

Patella Pro Study Summaries

The summaries are organized in three levels depending on the detail of information. The overview table (Level 1) lists all the relevant publications dealing with a particular product (topic) as well as researched categories (e.g. biomechanics, X-Ray, functional tests, etc). By clicking on individual categories, a summary of all the literature dealing with that category will open (Level 2) if enough information is available.

For those interested to learn more about individual studies, a summary of the study can be obtained by clicking on the relevant reference (Level 3).

Reference		Category						
		Functions and Activities						Participation
Author	Year	<u>Biomechanics – Static measures</u>	<u>Biomechanics – Gait analysis</u>	X-Ray	EMG	Functional tests	Clinical effects	Satisfaction
<u>Petersen</u>	2016						x	
<u>Becher</u>	2014	x						
<u>Brüggemann</u>	2010	x						
Total number: 3		2					1
