

E-MAG Active Study Summaries

The summaries are organized in three levels depending on the detail of information. The overview table (Level 1) lists all the relevant publications dealing with a particular product (topic) as well as researched categories (e.g., biomechanics, X-Ray, functional tests, etc.). The Level 2 summaries list all relevant information on the device concerning a specific category (e.g. level walking, safety, activities, etc.).

For those interested in learning more about individual studies, the summaries (Level 3) provide a concise synthesis of the respective references. The corresponding summary can be accessed by clicking on the relevant reference.

Reference		Category							
		Functions and Activities						Participation	Environment
Author	Year	Biomechanics – Static measures	Biomechanics – Gait analysis	X-Ray	EMG	Functional tests	Clinical effects	Satisfaction	Health Economics
<u>Raijmakers</u>	2024		x				x	x	
<u>Schmalz</u>	2022	x	x			x			
<u>Schröder</u>	2018		x			x		x	
<u>Kim</u>	2016		x			x
