

Study Summaries on Bebionic Hand

The summaries are organized in three levels depending on the detail of information. The overview table (Level 1) lists all the relevant publications dealing with a particular product (topic) as well as researched categories (e.g. level walking, safety, activities, etc.). The Level 2 summaries list all relevant information on the device concerning a specific category (e.g. level walking, safety, activities, etc.).

For those interested in learning more about individual studies, the summaries (Level 3) provide a concise synthesis of the respective references.

Reference		Category								Prosthesis
		Body Functions		Activity			Participation	Others		
Author	Year	Mechanics	Pain	Grip patterns / Force	Manual dexterity	ADL	Satisfaction / QoL	Training	Technical aspects	
<u>Wijk</u>	2024		x			x	x			
<u>Widehammer</u>	2022		x	x	x	x	x			
<u>Kannenberg</u>	2022					x
