

# ABBAS SHAIKH

## Frontend Tech Lead

+91 7977166580 Mumbai, India [abbas-web-resume.vercel.app](https://abbas-web-resume.vercel.app) [Abbas4engg@gmail.com](mailto:Abbas4engg@gmail.com)  
<https://www.linkedin.com/in/abbas-shaikh-2073a5a9/> [Abbas4tech](#)

### PROFESSIONAL SUMMARY

Accomplished **Frontend Tech Lead** with **4+** years **architecting scalable React/Next.js** applications for **global e-commerce clients**. Pioneered **monorepo architectures**, type-safe BFFs, and **design systems with Tailwind/Shadcn UI—delivering 30-50% gains in efficiency**, consistency, and reliability. Excel at **leading teams, mentoring developers**, and driving business-aligned outcomes in **fast-paced settings**.

### WORK EXPERIENCE

#### Scott Sports – Frontend Tech Lead

NOVEMBER 2025 – NOW

- Built **10+ reusable Turborepo UI components** with **Storybook** and **Vitest** tests, boosting team development efficiency **25%**.
- Engineered **Nitro BFF middleware** with **OpenAPI** for SAP Commerce Cloud, enabling **type-safe APIs and cutting integration errors 40%**.
- Delivered **centralized Tailwind config** POC across **Turborepo monorepo (B2B, DTC, UI, Storybook)**, reducing maintenance **30%**.
- Led India frontend team** to hit deadlines, increasing sprint velocity **20%** through **targeted mentoring**.
- Drove **cross-team collaboration** and **code reviews** with outsourced developers, **improving product quality 35%**.

#### Xcentium – Frontend Developer

AUGUST 2023–NOW

- Next.js & Tailwind UI Systems: Built 15+ reusable UI components** for corporate websites using **Next.js and TailwindCSS**, improving development efficiency by **20% through modular design and atomic state management**.
- Revamped **Directors Guild of America (DGA) frontend**, migrating legacy jQuery systems to **React with Next.js**. Implemented **Headless UI and TailwindCSS** to build **20+ reusable components**, improving **site loading speed by 45%** and development efficiency by **60%** through modular architecture.
- Engineered **Search and Kiosk features** for **Meritage Homes** using **React/Next.js**. Managed complex state with **Redux** and **integrated react-hook-form** for seamless form handling with business logic, while implementing **GraphQL** for efficient data retrieval with Integration of **Google maps**.

#### iSchoolConnect Technologies – Frontend Developer

MARCH 2022 – JULY 2023

- Engineered and maintained feature-rich student and advisor dashboards** using **Angular**, enhancing usability and driving a **20% increase in user engagement** through iterative improvements.
- Designed and deployed a mid-level division user role with dual-tier access, streamlining administrative workflows and **reducing administrative workload by 50% through role-based task automation**.
- Developed a modular component library with Angular, enabling **code reusability across 3+ applications**, including SSR-powered landing pages (**Angular Universal**), **accelerating development cycles by 30%**.
- Optimized SSR page performance by 40%** by addressing Core Web Vitals (**LCP, FCP**), **compressing JavaScript bundles by 35%** with **lazy-loading** and **CSS Optimisation**.
- Pioneered SEO-driven landing pages** by integrating structured data schemas and headless CMS (**Strapi**), aligning technical execution with business goals through cross-functional collaboration, resulting in a **25% boost in organic traffic**. Created components with **SCSS** and **Integrated TailwindCSS styling**.

## TECHNOLOGY ARRAY

---

### CORE LANGUAGES :

HTML5 | CSS3 | Javascript(ES6+) | Typescript

### FRAMEWORKS AND ECO SYSTEM:

Angular(10+) | ReactJS (Typescript) | NextJs | React Router | TailwindCSS | Bootstrap | Axios | GraphQL

### BACKEND & CMS:

Contentful | ContentStack | Strapi | Firebase | MongoDB

### DEVOPS & TOOLS:

Git | Github | CI/CD | Docker | Vercel | Webpack | Babel | Gulp | Jira | Notion

## OPEN SOURCE PROJECTS

---

### GHOST-MSG

[🔗 Live Link: https://ghost-msg.vercel.app/](https://ghost-msg.vercel.app/)

An anonymous message platform built with **Next.js**, designed with **serverless API routes** to handle secure communication and data flow. Integrated robust **authentication using NextAuth** with both **credentials and Google OAuth providers**, ensuring a seamless user login experience. Implemented **MongoDB** as the primary database for scalable, reliable, and persistent data storage. The project demonstrates strong expertise in building **full-stack applications** with modern web technologies, authentication systems, and database integration.

🔧 Technologies Used: **React | Nextjs | NextAuth | MongoDB | Shadcn | TailwindCSS**

### ANGULAR DRIVE:

[🔗 Live Link: https://hero-contacts.vercel.app](https://hero-contacts.vercel.app/)

A full-stack file management system enabling users to store contacts (real-time sync), securely upload files, and toggle between dark/light themes. Features include Firebase Email/Google authentication, optimized file retrieval (sub-200ms load times), and scalable cloud infrastructure ensuring 99.9% uptime.

🔧 Technologies Used: **Angular | TailwindCSS | Firebase | Typescript | PWA**

### YOUTUBE CLONE:

[🔗 Live Link: https://abbas-yt-clone.web.app](https://abbas-yt-clone.web.app/)

A full-stack file management system enabling users to store contacts (real-time sync), securely upload files, and toggle between dark/light themes. Features include Firebase Email/Google authentication, optimized file retrieval (sub-200ms load times), and scalable cloud infrastructure ensuring 99.9% uptime.

🔧 Technologies Used: **React | TailwindCSS | Firebase (Auth) | Javascript | YouTube Data API V3**

### FOOD ORDER APP:

[🔗 Live Link: https://my-food-order-app.vercel.app](https://my-food-order-app.vercel.app/)

A React-driven application enabling users to browse meals, customize quantities, and place orders seamlessly. Engineered with React Hooks and Context API for efficient state management, ensuring real-time cart updates and a fluid user experience.

🔧 Technologies Used: **React | React Context API | CSS3**

### CONTACTS MANAGEMENT PWA:

[🔗 Live Link: https://my-js-contacts-app.vercel.app](https://my-js-contacts-app.vercel.app/)

A lightweight, framework-free progressive web app for managing contacts with full CRUD functionality, dynamic form generation, and real-time validation. Engineered caching strategies for offline access and PWA installation capabilities, achieving <100ms load times through optimized vanilla JavaScript and modern browser APIs.

🔧 Technologies Used: **Vanilla JavaScript(ES6+) | HTML5 | CSS3 | Web Storage API | Service Workers | PWA**

## EDUCATION

---

### BE - MECHANICAL

University of Mumbai - ( 8.82 CGPA )

2017 - 2020

### DIPLOMA IN MECHANICAL ENGINEERING

Maharashtra Board - ( 77% percent )

2018-2019
