

# Agilium Reactive Study Summaries

The summaries are organized in three levels depending on the detail of information. The overview table (Level 1) lists all the relevant publications dealing with a particular product (topic) as well as researched categories (e.g. biomechanics, X-Ray, functional tests, etc.). By clicking on individual categories, a summary of all the literature dealing with that category will open (Level 2) if enough information is available.

For those interested to learn more about individual studies, a summary of the study can be obtained by clicking on the relevant reference (Level 3).

Reference		Category						
		Functions and Activities						Participation
Author	Year	Biomechanics – Static measures	Biomechanics – Gait analysis	X-Ray	EMG	Functional tests	<u>Clinical effects</u>	<u>Satisfaction</u>
<a href="#"><u>Liebau</u></a>	2017						x	x
<b>Total number: 1</b>		0	0	0	0	0	1	1
