

# C-Leg vs Competitors' MPKs Study Summaries

The summaries are organized in three levels depending on the detail of information. The overview table (Level 1) lists all the relevant publications dealing with a particular product (topic) as well as researched categories (e.g. level walking, safety, activities, etc). By clicking on individual categories, a summary of all the literature dealing with that category will open (Level 2).

For those interested to learn more about individual studies, a summary of the study can be obtained by clicking on the relevant reference (Level 3).

Reference			Category									
			Functions and Activities								Participation	Environment
Author	Year	Products	<u>Level Walking</u>	<u>Stairs</u>	<u>Ramps, Hills</u>	<u>Uneven ground Obstacles</u>	<u>Cognitive demand</u>	<u>Metabolic Energy Consumption</u>	<u>Safety</u>	<u>Activity, Mobility, ADL</u>	<u>Preference Satisfaction QoL</u>	<u>Health economics</u>
