

**I-Buy Fast<sup>SM</sup>**

**SET PRICE,  
IMMEDIATE SALE**

**The I-Buy Fast<sup>SM</sup> program from Insurance Auto Auctions (IAA) allows buyers to purchase vehicles that did not sell in the first auction run for a set online price between auctions. This immediate purchase option is designed to ensure vehicles are sold as quickly and efficiently as possible.**

Rather than allowing unsold vehicles to sit until the next auction, I-Buy Fast enables potential buyers to view and purchase your vehicles online at any time. Users are able to view vehicle details, images and price, and I-Buy Fast vehicles often sell for more than they would earn at auction.

Selling your vehicle through I-Buy Fast provides:

- Additional exposure for your vehicles between auction dates
- The opportunity to sell your vehicles for a fixed price
- The potential to reduce cycle time and storage costs, and earn higher returns

***I-Buy Fast exposes your inventory to IAA's mature, global buyer base that includes customers in more than 110 countries worldwide.***
