Andres Fernando Saa

Frontend Developer

👤 Profile

Frontend Developer with over 3 years of experience who enjoys learning new technologies and collaborating with others to deliver high-quality, user-friendly websites and applications.

💼 Employment History

React Developer at Kin + Carta, Remote

May 2022 — February 2024

- Developed a single-page web application using **React**, **Redux**, and **TypeScript** that enabled users to apply for student loans with an enhanced experience
- Utilized the **GitHub** platform to create and review pull requests created by teammates
- Reached 80%+ coverage in **Sonarqube** by writing unit tests for components using **Jest** and **React testing library** to ensure code stability and reduce bugs

Full Stack Developer at RedValley, Medellin

March 2021 — May 2022

- Created a RESTful API that allowed for seamless integration with other applications by using the **Nest.js** framework and **Postgres** database
- Developed a secure authentication system that ensured user privacy and data security by using **JWT**
- Created reusable components to reduce code duplication and improve development experience

Frontend Developer at Abocato, Medellin

December 2020 — March 2021

- Implemented a single-page application using **Next.js** that improved overall performance and usability
- Integrated third-party APIs to provide additional functionality and improve user experience by using the backend API functionalities of Next.js
- Deployed the application to allow users to interact with it by using **Vercel**, connecting the repository, and adding the environment variables

🎓 Education

Systems and Computing Engineering, Technological University of Pereira, Pereira

February 2012 — February 2020

Throughout my career, I have gained extensive knowledge in **programming**, **databases**, **hardware**, and **business administration**.
