

# Harmony Study Summaries

The summaries are organized in three levels depending on the detail of information. The overview table (Level 1) lists all the relevant publications dealing with a particular product (topic) as well as researched categories (e.g. level walking, safety, activities, etc). The Level 2 summaries list all relevant information on the device concerning a specific category (e.g. level walking, safety, activities, etc.). For those interested to learn more about individual studies, the Level 3 summaries give a compact and concise summary of the relevant reference.

Reference		Category									
		Body Function				Activity			Participa- tion	Others	
Author	Year	<u>Healing</u>	<u>Limb Volume Fluctuation</u>	<u>Pain</u>	<u>Comfort, Limb Health</u>	<u>Level Walking</u>	<u>Balance</u>	<u>Activity, Mobility, ADLs</u>	<u>Preference, Satisfaction, QoL</u>	<u>Pistoning</u>	<u>Pressure Measure- ments</u>
