PROFESSIONAL SUMMARY

Result-driven **frontend developer with 3+ years of experience** building high-performance, scalable web applications for education and healthcare industries. Proficient in **Angular, React, Vue.js, Next.js, and headless CMS (Strapi, Contentful)**. Delivered **40% faster page speeds** and **50% reduced client workloads** through reusable component libraries, SEO optimization, and streamlined workflows. Passionate about merging technical precision with user-centric design to drive measurable business outcomes.

WORK EXPERIENCE

Xcentium – Frontend Developer

AUGUST 2023–NOW

- Designed and maintained 15+ reusable components for **DGA and Xcentium's** corporate websites utilizing **Next.js and TailwindCSS**, achieving a **20% boost in development efficiency through robust state management** and modular coding practices.
- Engineered and maintained static pages for **AHA Healthcarebyfood's** practitioner and research hubs using **Vue.js**, integrating the **Coveo Atomic** framework to elevate search functionality and user engagement, resulting in a **60% performance improvement and 30% increase in page speed**.
- Spearheaded the development of **Isagenix's** healthcare-focused product page and pack builder, leveraging **jQuery** and translating **Figma wireframes into responsive, interactive interfaces** – enhancing user experience, streamlining workflows, and **reducing navigation time by 15%**.

iSchoolConnect Technologies – Frontend Developer

MARCH 2022 – JULY 2023

- Engineered and maintained feature-rich student and advisor dashboards** using **Angular**, enhancing usability and driving a **20% increase in user engagement** through iterative improvements.
- Designed and deployed a mid-level division user role with dual-tier access, streamlining administrative workflows and **reducing administrative workload by 50% through role-based task automation**.
- Developed a modular component library with Angular, enabling **code reusability across 3+ applications**, including SSR-powered landing pages (**Angular Universal**), **accelerating development cycles by 30%**.
- Optimized SSR page performance by 40%** by addressing Core Web Vitals (**LCP, FCP**), **compressing JavaScript bundles by 35%**, and eliminating render-blocking scripts through strategic **lazy-loading**.
- Pioneered SEO-driven landing pages** by integrating structured data schemas and headless CMS (**Strapi**), aligning technical execution with business goals through cross-functional collaboration, resulting in a **25% boost in organic traffic**.

TECHNOLOGY ARRAY

CORE LANGUAGES :

HTML5 | CSS3 | Javascript(ES6+) | Typescript

FRAMEWORKS AND ECO SYSTEM:

Angular(10+) | ReactJS (Typescript) | NextJs | VueJS | JQuery | React Router | TailwindCSS | Bootstrap | Axios

BACKEND & CMS:

Contentful | ContentStack | Strapi | Firebase | MongoDB

DEVOPS & TOOLS:

Git | Github | CI/CD | Docker | Vercel | Webpack | Babel | Gulp | Jira | Notion

OPEN SOURCE PROJECTS

ANGULAR DRIVE APP:

[🔗 Live Link: https://hero-contacts.vercel.app](https://hero-contacts.vercel.app)

A full-stack file management system enabling users to store contacts (real-time sync), securely upload files, and toggle between dark/light themes. Features include Firebase Email/Google authentication, optimized file retrieval (sub-200ms load times), and scalable cloud infrastructure ensuring 99.9% uptime.

🔧 Technologies Used: **Angular** | **TailwindCSS** | **Firebase** | **Typescript** | **PWA**

YOUTUBE CLONE:

[🔗 Live Link: https://abbas-yt-clone.web.app](https://abbas-yt-clone.web.app)

A full-stack file management system enabling users to store contacts (real-time sync), securely upload files, and toggle between dark/light themes. Features include Firebase Email/Google authentication, optimized file retrieval (sub-200ms load times), and scalable cloud infrastructure ensuring 99.9% uptime.

🔧 Technologies Used: **React** | **TailwindCSS** | **Firebase (Auth)** | **Javascript** | **YouTube Data API V3**

EXPENSE TRACKER APP:

[🔗 Live Link: https://react-expense-tracker-swart.vercel.app](https://react-expense-tracker-swart.vercel.app)

A React-based financial tracking tool engineered to monitor, filter, and visualize expenses by year, featuring interactive charts for real-time insights. Designed with dynamic data visualization to simplify expense categorization and trend analysis, prioritizing intuitive user interaction and responsive design.

🔧 Technologies Used: **React** | **CSS3** | **Javascript**

FOOD ORDER APP:

[🔗 Live Link: https://my-food-order-app.vercel.app](https://my-food-order-app.vercel.app)

A React-driven application enabling users to browse meals, customize quantities, and place orders seamlessly. Engineered with React Hooks and Context API for efficient state management, ensuring real-time cart updates and a fluid user experience.

🔧 Technologies Used: **React** | **React Context API** | **CSS3**

CONTACTS MANAGEMENT PWA:

[🔗 Live Link: https://my-js-contacts-app.vercel.app](https://my-js-contacts-app.vercel.app)

A lightweight, framework-free progressive web app for managing contacts with full CRUD functionality, dynamic form generation, and real-time validation. Engineered caching strategies for offline access and PWA installation capabilities, achieving <100ms load times through optimized vanilla JavaScript and modern browser APIs.

🔧 Technologies Used: **Vanilla JavaScript(ES6+)** | **HTML5** | **CSS3** | **Web Storage API** | **Service Workers** | **PWA**

EDUCATION

BE - MECHANICAL

University of Mumbai - (8.82 CGPA)

2017 - 2020

DIPLOMA IN MECHANICAL ENGINEERING

Maharashtra Board - (77% percent)

2018-2019
