

C-Leg in limited community ambulators (MFCL2)

The summaries are organized in three levels depending on the detail of information. The overview table (Level 1) lists all the relevant publications dealing with a particular product (topic) as well as researched categories (e.g. level walking, safety, activities, etc). The Level 2 summaries list all relevant information on the device concerning a specific category (e.g. level walking, safety, activities, etc.).

For those interested to learn more about individual studies, the Level 3 summaries give a compact and concise summary of the relevant reference.

Reference		Category									
		Functions and Activities								Participation	Environment
Author	Year	<u>Level walking</u>	<u>Stairs</u>	<u>Ramps, Hills</u>	<u>Uneven ground Obstacles</u>	Cognitive demand	Metabolic Energy Consumption	<u>Safety</u>	<u>Activity Mobility ADL</u>	<u>Preference Satisfaction QoL</u>	Health economics
