Article Status Overview |
| <b>PSERR_135</b> | Automatic Reject | Invalid attribute option   | Partner | EAN rejected, because an attribute option (e.g "sleeve_length_option") is invalid. Please correct the attribute's mapping or reach out to your dedicated Operations Specialist.  | Article Status Overview |
| <b>PSERR_136</b> | Automatic Reject | One of the material percentages is out of allowed range [0-100]  | Partner | EAN rejected, because one (or more) materials have a percentage < 1% or > 100%. Please correct the material mapping.   | Article Status Overview |
| <b>PSERR_137</b> | Automatic Reject | An attribute is set on wrong article hierarchy level   | Partner | Attributes are existing on different article hierarchy levels. Like the Brand, silhouette or sizegrid belongs to the Model SKU, the season, pictures and color to the Config SKU and size to the Simple SKU (=EAN). If you set an attribute on the wrong hierarchy it will be rejected | Article Status Overview |

|                  |                  |   |         |   |                         |
|------------------|------------------|---|---------|---|-------------------------|
| <b>PSERR_138</b> | Automatic Reject | Invalid format of material composition  | Partner | EAN rejected, because the material composition code percentage is not 4 to 5 digits long (e.g. : "CO 6000" means that material "CO" is 60% of the article or "CO 10000" means that material "CO" is 100%). Please correct the material composition mapping. | Article Status Overview |
| <b>PSERR_139</b> | Automatic Reject | Article data (on size level) is associated to another simple SKU within Zalando | Partner | EAN rejected, because the article data provided is duplicated within the Model ID. Please provide unique values on size level   | Article Status Overview |
| <b>PSERR_140</b> | Automatic Reject | Duplicates in material composition  | Partner | EAN rejected, because the provided product material composition includes duplicates (e.g. 58% polyester, 42% polyester). Please set valid material composition.   | Article Status Overview |
| <b>PSERR_141</b> | Automatic Reject | Zalando Wardrobe articles should be flagged as "pre-owned"                      | Partner | EAN rejected, because a Zalando Wardrobe (Zircle) article is not flagged as "pre-owned".  | Article Status Overview |
| <b>PSERR_142</b> | Automatic Reject | Incorrect "pre-owned" flag  | Partner | EAN rejected, because only Zalando Wardrobe (Zircle) articles should be flagged as "pre-owned" - all other articles should not have this flag.  | Article Status Overview |
| <b>PSERR_143</b> | Automatic Reject | Brand cannot be sold on Zalando   | Zalando | EAN rejected, because the brand is inactive. Please reach out to your dedicated Operations Specialist.  | Article Status Overview |

|                  |                  |   |         |   |                         |
|------------------|------------------|---|---------|---|-------------------------|
| <b>PSERR_144</b> | Automatic Reject | A mandatory attribute is missing                | Partner | At least one mandatory attribute for the Outline / Article Type is missing. Please check the requirements for this Outline / Article type, map the missing mandatory attribute and submit the article again.                              | Article Status Overview |
| <b>PSERR_145</b> | Automatic Reject | A mapped attribute is not supported             | Partner | At least one of the mapped attributes cannot be used with the selected Article Type. Please correct the article mapping by removing the wrong attribute and submit the article again.   | Article Status Overview |
| <b>PSERR_146</b> | Automatic Reject | A mapped attribute contains too many values     | Partner | At least one of the mapped attributes has too many values applied. Please check the requirements for the Outline / Article type, correct the values provided with it (some attributes only allow one value) and submit the article again. | Article Status Overview |
| <b>PSERR_147</b> | Automatic Reject | A mapped attribute contains an unexpected value | Partner | At least one of the mapped attributes contains values which are not supported. Please check which values are supported for the Outline / Article type, correct or remove the wrong value and submit the article again.                    | Article Status Overview |

|                  |                  |   |         |  |                         |
|------------------|------------------|---|---------|--|-------------------------|
| <b>PSERR_148</b> | Automatic Reject | Article variants of the same model are mapped with the same color codes combination                   | Partner | Two or more article variants belonging to the same model are mapped with the same color codes combination. Please make sure that a unique color code combination is assigned to each article variant and submit the article again. | Article Status Overview |
| <b>PSPRO_01</b>  | Backlog          | Partner Service processing backlog  | Zalando | Article Status in Partner Service is not calculated at the point of ASR generation. Should be resolved within the next generation cycle. Status was calculated by the ASR logic.   | Article Status Overview |
| <b>PSPRO_02</b>  | Backlog          | Partner Service processing backlog  | Zalando | Article Status in Partner Service is not calculated at the point of ASR generation. Should be resolved within the next generation cycle. Status was taken from the Partner Service itself.   | Article Status Overview |
| <b>PSCLA_01</b>  | Reject           | Must be checked, external product number edited   | Partner | To be checked with Zalando Partner Program. External identifier issue.   | Article Status Overview |
