

EXOPULSE Mollii Suit Study Summaries

The summaries are organized in three levels depending on the detail of information. The overview table (Level 1) lists all the relevant publications dealing with a particular product (topic) as well as researched categories (e.g. level walking, safety, activities, etc). By clicking on individual categories, a summary of all the literature dealing with that category will open (Level 2).

For those interested to learn more about individual studies, a summary of the study can be obtained by clicking on the relevant reference (Level 3).

Reference			Category									
			Body Functions			Activity			Participation	Environment	Others	
Author	Year	Products	<u>Biomechanical (ROM)</u>	<u>Medical (Pain/Injuries)</u>	<u>Other</u>	<u>Upper extremity function</u>	<u>Lower extremity function</u>	<u>Safety</u>	<u>Activity, Mobility, ADLs</u>	<u>Preference, Satisfaction, QoL</u>	<u>Health Economics</u>	<u>Technical aspects</u>
