

ANNOUNCEMENT

IAA Marks New Fort Worth North Facility with Grand Opening Event

On Tuesday, May 22, IAA celebrated the grand opening of its Fort Worth North facility, located in Justin, Texas with the Denton County Chamber of Commerce as well as several local officials, business, buyer and clients. The new location is company's largest facility in North America including over 200 acres of vehicle capacity and 18,000 square feet of facility space.

"This new facility in the Dallas-Fort Worth area is our 16th location in the state of Texas and compliments our Grand Prairie and Wilmer locations," commented John Kett, CEO and president of IAA. "It will offer a wider vehicle selection for buyers and ensure critical reserve capacity for catastrophic events."

The auction is located at 3748 McPherson Dr., Justin, TX within a mile of Interstate 35. Vehicle preview is Monday, from 12:00 p.m. to 4:30 p.m. and auctions held weekly on Tuesday's beginning at 9:00 a.m.
